The League

2019-10-01

the epic tale of the five owners who shepherded the nfl through its tumultuous early decades and built the most popular sport in america the national football league is a towering distinctly american colossus spewing out 14 billion in annual revenue but it was not always a success in the league john eisenberg focuses on the pioneering sportsmen who kept the league alive in the 1920s 1930s and 1940s when its challenges were many and its survival was not guaranteed at the time college football baseball boxing and horseracing dominated america s sports scene art rooney george halas tim mara george preston marshall and bert bell believed in pro football when few others did and ultimately succeeded only because at critical junctures each sacrificed the short term success of his team for the longer term good of the league at once a history of a sport and a remarkable story of business ingenuity the league is an essential read for any fan of our true national pastime

The Treaty of Versailles

1998-09-13

this text scrutinizes the motives actions and constraints that informed decision making by the various politicians who bore the principal responsibility for drafting the treaty of versailles

The League of Nations and the Organization of Peace

2014-07-22

the league of nations precursor to the united nations was founded in 1919 as a response to the first world war to ensure collective security and prevent the outbreak of future wars it was set up to facilitate diplomacy in the face of future international conflict but also to work towards eradicating the very causes of war by promoting social and economic justice the philosophy behind much of the league s fascinating and varied roles was to help create satisfied populations who would reject future threats to the peace of their world in this new volume for seminar studies martyn housden sets out to balance the league s work in settling disputes international security and disarmament with an analysis of its achievements in social and economic fields he explores the individual contributions of founding members of the league such as fridtjof nansen ludwik rajchman rachel crowdy robert cecil and jan smuts whose humanitarian work laid the foundations for the later successes of the united nations in such areas as the welfare of vulnerable people especially prisoners of war and refugees dealing with epidemic diseases and promoting good health anti drugs campaigns supported by previously unpublished documents and photographs this book illustrates how an understanding of the league of nations its achievements and its ultimate failure to stop the second world war is central to our understanding of diplomacy and international relations in the inter war period

The League of Nations and the Protection of the Environment

2021-05-13

this first study of the environmental challenges handled by the league of nations pioneers new perspectives on legal and environmental history

Historical Dictionary of the League of Nations

2006-01-16

created in 1919 shortly after world war i the league of nations was principally designed to put an end to war but it went into hibernation when world war ii broke out and was formally wound up in 1946 not having achieved its primary objective it was deemed a failure however the many accomplishments it did realize certainly allows for arguments against this idea during its two decade existence the league of nations resolved and defused many conflicts and crises as well as established a rapport among its members it was also active in many other political social and technical fields including minorities refugees human rights labor health telecommunications and supervision of former colonial territories which had become mandates above all the league of nations proved to be training ground for the united nations and the countless other organizations both governmental and non governmental which now surround us just what the league of nations was able to do during its brief but hectic career is summed up in this book the dictionary section contains several hundred cross referenced entries on its founders and supporters its rather small staff and secretariat the various subordinate or related organizations and their overwhelming tasks the historical background is described in the introduction and plotted year by year in the chronology while the bibliography points to further reading

The League

2013-09-10

this book is a solid choice for reluctant readers who also happen to love football school library journal just when it seems that his football dreams are history wyatt s older brother aaron makes an unexpected offer if wyatt ditches golf camp he can play with aaron in the league of pain the roughest and most secretive rogue football league in town now wyatt has a choice he can play by the rules like he always does or he can follow his heart even if it means lying to the people he cares about the most but if wyatt wants to play in the league he must learn to accept the penalties

The League, the Nation's Danger

1919

the league of nations occupies a fascinating yet paradoxical place in human history over time it s come to symbolize both a path to peace and to war a promising vision of world order and a utopian illusion an artifact of a bygone era and a beacon for one that may still come as the first experiment in world organization the league played a pivotal but

often overlooked role in the creation of the united nations and the modern architecture of global governance in contrast to conventional accounts which chronicle the institution s successes and failures during the interwar period cottrell explores the enduring relevance of the league of nations for the present and future of global politics he asks what are the legacies of the league experiment how do they inform current debates on the health of global order and us leadership is there a dark side to these legacies cottrell demonstrates how the league of nations soul continues to shape modern international relations for better and for worse written in a manner accessible to students of international history international relations and global politics it will also be of interest to graduates and scholars

The League of Nations

2017-09-11

this supplementary volume to the papers of woodrow wilson contains a collection of letters that eloquently reflect the ideals and expectations shared by those american intellectuals who hoped to build a new order out of the chaos of the first world war originally published in 1966 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905

