addresses the key skills that are required in organisations in the information intensive society the book examines the power of information behaviour on the construction of different kinds of shared knowledge and social identity in a group an introduction to the different dimensions of social capital that is structural and cognitive and looks at the relational aspects of information behaviour in organisations experiences are analysed in two different case studies in the financial and biotechnology industries in order to gain additional insights in how the internal organisation environment should be designed to support the development of the organisation s intellectual capital introduces social capital dimensions to the knowledge management framework provides empirical work on the new combination of social capital and organizational information behaviour two different information sharing practices are presented a claims handling unit routine based work and a biotechnology firm expert work develops social capital measures into qualitative information research

## **Meeting the Challenges to Measurement in an Era of Accountability *2016-01-29***

many teens today who use the internet are actively involved in participatory cultures joining online communities facebook message boards game clans producing creative work in new forms digital sampling modding fan videomaking fan fiction working in teams to complete tasks and develop new knowledge as in wikipedia and shaping the flow of media as in blogging or podcasting a growing body of scholarship suggests potential benefits of these activities including opportunities for peer to peer learning development of skills useful in the modern workplace and a more empowered conception of citizenship some argue that young people pick up these key skills and competencies on their own by interacting with popular culture but the problems of unequal access lack of media transparency and the breakdown of traditional forms of socialization and professional training suggest a role for policy and pedagogical intervention this report aims to shift the conversation about the digital divide from questions about access to technology

to questions about access to opportunities for involvement in participatory culture and how to provide all young people with the chance to develop the cultural competencies and social skills needed fostering these skills the authors argue requires a systemic approach to media education schools afterschool programs and parents all have distinctive roles to play the john d and catherine t macarthur foundation reports on digital media and learning

## **The Challenges of Knowledge Sharing in Practice 2014-01-23**

this study re examines some of the issues challenges and policy options facing the singapore economy in the light of the 1985 86 recession particular attention is paid towards reappraising the role of the government as an entrepreneur in economic activity in macro economic management in savings and investment and in the labour market this is done in the context of and alongside an assessment of singapore s linkages with the global economy and its future comparative advantage in a dynamic international environment
