another and he gives impressions of the people he met during his travels he made the acquaintance of landor of lafayette and of carlyle wordsworth and coleridge all of whom stimulated him in paris he was so much stirred by a visit to the jardin des plantes that he determined to become a naturalist on his return to america still without a profession he reverted in his journals to the more impersonal form they had taken in his days as a minister focusing on his inner experiences rather than on external events notes start dotting the pages once again this time not so much for future sermons although for years he did a certain amount of occasional preaching as for the addresses of the public lecturer he would soon become through the thirty four months covered by this volume the journals continue to be the advancing record of emerson s mind demonstrating a growing maturity and firmness of style by compression and aphorism

established explanations while usefully demonstrating the range of fascist outcomes in interwar europe civic foundations argues that in all three cases fascism emerged because of the rapid development of voluntary associations combined with weakly developed political parties among the dominant class thus creating a crisis of hegemony riley then traces the specific form that this crisis took depending on the form of civil society developed autonomous as in italy elite dominated as in spain or state dominated as in romania in the nineteenth century
