Human-Computer Interaction: Applications and Services

2013-07-01

the five volume set lncs 8004 8008 constitutes the refereed proceedings of the 15th international conference on human computer interaction hcii 2013 held in las vegas nv usa in july 2013 the total of 1666 papers and 303 posters presented at the hcii 2013 conferences was carefully reviewed and selected from 5210 submissions these papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems the papers accepted for presentation thoroughly cover the entire field of human computer interaction addressing major advances in knowledge and effective use of computers in a variety of application areas this volume contains papers in the thematic area of human computer interaction addressing the following major topics hci in healthcare games and gamification hci in learning and education in vehicle interaction

Brümmer on Meaning and the Christian Faith

2019-10-01

this volume presents a wide ranging selection from the writings of a leading contemporary philosophical theologian vincent brümmer in his many books and articles brümmer has demonstrated how the tools of philosophical analysis are not only fruitful but also essential for dealing with the central issues of systematic theology the title of this volume meaning and the christian faith highlights two characteristic themes that recur throughout the many writings

~~of vincent brümmer much of his work has been devoted to~~ exploring the meaning of the christian faith and especially of its central claim that god is a personal being whose fellowship believers may enjoy on the other hand brümmer has also shown that religious belief should not be understood as an explanatory theory but rather as a way in which believers understand the meaning of their lives and their experience of the world and direct their lives accordingly thus in the christian tradition believers claim that their lives are meaningful because they seek to attain ultimate happiness in the love of god in the introductory sections throughout this volume vincent brümmer describes how he came to pay attention to the various themes dealt with in his writings and explains why he came to deal with them in the ways he did

Internationalization in Higher Education and Research

2024-01-01

this book examines the pros and cons of the internationalization of higher education institutions which is an important feature of modern universities it makes a significant contribution to our understanding of universities and an important input to the assessment of the internationalization of higher education institutions both for regulators and for the universities themselves the book s three parts focus on a number of issues associated with internationalization the first part perspectives on internationalization provides critical reflections on internationalization on the globally distributed european american university and on the impact of rankings the second part the obstacles to internationalization deals with the significance of language challenges of mobility and environment concerns the third part alternative modes of internationalization discusses internationalization at home international distance education and

Multilingualism and Intercultural Communication

2017-05-01

an in depth look at the changing sociolinguistic dynamics that have influenced south african society to date there has been no published textbook which takes into account changing sociolinguistic dynamics that have influenced south african society multilingualism and intercultural communication breaks new ground in this arena the scope of this book ranges from macro sociolinguistic questions pertaining to language policies and their implementation or non implementation to micro sociolinguistic observations of actual language use in verbal interaction mainly in multilingual contexts of higher education he there is a gradual move for the study of language and culture to be taught in the context of professional disciplines in which they would be used for example journalism and african languages education and african languages etc the book caters for this growing market because of its multilingual nature it caters to english and afrikaans language speakers as well as the sotho and nguni language groups the largest languages in south africa and also increasingly used in the context of south african higher education it brings together various inter linked disciplines such as sociolinguistics and applied language studies media studies and journalism history and education social and natural sciences law human language technology music intercultural communication and literary studies the unique cross cutting disciplinary features of the book will make it a must have for twenty first century south african students and scholars and those interested in applied language issues

Teaching: Dilemmas, Challenges and Opportunities

2023-10-03

how does a teacher deal with a student s challenging behaviour in the classroom is it fair to adopt information and communication technologies that favour students who have access to sophisticated devices such as tablets in their own home how during the professional experience is an education student to act when their beliefs about learning are not congruent with those of the supervising teacher should students be grouped in terms of their ability these and many more issues arise daily in our early childhood primary and secondary learning environments teaching 7e takes a holistic approach to classroom teaching and learning using student friendly language it considers the complexities and opportunities embedded in meeting learners needs in diverse and ever changing contexts it encourages pre service teachers to become active learners of teaching how to think like teachers and to consider the fundamental aspects of teaching it directs pre service teachers to useful teaching resources in text in references and online as well as plenty of resources for the instructor to help guide students including lesson plans and powerpoints case studies and reflection opportunities encourage pre service teachers to consider their own strengths and issues the diversity of learning styles in their students their school and wider community as well as government and ethical requirements it raises student awareness of what it really means to teach and how they can do it students will continue to refer to this concise well researched and easy to use text throughout their qualification in their professional placement and into their teaching career premium online teaching and learning tools are available on the mindtap platform learn more about the online tools au cengage