Letters on the League of Nations

2015-12-08

in the last years of the nineteenth century peace proposals were first stimulated by fear of the danger of war rather than in consequence of its outbreak in this study of the nature and history of international relations mr hinsley presents his conclusions about the causes of war and the development of men s efforts to avoid it in the first part he examines international theories from the end of the middle ages to the establishment of the league of nations in their historical setting this enables him to show how far modern peace proposals are merely copies or elaborations of earlier schemes he believes there has been a marked reluctance to test these theories not only against the formidable criticisms of men like rousseau kant and bentham but also against what we have learned about the nature of international relations and the history of the practice of states this leads him to the second part of his study an analysis of the origins of the modern states system and of its evolution between the eighteenth century and the first world war

Power and the Pursuit of Peace: Theory and Practice in the History of Relations Between States

1967-10

the league of nations perspectives from the present is an accessible and richly illustrated edited volume displaying a wide variety of cutting edge research on the many ways the league of nations shaped its times and continues to shape our contemporary world a series of bite size studies divided into three thematic parts investigates how the league affected the world around it and the lives of the people who became part of this first great experiment in international organisation recent research has reinterpreted the league as a laboratory of global economic political and humanitarian governance expanding on this the volume aims to show that the league is an academic site where international history as a discipline has re invented itself by integrating new approaches from social cultural and media history with an introduction by director general michael moller of the united nations organisation in geneva this work is a timely reminder of the fragile varied and enduring history of multilateralism on the centenary of the signing of the treaty of versailles

The League of Nations

2019-07-28

ninety years ago the league of nations convened for the first time hoping to create a safeguard against destructive world wide war by settling disputes through diplomacy this book looks at how the league was conceptualized and explores the multifaceted body that emerged this new form for diplomacy was used in ensuing years to counter territorial ambitions and restrict armaments as well as to discuss human rights and refugee issues the league s failure to prevent world war ii however would lead to its dissolution and the subsequent creation of the united nations as we face new forms of global crisis this timely book asks if the un s fate could be ascertained by reading the history of its predecessor

The League of Nations

2010-04-01

includes pictures includes accounts of members of the league includes online resources and a bibliography for further reading the program of the world s peace therefore is our program and that program the only possible program as we see it is this 1 open covenants of peace openly arrived at after which there shall be no private international understandings of any kind but diplomacy shall proceed always frankly and in the public view president woodrow wilson i have loved but one flag and i can not share that devotion and give affection to the mongrel banner invented for a league henry cabot lodge the united nations is one of the most famous bodies in the world and its predecessor the league of nations might be equally notorious in fact president woodrow wilson s pet project was controversial from nearly the minute it was conceived at the end of world war i wilson s pleas at the paris peace conference relied on his fourteen points which included the establishment of a league of nations but while his points were mostly popular amongst americans and europeans alike leaders at the peace conference largely discarded them and favored different approaches british leaders saw their singular aim as the maintenance of british colonial possessions france meanwhile only wanted to ensure that germany was weakened and unable to wage war again and it too had colonial interests abroad that

it hoped to maintain britain and france thus saw eye to eye with both wanting a weaker germany and both wanting to maintain their colonies wilson however wanted both countries to rid themselves of their colonies and he wanted germany to maintain its self determination and right to self defense wilson totally opposed the war guilt clause which blamed the war on germany wilson mostly found himself shut out but britain and france did not want american contributions to the war to go totally unappreciated if only out of fear that the u s might turn towards improving their relations with germany in response thus to appease wilson and the americans france and britain consented to the creation of a league of nations however even though his participation in the crafting of the treaty of versailles earned him a nobel prize that year wilson soon learned to his consternation that diplomacy with congress would go no better than his diplomacy with european leaders the only major provision that wilson achieved in europe the league of nations was the most controversial in the united states both aisles of congress had qualms with the idea believing it violated the constitution by giving power over self defense to an international body other interests in the united states especially irish americans had now totally turned against wilson the president s interest in national self determination extended to many european countries including hungary poland czechoslovakia and belgium but it excluded one critical country ireland a country currently embroiled in a revolution against great britain worse irish americans thought the league of nations would harden anglo control of global institutions simply put wilson returned home to find many americans weren t buying the league of nations while the senate was able to build a slim majority in favor of ratification it could not support the necessary two thirds majority although the league of nations was short lived and clearly failed in its primary mission it did essentially spawn the united nations at the end of world war ii and many of the un s structures and organizations came straight from its predecessor with the concepts of an international court and a general assembly coming straight from the league more importantly the failures of the league ensured that the un was given stronger authority and enforcement mechanisms most notably through the latter s security council

