manifestations of the colonial spirit then apparent in the united states have not only altered in character but i am glad to say have weakened diminished and become less noticeable since 1883 also there has been much achieved by americans in art and literature in painting in sculpture in music and particularly in architecture success in all these fields has with few exceptions been won by men working in the spirit which is not colonial but which it was the purpose of this essay to inculcate as the true one to which alone we could look for fine and enduring achievement i have called attention to the date at which the essay was written in order that those who read it may remember that it applies in certain points to the conditions of thirty years ago and not to those of the present day this work presents a concise history of oxford university and its colleges by british historian and journalist goldwin smith he entertains the readers

with various unknown facts about the university and short biographies of the people who shaped the history of this prestigious institute
