You Don't Know Me Like That 1995 essentials of scientific writing how to write effective titles and abstracts for research papers and proposals is a belated entrant into a vast and crucially important area with scarce reference materials this scarcity manifested itself as i searched what i had expected would be useful source materials for the present book i skimmed through many textbooks on scientific writing and editing articles on the internet and notes from courses on scientific writing they all turned out to be manifestly wanting in both depth and scope none extended beyond two pages and most were hardly a page long so they were largely useless for my purposes to the authors knowledge few published books treat the subjects of titles and abstracts in the kind of detail presented in this book accordingly in developing the book the author hoped to fill a void in the crucial area of facilitating sharing of knowledge and information from research work it is my hope that everyone writing scientific work will endeavor to find space for the book on their shelves and will place it within arms length whenever they are writing or editing the title or abstract

Teaching the Research Paper 2023-01-03 how interesting it is to realize that the lifestyle we live beliefs and faith we live by and the language we converse in all has its own distinct history of origination and how it has evolved and progressed over time to become everything present today the book is a marvellous attempt to understand one s own civilization enlightening the path to startling revelation on how did tibetan civilization came about the widely popularized tibetan origin myth of the monkey and the ogress is it really true did tibet really had its first king descended from the sky how is tibetan scripts so similar to the gupta brahmi script this book leaves no stone unturned to fill this grey area on the dawn of tibetan civilization and intrigues the readers to deliberate over the subject the ancient tibetan civilization explicitly debunks popular mythologies misconceptions and misinformation surrounding the origination and evolution of tibetan civilization tenzin wangmo

Sustainable Investing in Practice 2007-06-15 certificate of commendation from the american association for state and local history most americans today live in the suburbs yet suburban voices remain largely unheard in sociological and cultural studies of these same communities in suburban landscapes culture and politics in a new york metropolitan community paul mattingly provides a new model for understanding suburban development through his narrative history of leonia new jersey an early commuter suburb of new york city although leonia is a relatively small suburb a study of this kind has national significance because most of america s suburbs began as rural communities with histories that predated the arrival of commuters and real estate developers examining the dynamics of community cultural formation mattingly contests the prevailing urban and suburban dichotomy in doing so he offers a respite from journalistic cliches and scholarly bias about the american suburb providing instead an insightful nuanced look at the integrative history of a region mattingly examines leonia s politics and culture through three eras of growth and change 1859 94 1894 1920 and 1920 60 a major part of leonia s history mattingly reveals was its role as an attractive community for artists and writers many contributors to national magazines who created a suburban aesthetic the work done by generations of leonias artists provides an important vantage and a wonderful set of tools for exploring evolving notions of suburban culture and landscape which have broad implications and applications oral histories census records and the extensive work of leonia s many artists and writers come together to trace not only the community s socially diverse history but to show how residents viewed the growth and transformation of leonia as well