Effects of Government Mandates and Policies on Public Education in Africa, the Caribbean, and the Middle East

2022-06-01

as the demand for education at all levels has increased so have the models of meeting these increased demands for education as in many other parts of the world public education has expanded to serve large populations across the regions of africa the caribbean and the middle east many nations in these regions have instituted mandates policies and frameworks intended to simultaneously increase access to public education opportunities as well as improve the quality of education provided and to address a wide populace because the increase in educational demand has occurred at all levels these efforts often address various levels of education from early childhood through primary schooling junior secondary and secondary schooling and into tertiary education efforts also have been made to increase participation in education by marginalized and or special populations the range of efforts is large with some focusing on involving migrants immigrants refugees in primary education while others aim at opening up choices at the university level recently nations in the region have recognized the possibilities of digital learning online learning as cell phones and other widely used portable wireless devices have made it possible to sell the idea that one can learn from anywhere at any time this widespread access to technology has made it possible for governments as well as private entities to expand learning opportunities even to populations previously unreached or to address difficult to reach sectors of the population at the same time the population itself has not only increased in numbers

but in diversity maintaining quality through digital and other means of quick expansion of educational opportunities continues to be challenging if not problematic effects of government mandates and policies on public education in africa the caribbean and the middle east is book ix of the series research on education in africa the caribbean and the middle east chapters document describe and or raise critical issues and or questions resulting from government policies mandates and frameworks intended to make available public education to an ever growing populace while at the same time being mindful of improving quality of education being availed to an increasingly diverse populace

Prophecies and Protests

2006

what can managers around the globe learn from the indigenous african term ubuntu humane ness for the first time ever african management advocates interpretative scholars and academic skeptics are brought together in a unique book displaying the richness of the debate on afrocentric management vision this debate is characterized by polarization cultural protest emancipatory aspiration mystification and opportunism prophecies and protests offers a broad spectrum of remarkably diverse views from different backgrounds and could be seen as an important step to foster the dialogue between protagonists and critics between practitioners and academics especially today the central theme of the book is relevant in an era of worldwide cultural diffusion and a longing for authenticity and romanticized histories

Sustainable Development Goals for

Society Vol. 1

2021-06-16

written by 43 authors from africa europe and latin america this book presents 19 topics addressing poverty in the context of sustainable development goals sdgs leadership in implementing sdgs and sdgs in service delivery and local government as the world has gone past five years of implementing the 2030 agenda for sustainable development and the intertwined 17 sdgs new opportunities in research continue to open up hence documenting some of the initiatives put in place around the world regarding the implementation of the sdgs is one of the aims of this publication with 10 years remaining the book further enhances the desire to scale up sdgs implementation the selection of case studies from the selected regions also provides a balance in terms of how the sdgs are being rolled out for economic growth environmental stewardship and social protection the ambition remains even with the challenge brought by the covid 19 pandemic that preoccupied the whole of 2020 spilling over to 2021 there is no doubt that resources have been diverted but the world must stay on the course to 2030 and beyond therefore the book is relevant for several stakeholders including the academics development partners government officials and other individuals that are involved in making sure no one is left behind in the lead to 2030

ICEL2013-Proceedings of the 8th International Conference on e-Learning

2013-06-27

a complete guide to using the internet to improve project management performance empowered by a new generation of

internet technologies and applications managers can now work together from virtually anywhere in the world and on any platform to manage and complete a project with the help of the internet they can discuss the details of any project in advance track a project s progress adjust a timeline in real time manage distributed teams understand resource bottlenecks and revise plans on the fly in this important book internet expert amit maitra describes how to successfully exploit the power and versatility of the internet as a tool for managing projects and processes and how you can too maitra provides an overview of current internet technologies and describes how to incorporate satellites and internet based project management techniques into high technology manufacturing and operations environments he presents a series of fascinating and instructive case studies that demonstrate the various successful approaches used at several leading edge companies maitra provides managers with clear step by step guidelines for designing developing and implementing internet approaches customized to an organization s unique project management needs and supplies helpful ideas for assessing the performance and roi of project management internet applications

