illustrated with 30 maps few lessons are as prevalent in military history as is the adage that tanks don t perform well in cities the notion of deliberately committing tanks to urban combat is anathema to most in breaking the mold tanks in the cities mr ken gott disproves that notion with a timely series of five case studies from world war ii to the present war in iraq this is not a parochial or triumphant study these cases demonstrate that tanks must do more than merely arrive on the battlefield to be successful in urban combat from aachen in 1944 to fallujah in 2004 the absolute need for specialized training and the use of combined arms at the lowest tactical levels are two of the most salient lessons that emerge from this study when properly employed well trained and well supported units led by tanks are decisive in urban combat the reverse is also true chechen rebels taught the russian army and the world a brutal lesson in grozny about what happens when armored units are poorly led poorly trained and cavalierly employed in a city the case studies in this monograph are high intensity battles in conflicts ranging from limited interventions to major combat operations it would be wrong to use them to argue for the use of tanks in every urban situation as the intensity of the operation decreases the second and third order effects of using tanks in cities can begin to outweigh their utility the damage to infrastructure caused by their sheer weight and size

is just one example of what can make tanks unsuitable for every mission even during peace operations however the ability to employ tanks and other heavy armored vehicles quickly can be crucial a study on the utility of tanks in peace operations is warranted and planned timothy r reese colonel armor

police work is never routine domestics gang violence flesh craving zombies for decades the mexican drug cartels looked at the united states of america as a business partner the cartels supplied the drugs and the millions of american addicts supplied them with an endless amount of money but when the war on drugs heats up and the money alone is not enough the cartels decided to up the ante with the help of a ruthless russian mercenary they unleashed a lethal bio weapon initially conceived during the cold war to quickly bring the west to her knees skillfully deployed the virus initially worked as designed what started as a slow burn soon spread at an expedient rate decimating the host population finally powerful enough conquer a stricken nation the cartel stood ready to move in and enslave the surviving population but unknown to their leaders the virus had a small side effect the infected victims refused to stay dead and had an agenda all of their own for two veteran police officers and their small group of friends the first day of the outbreak starts out like any other random fights and car accidents keep them busy that is until they are confronted with a new and unexpected enemy each one of them is forced to confront the unthinkable zombies were real and craving the living with an insatiable appetite against the full specter of a society crumbling around them and the dead stalking the living in the streets it will take all of their skill knowledge and

courage to survive they see terrifying news broadcasts and learn of hastily constructed refugee camps and an overmatched military stretched to the limit yet amongst all of this they still face enemies among the living as well armed gangs free to roam the streets powerful men who want to play politics with peoples lives and wolves in sheeps clothing together the group faces an uncertain future as they struggle against relentless enemies living and dead in a devastated america
