Wave 2008-04-16 for lou it was always dylan she loved him from the moment they first met

across a cadaver in the dissection room at medical school the most gorgeous man she'd ever laid eyes on with more welsh charm than you could shake a stick at she was a goner but lou despite her beauty was just too extrovert to interest dylan who was convinced that a quiet shy girl like lou's best friend frankie was much more his style have at it mate but i've got two words for you high maintenance don't think i'd mind putting in the hard yards maintaining that piece of arse one of dylan's more disgusting rugby mates replied well good luck to you dylan returned looking completely relaxed now that they were discussing lou and not his precious frankie i like mine heavy on the sweet and light on the ball breaking bitch but each to his own after overhearing that exchange lou buries her pain and pines for him in private but she can't give up their friendship one night eleven years later she finally gets what she has been longing for but the next morning realizes he was too drunk to even remember for dylan it was always anyone but lou a born surgeon dylan resents having to down his orthopaedic power tools for a six month spell in elderly care he thought that at least working with lou would make his skiving easier after all she's always helped him out before and so what if he's been having these weird dreams about her since he woke up in her flat it's not like he'd ever actually go there so when he mistakenly believes that she's put his career in jeopardy he loses control and his vicious insults publicly made cut lou to the bone it's only after he loses lou's warm smiles dry wit boundless energy and outrageous banter from his life that he realizes the extent of his stupidity maybe sticks and stones can break bones and that's something dylan's surgical skills can deal with but when it's a heart he's broken this book is a full length contemporary romance romantic comedy medical romance of approximately 80 000 words it involves characters from broken heart syndrome but is a stand alone novel with its own head and no cliffhanger about the author susie tate is a general practitioner and when she's not working she's looking after her four yummy boys under six okay well one is actually over thirty six but it's the mental age that counts maybe it's a bit strange for a doctor to be writing contemporary romance romantic comedy but she thought she could use her experience to write what she hopes are funny occasionally bittersweet stories that give people a behind the scenes look at hospital medicine she can only apologize to her orthopaedic friends for the way she has brutally stereotyped them in this book but she just couldn't resist

Anything But Typical 2010-03-09 in this groundbreaking work robert sternberg opens the book of love and shows you how to discover your own story and how to read your relationships in a whole new light what draws us so strongly to some people and repels us from others what makes some relationships work so smoothly and others burst into flames sternberg gives us new answers to these questions by showing that the kind of relationship we create depends on the kind of love stories we carry inside us drawing on extensive research and fascinating examples of real couples sternberg identifies 26 types of love story including the fantasy story the business story the collector story the horror story and many others each with its distinctive advantages and pitfalls and many of which are clashingly incompatible these are the largely unconscious preconceptions that guide our romantic choices and it is only by becoming aware of the kind of story we have about love that we gain the freedom to create more fulfilling and lasting relationships as long as we remain oblivious to the role our stories play we are

likely to repeat the same mistakes again and again but the enlivening good news this book brings us is that though our stories drive us we can revise them and learn to choose partners whose stories are more compatible with our own quizzes in each chapter help you to see which stories you identify with most strongly and which apply to your partner are you a traveler a gardener a teacher or something else entirely love is a story shows you how to find out
