South Asian Pornographies 2024-06-21 south asian  
pornographies is the first consolidated volume  
that explores the relationships between  
pornography obscenity law and desire in south asia  
focusing on case studies from india sri lanka and  
bangladesh while gesturing towards other countries  
in south asia the authors of this volume come from  
fields as varied as history literature media and  
communication and the visual arts the book  
proposes that as a geo political location south  
asia has a unique relationship to pornography  
given the multiplicity of cultural and legal  
censorial regimes that define the obscene and the  
permissible south asian case studies can  
demonstrate how pornography in the region is often  
defined in oblique terms finding reflection in  
various modes of popular and sometimes underground  
culture bypassing legal and censorial constraints  
like questions of identity that can only be  
answered in the plural identities rather than  
identity this book demonstrates how a range of  
pornographies constitutes the force field of  
sexualized media in south asia it will be of  
interest to researchers and advanced students of  
communication studies cultural studies film  
studies history sociology and social and cultural  
anthropology the chapters in this book were  
originally published in the journal porn studies
