as the title testifies students were sworn to secrecy before being given access to this magic text and only a few manuscripts have survived bits of its teachings such as the use of the magic whistle for summoning spirits are alluded to in other texts another key element of its ritual the elaborate seal of god has been found in texts and amulets throughout europe interest in the sworn book of honorius has grown in recent years yet no modern translations have been attempted until now purporting to preserve the magic of solomon in the face of intense persecution by religious authorities this text includes one of the oldest and most detailed magic rituals it contains a complete system of magic including how to attain the divine vision communicate with holy angels and control aerial earthly and infernal spirits for practical gain largely ignored by historians until recently this text is an important witness to the transmission of kabbalah and jewish mysticism to european hermeticists

pictureeveryone is searching for the ultimate secret of occult empowerment the secret that makes magic work people
search for grimoires techniques spirits and gods for this secret yet time after time they fail successful magic is not about
spirits gods or techniques successful magic is a state of being if magic was so easy as the instructions in a grimoire it would
be worthless as everyone would have similar empowerment magic is about extreme empowerment not that obtained by
the common people successful magic is not obtained solely by following grimoires or other training ultimate
empowerment is a state of consciousness you must obtain before anything will manifest for you people fail at all forms of
magic because they treat magic like they are learning in a traditional school read a book follow the instructions and you
pass the test a regular school works like this occult empowerment does not you must become an occultist not learn to be
one it all comes down to consciousness or inner being control you must maintain a state of centered consciousness at all
times most people are on an emotional pogo stick bouncing to highs and lows throughout the day and in life being
controlled by society by living in a reactive mentally something good happens and you feel good a person dumps on you
and you react in anger or depression the pogo stick of life is an occult empowerment destroyer you cannot access high
states of occult empowerment until you center your consciousness centering your consciousness brings you everything
you require in life things most find impossible or extremely difficult like happiness perfect health no stress no anger
perfect clear thinking making right decisions extreme long life and reaching the state gnosis centering opens all the occult
doors of power and to happiness and bliss centering creates strong occult fields around you that manifest everything life is
not about reacting to it life is about manifesting your desires without allowing others to steer you off track you control
your reality completely not others you do not react to how others want you to you clearly decide what is best for you
others want you to react to them as such you lose control and they take control of you a chaotic mind cannot produce any
magical manifestations only the centered controlled mind can access the realms of occult power you cannot go from your
job and the common consciousness that forces you into to an empowered occultist that can manifest your desires this is
about consciousness control that is more than just mind control you mind is a toxic sewer that draws in pain destruction
and evil it controls you with thoughts of hunger constant sex hate anger love happiness fear and fatigue chemicals race
through your body producing mental and physical reactions you have little control of you are a consciousness stuck in a
spinning web of complete confusion with chemicals and emotions throwing you around a room like a rag doll most people
have almost zero control of their lives you may be functioning day to day but inside you are in a chaotic hell you do not
understand and cannot control your house is on fire and you are mowing the front lawn do you think living in this
consciousness will manifest magical success it will not center yourself and anything is possible all the doors of occult
power are open to the centered occultist book reveals all centering yourself is not difficult it does require daily practice for
5 to 10 minutes most enjoy this blissful state and extend their practice to 20 minutes twice a day like everything that

works in life you need to start in short bursts and slowly build you are instructed step by step on how to reach a consciousness centered state while similar to meditation in the beginning the practices go far beyond this unique mind altering methods are used along with ancient methods of mind control

western esotericism has now emerged as an academic study in its own right combining spirituality with an empirical observation of the natural world while also relating the humanity to the universe through a harmonious celestial order this introduction to the western esoteric traditions offers a concise overview of their historical development nicholas goodrick clarke explores these traditions from their roots in hermeticism neo platonism and gnosticism in the early christian era up to their reverberations in today s scientific paradigms while the study of western esotericism is usually confined to the history of ideas goodrick clarke examines the phenomenon much more broadly he demonstrates that far from being a strictly intellectual movement the spread of esotericism owes a great deal to geopolitics and globalization in hellenistic culture for example the empire of alexander the great which stretched across egypt and western asia to provinces in india facilitated a mixing of eastern and western cultures as the greeks absorbed ideas from egypt babylon assyria and persia they gave rise to the first esoteric movements from the late sixteenth to the eighteenth centuries post reformation spirituality found expression in theosophy rosicrucianism and freemasonry similarly in the modern era dissatisfaction with the hegemony of science in western culture and a lack of faith in traditional christianity led thinkers like madame blavatsky to look east for spiritual inspiration goodrick clarke further examines modern esoteric thought in the light of new scientific and medical paradigms along with the analytical psychology of carl gustav jung this book traces the complete history of these movements and is the definitive account of western esotericism