The League of Nations

2016-07-18

japan joined the league of nations in 1920 as a charter member and one of four permanent members of the league council until conflict arose between japan and the organization over the 1931 manchurian incident the league was a centerpiece of japan s policy to maintain accommodation with the western powers the picture of japan as a positive contributor to international comity however is not the conventional view of the country in the early and mid twentieth century rather this period is usually depicted in japan and abroad as a history of incremental imperialism and intensifying militarism culminating in war in china and the pacific even the empire s interface with the league of nations is typically addressed only at nodes of confrontation the 1919 debates over racial equality as the covenant was drafted and the 1931 1933 league challenge to japan s seizure of northeast china this volume fills in the space before between and after these nodes and gives the league relationship the legitimate place it deserves in japanese international history of the 1920s and 1930s it also argues that the japanese cooperative international stance in the decades since the pacific war

bears noteworthy continuity with the mainstream international accommodationism of the league years thomas burkman sheds new light on the meaning and content of internationalism in an era typically seen as a showcase for diplomatic autonomy and isolation well into the 1930s the vestiges of international accommodationism among diplomats and intellectuals are clearly evident the league project ushered those it affected into world citizenship and inspired them to build bridges across boundaries and cultures burkman s cogent analysis of japan s international role is enhanced and enlivened by his descriptions of the personalities and initiatives of makino nobuaki ishii kikujirô nitobe inazô matsuoka yôsuke and others in their geneva roles

The League of Nations and the Rule of Law, 1918-1935

1998

includes pictures includes accounts of members of the league includes online resources and a bibliography for further reading the program of the world s peace therefore is our program and that program the only possible program as we see it is this 1 open covenants of peace openly arrived at after which there shall be no private international understandings of any kind but diplomacy shall proceed always frankly and in the public view president woodrow wilson i have loved but one flag and i can not share that devotion and give affection to the mongrel banner invented for a league henry cabot lodge the united nations is one of the most famous bodies in the world and its predecessor the league of nations might be equally notorious in fact president woodrow wilson s pet project was controversial from nearly the minute it was conceived at the end of world war i wilson s pleas at the paris peace conference relied on his fourteen points which included the establishment of a league of nations but while his points were mostly popular amongst americans and europeans alike leaders at the peace conference largely discarded them and favored different approaches british leaders saw their singular aim as the maintenance of british colonial possessions france meanwhile only wanted to ensure that germany was weakened and unable to wage war again and it too had colonial interests abroad that it hoped to maintain britain and france thus saw eye to eye with both wanting a weaker germany and both wanting to maintain their colonies wilson however wanted both countries to rid themselves of their colonies and he wanted germany to maintain its self determination and right to self defense wilson totally opposed the war guilt clause which blamed the war on germany wilson mostly found himself shut out but britain and france did not want american contributions to the war to go totally unappreciated if only out of fear that the u s might turn towards improving their relations with germany in response thus to appease wilson and the americans france and britain consented to the creation of a league of nations however even though his participation in the crafting of the treaty of versailles earned him a nobel prize that year wilson soon learned to his consternation that diplomacy with congress would go no better than his diplomacy with european leaders the only major provision that wilson achieved in europe the league of nations was the most controversial in the united states both aisles of congress had qualms with the idea believing it violated the constitution by giving power over self defense to an international body other interests in the united states especially irish americans had now totally turned against wilson the president s interest in national self determination extended

to many european countries including hungary poland czechoslovakia and belgium but it excluded one critical country ireland a country currently embroiled in a revolution against great britain worse irish americans thought the league of nations would harden anglo control of global institutions simply put wilson returned home to find many americans weren't buying the league of nations while the senate was able to build a slim majority in favor of ratification it could not support the necessary two thirds majority although the league of nations was short lived and clearly failed in its primary mission it did essentially spawn the united nations at the end of world war ii and many of the un's structures and organizations came straight from its predecessor with the concepts of an international court and a general assembly coming straight from the league more importantly the failures of the league ensured that the un was given stronger authority and enforcement mechanisms most notably through the latter's security council

2018-02-19

howard ellis c the origin structure working of the league of nations
boston houghton mifflin company 1929 528 pp reprinted 2003 by the
lawbook exchange ltd lccn 2002041362 isbn 1 58477 320 0 cloth 95 surveys
the league s components and the role of its chief associated bodies the
international court of justice and the international labor organization
other sections consider its approach to open and secret diplomacy the
ratification of conventions and the function of related technical
organizations the author though enthusiastic about the league
appreciates the weaknesses in its charter and organization he argues
that these flaws are not inherent but are a consequence of the league s
reliance on prior international law which is plagued by weakness and
ambiguity

