## **Art History: a Very Short Introduction 2020-01-23**

art history encompasses the study of the history and development of painting sculpture and the other visual arts in this very short introduction dana arnold presents an introduction to the issues debates and artefacts that make up art history beginning with a consideration of what art history is she explains what makes the subject distinctive from other fields of study and also

explores the emergence of social histories of art such as feminist art history and queer art history using a wide range of images she goes on to explore key aspects of the discipline including how we write present read and look at art and the impact this has on our understanding of art history this second edition includes a new chapter on global art histories considering how the traditional emphasis on periods and styles in art originated in western art and can obscure other critical approaches and artwork from non western cultures arnold also discusses the relationship between art and history and the ways in which art can tell a different history from the one narrated by texts about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

## **But is it Art? 2001**

in today s art world many strange even shocking things qualify as art in this book cynthia freeland explains why innovation and controversy are valued in the arts weaving together philosophy and art theory with many fascinating examples she discusses blood beauty culture money museums sex and politics clarifying contemporary and historical accounts of the nature function and interpretation of the arts freeland also propels us into the future by surveying state of the art web sites along with cutting edge research on the brain s role in perceiving art this clear provocative book engages with the big debates surrounding our responses to art and should prove an invaluable introduction to anyone interested in thinking about art

## **Art 1985-01-01**

profusely illustrated text explains how to understand and appreciate major forms of fine art produced from prehistoric times to the present

## **What is Art? 1980**

what do we mean by art as a category of objects the concept belongs to a western cultural tradition originally european and now increasingly global but how useful is it for understanding other traditions to understand art as a universal human value we need to look at how the concept was constructed in order to reconstruct it through an understanding of the wider world western art values have a pervasive influence upon non western cultures and upon western attitudes to them this innovative yet accessible new text explores the ways theories of art developed as western knowledge of the world expanded through exploration and trade conquest colonisation and research into other cultures present and past it considers the issues arising

from the historical relationships which brought diverse artistic traditions together under the influence of western art values looking at how art has been used by colonisers and colonised in the causes of collecting and commerce cultural hegemony and autonomous identities world art questions conventional western assumptions of art from an anthropological perspective which allows comparison between cultures it treats art as a property of artefacts rather than a category of objects reclaiming the idea of world art from the art world this book is essential reading for all students on anthropology of art courses as well as students of museum studies and art history based on a wide range of case studies and supported by learning features such as annotated further reading and chapter opening summaries

## **World Art 2020-07-12**

since the nineteenth century when art history became an established academic discipline works of art have been read in a variety of ways these different ways of describing and interpreting art are the methodologies of artistic analysis the divining rods of meaning regardless of a work's perceived difficulty an art object is in theory complex every work of art is an expression of its culture time and place and its maker the artist and is dependent on its media what it's made of the methodologies discussed here formal analysis iconology and iconography marxism feminism biography and autobiography psychoanalysis structuralism race and gender reflect the multiplicity of meanings in an artistic image the second edition includes nineteen new images new sections on race gender orientalism and colonialism and a new epilogue that analyzes a single painting to illustrate the different methodological viewpoints

## ***The Methodologies of Art* 2018-03-09**

bloodied toy soldiers gilded shopping carts and lego concentration camps contemporary art is supposed to be a realm of freedom where artists shock break taboos and switch between confronting viewers with works of great profundity and jaw dropping triviality but away from shock tactics in the gallery there are many unanswered questions what is contemporary about contemporary art what effect do politics and big business have on art and who really runs the art world previously published as art incorporated this controversial and witty very short introduction is an exploration of the global art scene that will change the way you see contemporary art book jacket
