quality and quality standards of textbooks from a theoretical point of view in the light of bahtin s theory of speech genres school textbooks are seen as a specific complex genre defined by the addressee at the same time this approach requires us to see textbooks as a cultural product from an educational point of view textbooks are according to vygotsky s theory of cultural development a key socio cultural aid to cognitive development in school years forty three quality standards are operationally defined and explained they can be used for compiling textbooks for textbook accreditations for textbook evaluation and for selection by teachers when international rules and regulations governing space travel were first being developed only a few countries had any space presence and commercial space activity was non existent today over 50 countries have on orbit satellites and commercial space presence is essential to commercial telecommunications and broadcasting yet international space law remains in its infancy space safety regulations and standards is the definitive book on regulatory initiatives involving space safety new space safety standards and safety related to new space technologies under development more than 30 world experts come together in this book to share their detailed knowledge of regulatory and standard making processes in the area combining otherwise disparate information into one essential reference and providing case studies to illustrate applications throughout space programs internationally they address the international regulatory framework that relates to traditional space safety programs as well as the emerging regulatory framework that relates to commercial space programs space tourism and efforts to create commercial space station facilities fully endorsed by the international association for the advancement of space safety iaass and provides the only definitive reference on regulations and standards