Justice for Victims

2014-06-27

leaders are not just born to the role they are born then made and sometimes unmade by their own actions a leader who is not

attuned to his or her followers soon becomes a leader in limbo and invariably then fails connectedness compassion empathy integrity humility reasonableness and a determination to be effective are the keys to attuned leadership an attuned leader can step boldly into an uncertain future with the certainty that followers will lend their support in this richly reflective discussion of leadership and transformation the author provides a guide to what constitutes ethical leadership in local and global contexts for business politics and government in a world where tyrants abound in corporations and in states attuned leadership provides a compass for the direction of ethical leadership central to this perspective is that the philosophical traditions of africa offer an important contribution to the theory and practice of leadership in the world today african humanism or ubuntu evokes both reason and empathy as the basis for ethical leadership ubuntu articulated in the zulu proverb umuntu ngumuntu ngabantu means that a person is a person because of other people the author contends that the reciprocal relationship between the individual and the social collective stimulates caring and progressive thought and action nowhere is this more apt than in the relationship between leader and followers

The Semantic Web: Research and Applications

2008-05-24

an important objective of the study of mathematics is to analyze and visualize phenomena of nature and real world problems for its proper understanding gradually it is also becoming the language of modem financial instruments to project some of these developments the conference was planned under the joint auspices of the indian society of industrial and applied mathematics islam and guru nanak dev university g n d u amritsar

india dr pammy manchanda chairperson of mathematics department g n d u was appointed the organizing secretary and an organizing committee was constituted the conference was scheduled in world mathematics year 2000 but due one reason or the other it could be held during 22 25 january 2001 how ever keeping in view the suggestion of the international mathematics union we organized two symposia role of mathematics in industrial development and vice versa and how image of mathematics can be improved in public these two symposia aroused great interest among the participants and almost everyone participated in the deliberations the discussion in these two themes could be summarized in the lengthy following lines tradition of working in isolation is a barrier for interaction with the workers in the other fields of science and engineering what to talk of non academic areas specially the private sector of finance and industry therefore it is essential to build bridges within in stitutions and between institutions

Monthly Notes of the Astronomical Society of Southern Africa

2001

the articles in this volume were selected for presentation at the sixth inter tional conference on rough sets and current trends in computing rsctc 2008 which took place on october 23 25 in akron ohio usa the conference is a premier event for researchersand industrial professionals interested in the theory and applications of rough sets and related methodo gies since its introduction over 25 years ago by zdzislaw pawlak the theory of rough sets has grown internationally and matured leading to novel applications and theoretical works in areas such as data mining and knowledge discovery machine learning neural nets granular and soft computing intelligence pattern recognition and control the

proceedings of the conferences in this ries as well as in rough sets and knowledge technology rskt and the rough sets fuzzy sets data mining and granular computing rsfdgrc series report a variety of innovative applications of rough set theory and of its extensions since its inception the mathematical rough set theory was closely connected to application elds of computer science and to other areas such as medicine which provided additional motivation for its further development and tested its real life value consequently rough set conferences emphasize the teractionsandinterconnectionswith relatedresearchareas providingforumsfor exchanging ideas and mutual learning the latter aspect is particularly imp tant since the development of rough set related applications usually requires a combination of often diverse expertise in rough sets and an application eld

Attuned Leadership

2022-05-10

this book addresses some of the key questions that scientists have been asking themselves for centuries what is knowledge what is information how do we know that we know something how do we construct meaning from the perceptions of things although no consensus exists on a common definition of the concepts of information and communication few can reject the hypothesis that information whether perceived as object or as process is a pre condition for knowledge epistemology is the study of how we know things anglophone meaning or the study of how scientific knowledge is arrived at and validated francophone conception to adopt an epistemological stance is to commit oneself to render an account of what constitutes knowledge or in procedural terms to render an account of when one can claim to know something an epistemological theory imposes constraints on the interpretation of human cognitive interaction with the world it goes without saying that different epistemological theories will have more or less restrictive criteria to distinguish what constitutes knowledge from what is not if information is a pre condition for knowledge acquisition giving an account of how knowledge is acquired should impact our comprehension of information and communication as concepts while a lot has been written on the definition of these

concepts less research has attempted to establish explicit links between differing theoretical conceptions of these concepts and the underlying epistemological stances this is what this volume attempts to do it offers a multidisciplinary exploration of information and communication as perceived in different disciplines and how those perceptions affect theories of knowledge

Transforming Higher Education Through Universal Design for Learning

2019-02-21

this book constitutes the refereed proceedings of the 14th international conference on text speech and dialogue tsd 2011 held in pilsen czech republic in september 2011 the 53 papers presented together with 2 invited talks were carefully reviewed and selected from 110 submissions the main topic of this year s conference was integrating modern with speech and language technologies this year the third international workshop on balto slavonic natural language was affiliated to tsd the present book contains 8 contributions from this workshop
