most of the information on the functional role structure and molecular biology of creatine kinase is
scattered in several hundreds of publications the editors of this volume invited all authors who are
most active at present in experimental research on creatine kinases to summarize their work and
make the information easily available to a wider scientific audience especially to young investigators
who are entering this field since the functional role of coupled creatine kinases is directly related to
the phenomenon of compartmentation and structural organization of metabolic networks we also
invited experts in the related areas to contribute to the volume almost all invited authors responded
enthusiastically and the results of this collective work are presented here for biochemists biophysicists
physiologists and medical research workers

an nyrb classics original the hero of the invisibility cloak lives in contemporary beijing where
everyone is doing their best to hustle up the ladder of success while shouldering an ever growing
burden of consumer goods and he s a loser well into his forties he s divorced and still doting on his ex
childless and living with his sister her husband wants him out in an apartment at the edge of town
with a crack in the wall the wind from the north blows through while he gets by just by making
customized old fashioned amplifiers for the occasional rich audio obsessive he has contempt for his
clients and contempt for himself the only things he really likes are beethoven and vintage speakers
then an old friend tips him off about a special job a little risky but just don t ask too many questions
and can it really be that this hopeless loser wins this provocative and seriously funny exercise in the
social fantastic by the brilliantly original ge fei one of china s finest living writers is among the most
original works of fiction to come out of china in recent years it is sure to appeal to readers of haruki
murakami and other fabulists of contemporary irreality
