the report of the commissioner of education for 1880 v 29 report for 1877
harriet beecher stowe 1811 1896 was an american abolitionist and a writer she
is best known for her novel uncle tom s cabin which depicts the harsh
conditions for enslaved african americans following its remarkable success
the author made three tours to england and europe which inspired the two
volume set sunny memories in foreign lands both volumes are a series of
letters some written on the spot some after the author s return home of
impressions as they arose of her most agreeable visits to england france
switzerland germany and belgium during the first half of the nineteenth
century for more than four decades after gaining independence india with its
massive size and population staggering poverty and slow rate of growth was
associated with the plodding somnolent elephant comfortably resting on its
achievements of centuries gone by then in the early 1990s the elephant seemed
to wake up from its slumber and slowly begin to change until today in the
first decade of the twenty first century some have begun to see it morphing
into a tiger as india turns sixty shashi tharoor novelist and essayist
reminds us of the paradox that is india the elephant that is becoming a tiger
with the highest number of billionaires in asia it still has the largest
number of people living amid poverty and neglect and more children who have
not seen the inside of a schoolroom than any other country so what does the
twenty first century hold for india will it bring the strength of the tiger
and the size of an elephant to bear upon the world or will it remain an

elephant at heart in more than sixty essays organized thematically into six parts shashi tharoor analyses the forces that have made twenty first century india and could yet unmake it he discusses the country s transformation in his characteristic lucid prose writing with passion and engagement on a broad range of subjects from the very notion of indianness in a pluralist society to the evolution of the once sleeping giant into a world leader in the realms of science and technology from the men and women who make up his india gandhi and nehru and the less obvious ramanujan and krishna menon to an eclectic array of indian experiences and realities virtual and spiritual political and filmi the book is leavened with whimsical and witty pieces on cricket bollywood and the national penchant for holidays and topped off with an a to z glossary on indianness written with tongue firmly in cheek diverting and instructive as ever artfully combining hard facts and statistics with personal opinions and observations tharoor offers a fresh insightful look at this timeless and fast changing society emphasizing that india must rise above the past if it is to conquer the future
