more than any other building type in the twentieth century the

hospital was connected to transformations in the health of populations and expectations of lifespan from the scale of public health to the level of the individual the architecture of the modern hospital has reshaped knowledge about health and disease and perceptions of bodily integrity and security however the rich and genuinely global architectural history of these hospitals is poorly understood and largely forgotten this book explores the rapid evolution of hospital design in the twentieth century analysing the ways in which architects and other specialists reimagined the modern hospital it examines how the vast expansion of medical institutions over the course of the century was enabled by new approaches to architectural design and it highlights the emerging political conviction that physical health would become the cornerstone of human welfare

there are 168 hours in a week this book is about where the time really goes and how we can all use it better it s an unquestioned truth of modern life we are starved for time with the rise of two income families extreme jobs and 24 7 connectivity life is so frenzied we can barely find time to breathe we tell ourselves we d like to read more get to the gym regularly try new hobbies and accomplish all kinds of goals but then we give up because there just aren t enough hours to do

it all or else if we don't make excuses we make sacrifices to get ahead at work we spend less time with our spouses to carve out more family time we put off getting in shape to train for a marathon we cut back on sleep there has to be a better way and Laura Vanderkam has found one after interviewing dozens of successful happy people she realized that they allocate their time differently than most of us instead of letting the daily grind crowd out the important stuff they start by making sure there's time for the important stuff they focus on what they do best and what only they can do when plans go wrong and they run out of time only their lesser priorities suffer it's not always easy but the payoff is enormous Vanderkam shows that it really is possible to sleep eight hours a night exercise five days a week take piano lessons and write a novel without giving up quality time for work family and other things that really matter the key is to start with a blank slate and to fill up your 168 hours only with things that deserve your time of course you probably won't read to your children at 2:00 am or skip a Wednesday morning meeting to go hiking but you can cut back on how much you watch tv do laundry or spend time on other less fulfilling activities Vanderkam shares creative ways to rearrange your schedule to make room for the things that matter most 168 hours is a fun inspiring practical guide that will help men and women of any age lifestyle or career get the most out of their time and their lives