The Secret of the League

2016-11-04

this essay regards the early stages of the debate on disarmament at the
end of world war i when the international community intended to limit
countries armaments and expenses according to a widespread sentiment in
public opinion after a huge moral and physical devastation in 1918 some
draft projects of the league of nations covenant were elaborated by the
great powers and the original texts demonstrate the initial absence of
the matter but as the brainstorming continued the articles regarding the
way to disarm appeared even more pregnant the question at stake
concerned the reduction of armaments to the lowest point consistent with
national defence and the fulfilment of international obligations the
abolition of the mandatory conscription the prohibition to earn private
profits from the manufacture of arms the control of arms trafficking and
the full and frank publicity of military programs in 1919 during the
paris peace conference motivated men worked to create an organization
forerunner of the united nations with the aim of avoiding future wars in
the final version of the covenant some articles to realize disarmament
were present and a specific commission to carry on the related duties
was established the correspondence between the protagonists shows the
difficulties in approaching the issue

Born of Night

2009-09-29

the league of seven is the first book in an action packed steampunk
series by the acclaimed author of samurai shortstop alan gratz in an
alternate 1875 america electricity is forbidden native americans and
yankees are united and eldritch evil lurks in the shadows young archie
dent knows there really are monsters in the world his parents are
members of the septemberist society whose job it is to protect humanity

and the rest of the septemberists are brainwashed by one of the evil creatures archie must assemble a team of seven young heroes to save the world at the publisher s request this title is being sold without digital rights management software drm applied

The History of the League

1926

in the early 1870s baseball was chaos mired in mismanagement and corruption william hulbert the owner of chicago s national association team believed that a league run efficiently with honest competition would survive and flourish hulbert relying on his pragmatic philosophy of molasses now vinegar later and working with his prize recruit albert spalding founded the national league in 1876 that inaugural season of the national league is chronicled in this heavily documented work the league fell far short of hulbert s dreams in its first season but he stuck to his belief that integrity would win out in the end he not only prohibited sunday baseball and the sale and consumption of alcohol within the league s ballparks but ousted two teams new york and philadelphia from the league because they failed to meet their obligation to finish out the season despite the setbacks scandals and considerable opposition all of which are thoroughly covered here the national league survived its first year

The League of Nations

1986

this volume focuses on the final years of the league of nations from 1929 to 1946 a time of political violence growing nationalism and war author george gill recounts these turbulent years providing readers with a fascinating chronicle of this period gill s incisively written essay examines the decline of the league the rise of brutal dictators the erosion of international unity and the failure of world leaders are all part of his mosaic special insets throughout the text highlight pivotal incidents key documents offer the words that made history and numerous photographs recapture the spirit of a time past his book also offers a chronology of major world events so that league history and the wider global context are intermeshed gill demonstrates how the league died an agonizing death yet makes clear how the larger cause of world cooperation survived into a new and more dangerous era

1920

ninety years ago the league of nations convened for the first time hoping to create a safeguard against destructive world wide war by settling disputes through diplomacy this book looks at how the league was conceptualized and explores the multifaceted body that emerged this new form for diplomacy was used in ensuing years to counter territorial ambitions and restrict armaments as well as to discuss human rights and refugee issues the league s failure to prevent world war ii however would lead to its dissolution and the subsequent creation of the united nations as we face new forms of global crisis this timely book asks if the un s fate could be ascertained by reading the history of its predecessor

The Rise and Fall of the League of Nations

1974

from 1923 to 1946 ireland was a committed though critical supporter of the league of nations under cumann na gaedheal and the foreign

ministries of fitzgerald and mcgillgan the state s policy was that of a radical ireland constantly sought to uphold the covenant and further the work of the league in the face of great power criticism this was recognised with the free state s election to the league council in 1930 under fianna fail de valera built upon his predecessors achievements and ireland became a mature and influential league member by the early mid 1930s the irish were involved in nearly all of the league s most important projects and the great powers such as britain recognised ireland s role as one of the influential small states in the league the late 1930s saw the league decline after italy s invasion of abyssinia ireland still supported the league but in a theoretical manner as de valera steered ireland towards neutrality in the looming conflict this book analyses ireland s policy at the league in geneva and the development of league policy in dublin against the background of the turbulent inter war years it examines the personalities and issues behind policy and analyses their execution in geneva it draws on analysis of previously unseen material recently released from the department of foreign affairs archives this book is a fundamental reassessment of irish foreign in the inter war period

The Origin, Structure & Working of the League of Nations

2003

this book lays down a marker as to the state of economists understanding of the national football league nfl by assembling sophisticated critical surveys of by leading sports economists on major topics associated with the league the book is divided into four parts the first three chapters in part i provide an overview of the business of the nfl from an economist s perspective part ii is a collection of surveys of the economics of the nfl s most important revenue streams including media attendance and merchandising the nfl s labor economics is the focus of part iii with chapters on player and coach labor markets the draft and contract structure part iv includes essays on competitive balance gambling economic impacts of the super bowl behavioral economic issues associated with the league and antitrust issues this book will appeal to sports economists sports management professionals and policy makers and would be useful as a supplementary text for sports economics and management courses as well as a reference text
