FCC Record 2009 michael b gill offers a new account of humean moral pluralism the view that there are different moral reasons for action which are based on human sentiments he explores its historical origins and argues that it offers the most compelling view of our moral experience together pluralism and humeanism make a philosophically powerful couple

The Estate Planning Companion - A Practical Guide to Your Estate Plan 2014 rosemary j mundhenk and luann mccracken fletcher have assembled a remarkable variety of victorian nonfiction prose both classic and lesser known in both their commentary and selection the editors have drawn upon the insights of recent theoretical approaches to literature and culture to present a complex range of responses to victorian issues thus inviting modern readers to explore the many voices of the period and reenvision the victorian era

Humean Moral Pluralism 1999 this fully revised second edition of schizophrenia the positive perspective uses biographical sketches and essays to discuss schizophrenia and related conditions providing advice on methods of coping routes to growth recovery and well being and how schizophrenia can be viewed in a positive light it also explores the insights of r d laing and discusses how they can be applied to contemporary ideas and research in this expanded edition peter chadwick a previous sufferer builds on his earlier edition and introduces new topics including cannabis smoking and schizophrenia psychoanalytic approaches to psychosis and their extension into the spiritual domain using cognitive behaviour therapy in the treatment of profound existential distress how experiences on the edge of madness can be relevant to understanding reality schizophrenia the positive perspective encourages hope confidence and increased self esteem in schizophrenia sufferers and raises new questions about how schizophrenia should be evaluated it is important reading for anyone working with schizophrenic people including psychologists psychiatrists social workers and other mental health professionals

Victorian Prose 1998 human beings have always been specialists but over the past two centuries division of labor has become deeper ubiquitous and much more fluid the form it now takes brings in its wake a series of problems that are simultaneously philosophical and practical having to do with coordinating the activities of experts in different disciplines who do not understand one another because these problems are unrecognized and because we do not have solutions for them we are on the verge of an age in which decisions that depend on understanding more than one discipline at a time will be made badly since so many decisions do require multidisciplinary knowledge these philosophical problems are urgent some of the puzzles that have traditionally been on philosophers agendas have to do with intellectual devices developed to handle less extreme forms of specialization two of these necessity and the practical ought are given extended treatment in elijah millgram's the great endarkenment in this collection of essays both previously published and new millgram pays special attention to ways a focus on cognitive function reframes familiar debates in metaethics and metaphysics consequences of hyperspecialization for the

theory of practical rationality for our conception of agency and for ethics are laid out and discussed an afterword considers whether and how philosophers can contribute to solving the very pressing problems created by contemporary division of labor these always interesting often brilliant and contentious essays focus on the question of how we need to reason practically if we are to flourish given millgram's account of our human nature and of the environments that we inhabit the originality of his thought is matched by his clarity and his wit alasdair macintyre university of notre dame

Decisions and Orders of the National Labor Relations Board 1958 stephens important and timely book provides an urgently needed and insightful synthesis of the previously fragmented field of community health psychology a wide range of case material from both rich and poor countries is framed within a skilfully articulated set of debates around core issues of theory practice research and ethics this text should be compulsory reading for all practitioners and students of health promotion professor catherine campbell health community and development group london school of economics can the health of individuals be improved through community health programmes how can community health promotion programmes be more effective how is health awareness measured and evaluated in recent years health promoters have focused their attention not just on individual lifestyle change but on daily social and physical conditions that surround the individual they are now looking towards lifestyle change based on community or socially based interventions this book argues for the importance of theoretical explanations that inform investigations of the social context of daily life the social relations that affect opportunities for healthy lives and the needs of communities examining theories from a critical and values oriented perspective it looks at current theories of health and health promotion and discusses why health inequalities exist the book includes a practical grounding using examples of community health promotion practice such as community arts and local community models based on material and research from britain new zealand canada the usa and south america the media's role in health promotion is also investigated drawing on current media theory and examining media representation and the public's interpretative response issues surrounding the evaluation of health promotion programmes are also discussed health promotion a psychosocial approach provides a critical and theoretical basis for practice in social and community approaches to health promotion it is key reading for postgraduate students of health psychology or community psychology as well as qualified practitioners in public health areas who are developing theory based community programmes

Agricultural Conservation Program 1956 hans küng has been a major influence on post war christianity by any reckoning a peritus for the second vatican council he then went on to publish a number of controversial books including infallible an enquiry 1971 which enraged the vatican and caused him to lose the ecclesiastical approval of his teaching at the university of tübingen however he remains a respected priest in good standing with his bishop throughout all the upheavals that the catholic church has undergone in recent decades küng has been an outspoken observer turning himself from enfant terrible to bête noire however his world influence has been great whether speaking at the united nations or consorting with politicians and religious leaders he is always listened to with respect and enthusiasm a string of recent books has added to his reputation notably on being a christian 1974 and does god exist an answer for today 1980 what is not so well known is that as a young man küng was a close friend and confidant of joseph ratzinger benedict xvi over the years however they increasingly came to represent exactly what the other most despised on being appointed to the holy see ratzinger had a long private meeting with küng the consequences of which may resonate within the catholic church for many years in these thrilling memoirs küng gives his personal account of all these struggles and ambitions the result is a book of major importance for any student of the church in the 20th century this second volume covers the period following the close of the

second vatican council right up to the present day
