disciplinary collection explores how we can better understand and respond to these problematic practices the epistemology of deceit in a postdigital era dupery by design will be of interest to anyone concerned with deception in a postdigital era including fake news and propaganda online the election of populist governments across the world has raised concerns that fake news in online platforms is undermining the legitimacy of the press the democratic process and the authority of sources such as science the social sciences and qualified experts the global reach of google youtube twitter facebook and other platforms has shown that they can be used to create and spread fake and misleading news quickly and without control these platforms operate and thrive in an increasingly balkanised media eco system where networks of users will predominantly access and consume information that conforms to their existing worldviews conflicting positions even if relevant and authoritative are suppressed or overlooked in everyday digital information consumption digital platforms have contributed to the prolific spread of false information enabled ignorance in online news consumers and fostered confusion over determining fact from fiction the collection explores deception what it is and how its proliferation is achieved in online platforms truth and the appearance of truth and the role digital technologies play in pretending to represent truth how we can counter these vices to protect ourselves and our institutions from their potentially baneful effects chapter 15 is available performed by the united states coast guard s research and development center to explore the potential benefits of using state of the industry technologies as a travel free alternative to instructor led training performed at resident training centers i e schoolhouse environment this report presents the results of the cost comparison analysis that was performed as part of the pilot study an effectiveness evaluation and a duty station implementation analysis were also performed as part of the pilot study the results of those two efforts are presented in a separate report the cost comparison analysis compared the costs of operating an instructor led resident course that is delivered to students at a resident training center to the costs of operating an equivalent nonresident computer based version of the same course that is delivered to students at their duty stations two scenarios were considered in performing the analysis the conversion of a single resident course to nonresident computer based training and the conversion of a meaningful number of resident courses meaningful is defined as the number of resident course conversions necessary to result in a savings of training center operations and personnel costs capital expenditure analysis methodology e g pay back period was applied in performing the comparisons this volume provides a comprehensive introduction to mhealth technology and is accessible to technology oriented researchers and practitioners with backgrounds in computer science engineering statistics and applied mathematics the contributing authors include leading researchers and practitioners in the mhealth field the book offers an in depth exploration of the three key elements of mhealth technology the development of on body sensors that can identify key health related behaviors sensors to markers the use of analytic methods to predict current and future states of health and disease markers to predictors and the development of mobile interventions which can improve health outcomes predictors to interventions chapters are organized into sections with the first section devoted to mhealth applications followed by three sections devoted to the above three key technology areas each chapter can be read independently but the organization of the entire book provides a logical flow from the design of on body sensing technology through the analysis of time varying sensor data to interactions with a user which create opportunities to improve health outcomes this volume is a valuable resource to spur the development
