object lessons is a series of short beautifully designed books about the hidden lives of ordinary things the mall near matthew newton's childhood home in pittsburgh pennsylvania was one of the state's first enclosed shopping malls like all malls in their heyday this one was a climate controlled pleasuredome where strangers converged it boasted waterfalls fish ponds an indoor ice skating rink larger than rockefeller center's and a monolithic clock tower illuminated year round beneath a canopy of interconnected skylights it also became the backdrop for filmmaker george a romero's zombie opus dawn of the dead part memoir and part case study shopping mall examines the modern mythology of the mall and shows that more than a collection of stores it is a place of curiosity ritual and fantasy object lessons is published in partnership with an essay series in the atlantic

The Report: Kuwait 2016

2016-09-16

home to the largest per capita reserves and fourth largest total reserves of crude oil within opec kuwait's public finances have suffered in 2016 following the rapid decline in oil prices which drove oil revenues down from 108.6bn in 2013 to 51.8bn in 2015 despite this kuwait has resisted significant budgetary cutbacks spending levels in 2016 were cut by just 1.6% and the considerable financial buffers built up from budget surpluses in the years leading up to 2014 are expected to cushion the budget deficit the country continues to push ahead with key public investments with parliament allocating 155bn to the kuwait development plan 2015-20 to fund infrastructure utilities and housing developments the plan focuses on further integrating the private sector into areas of the economy traditionally under state control and aims to raise the non oil sector's gdp contribution to 64% in 2020 up from an average of 45.1% in 2010-13 elsewhere promising moves are being made to cut state subsidies with the government opting to liberalise diesel and kerosene prices and reduce subsidies on aviation fuel in january 2015 generating savings equal to 0.3% of gdp

Tourism and National Parks

2012-08-21

in 1872 yellowstone was established as a national park the name caught the public's imagination and by the close of the century other national parks had been declared not only in the usa but also in australia canada and new zealand yet as it has spread the concept has evolved and diversified in the absence of any international controlling body individual countries have been free to adapt the concept for their own physical social and economic environments some have established national parks to protect scenery others to protect ecosystems or wildlife tourism has also been a fundamental component of the national parks concept from the beginning and predates ecological justifications for national park establishment though it has been

closely related to landscape conservation rationales at the outset approaches to tourism and visitor management have varied some have stripped their parks of signs of human settlement while increasingly others are blending natural and cultural heritage and reflecting national identities this edited volume explores in detail the origins and multiple meanings of national parks and their relationship to tourism in a variety of national contexts it consists of a series of introductory overview chapters followed by case study chapters from around the world including insights from the us canada australia uk spain france sweden indonesia china and southern africa taking a global comparative approach this book examines how and why national parks have spread and evolved how they have been fashioned and used and the integral role of tourism within national parks the volume s focus on the long standing connection between tourism and national parks and the changing concept of national parks over time and space give the book a distinct niche in the national parks and tourism literature the volume is expected to contribute not only to tourism and national park studies at the upper level undergraduate and graduate levels but also to courses in international and comparative environmental history conservation studies and outdoor recreation management

Consuming Scenography

2020-06-25

longlisted for the pq best publication award in performance design scenography 2023 consuming scenography offers an insight into contemporary scenographic practice beyond the theatre it explores the ways in which scenography is used to create a global cultural impact and accelerate profits in the site specific context of themed shopping malls it analyses the effect of the architectural aesthetic spatial material and sensory aspects of design through their performative encounters with consumers in order to offer a better understanding of performance design in the first part the author explores the spatial seduction of an enclosed market space and traces the origins of scenographic temporality in permanent architectonic spaces for trade and commerce from ancient greek and roman roofed markets and oriental bazaars to 19th century arcades and department stores to modern day shopping malls the second section addresses the site specific theatricality of the shopping mall considering the use of performative aspects of scenography in the creation of corporate identity it engages with production and consumption of experience in themed shopping malls using

historical aesthetical social and political lenses in the final section the author intertwines fluidity of market changes with flexibility of scenographic matter drawing attention to both contradictions and prospects that merging of scenography and architecture can bring along considering a variety of case studies of themed shopping malls including the ibn battuta mall in dubai terminal 21 in bangkok the villaggio in doha and montecasino in johannesburg as well as further examples from europe usa and asia this book provides a wide ranging critical examination of the ways in which scenographic thinking and practices are exploited in wider cultural contexts for impact branding and higher profits

Marketing on the Internet and the implications of new technologies

1999-01-25

inhaltsangabe abstract electronic commerce once thought of as futuristic buzzwords is becoming a commonly used term international newspapers magazines and the electronic media mention at least some forecast or news related to this subject on a daily basis nevertheless a look at the growing numbers of consulting companies that offer a variety of services relating to electronic commerce reveals the immense uncertainty companies are experiencing about what exactly electronic commerce is and how they can implement it while it seems that the importance of this issue in the business environment is widely accepted in the us a recent study from andersen consulting andersen 1998 shows that among european senior executives only 19 regard electronic commerce as a serious competitive threat to their business furthermore only 39 are taking steps today to incorporate electronic commerce into their current operational strategies there is a number of factors contributing to the wait and see attitude taken by executives and consumers as well executives tend to view the rise of electronic commerce as an external business environment issue while

consumers are concerned about security issues these are still common views in the us in european countries a cultural problem stemming from a slowly changing and stable business environment adds to that problem fear of failing by trying a new approach in most cases overshadows the willingness to take new risks nevertheless the uncertainty about the changes implied by electronic commerce are far reaching and can be found in any country with the increasing importance of the internet the business environment as well as other areas in society is about to fundamentally change old paradigms are no longer working in the evolving new business world sometimes called digital economy electronic commerce is the keyword that tries to capture the new paradigms which are not even clear yet the only thing that is reliable and predictable about electronic commerce and the new economy is change never before was it more important to be flexible and willing to take risks by trying new approaches as businesses like to operate in a predictable environment where planning the future is easy it becomes very difficult to adapt to the pace of change not only do businesses need new strategies they also need to constantly reinvent themselves businesses need to realize that it becomes necessary to accept
