## **Collective Leadership and Divided Power in West European Parties 2021-06-12**

political science research especially in recent times has recognized the centrality of party and executive leaders and their individual characteristics the attention has been mostly directed towards individual leadership however one chief leadership is not the only existing model of

party governance and some recent developments seem to have put forms of collective leadership into the spotlight two parties that have recently achieved remarkable electoral results the italian five star movement and the german alliance 90 the greens can be considered examples of alternative models of leadership this book calls for a deep and systematic analysis of cases of parties in which powers and responsibilities appear to be shared among different individuals rather than being concentrated in the hands of just one leader drawing on the literature of organization and management theory the book fills a gap in the literature of political science by developing a theoretical framework that may provide researchers with the tools for proceeding with the analysis of cases of party collective leadership to illustrate their approach the authors have selected three cases the german greens alternative for germany and the five star movement in italy that show significant variation across types of collective leadership the outcome of the empirical analysis contributes to a better knowledge of the nature and functioning of party leadership as well as raises questions that could be further addressed in future research

## **Populism and the Crisis of Democracy 2018-10-11**

the contributions to this volume migration gender and religion bring together empirically grounded and theoretically sophisticated case studies of populist responses to what are perceived to be the threats to national survival and sovereignty from uncontrolled immigration the demographic context declining fertility rates and ageing populations promotes the belief that high muslim

fertility rates are material evidence of an islamic threat to the west to national cohesion and particularly to the safety and dignity of the women of the host community consequently gender plays an important part in populist ideology but populist attitudes to gender are often contradictory populist movements are often marked by misogyny and by policies that are typically anti feminist in rejecting gender equality the traditional family with a dominant father and submissive mother is promoted as the basis of national values and the remedy against social decline the obsession with women in the public domain points to a crisis of masculinity associated with unemployment the impact of austerity packages on social status and the growth of pink collar employment inevitably religion is drawn into these political debates about the future of western societies because religion in general has seen the family and mothers as essential for the reproduction of religion christendom has been identified by populists as providing the ultimate defence of the borders of european civilisation against islam despite the fact that church leaders have often defended and welcomed outsiders in terms of christian charity once more christian europe is the abendland standing in defiance of a threatening and subversive morgenland this volume will be an invaluable reference for students and scholars in the field of political theory political sociology and european studies

## **Computational Power 2021-03-11**

we delegate more and more decisions and tasks to artificial agents machine learning mechanisms and algorithmic procedures or in other words to computational systems not that we are driven by powerful ambitions of colonizing the moon replacing humans with legions of androids creating sci fi

scenarios à la matrix or masterminding some sort of person of interest like machine no the current digital revolution based on computational power is chiefly an everyday revolution it is therefore that much more profound unnoticed and widespread for it affects our customary habits and routines and alters the very texture of our day to day lives this opens a precise line of inquiry which constitutes the basic thesis of the present text our computational power is exercised by trying to adapt not just the world but also our representation of reality to how computationally based icts work the impact of this technology is such that it does not leave things as they are it changes the nature of agents habits objects and institutions and hence it subverts the existing order without necessarily generating a new one i argue that this power is often not distributed in an egalitarian manner but on the contrary is likely to result in concentrations of wealth in dominant positions or in unjust competitive advantages this opens up a struggle with respect to which the task of reaffirming the fundamental values the guiding principles the priorities and the rules of the game which can transform or attempt to transform a fierce confrontation between enemies in a fair competition between opponents rests on us

## **Labour Law and Sustainable Development 2020-06-05**

labour law and sustainable development is a detailed reconstruction of the regulatory framework and jurisprudential findings of sustainable development at the international european and national level the global crisis of the past decade has underlined the social unsustainability of the ultra liberalistic theories through which the labour law deregulation represents the precondition for social and economic development coherent with the globalization imperatives it is no exaggeration to assert that the existing foundations of labour law have been irreversibly compromised it is essential to find a way out of the crisis at the same time defining the founding values of new sustainable labour law in linking labour law with the sustainability paradigm this provocative book promises to widen the scope and terms of the reconciliation of interests taking into account the multiplicity of the stakeholders interested in economic social and environmental issues and in particular to practise an approach that achieves intergenerational equity what s in this book in an unprecedented comparative study including case law of the network of principles agreements practices and norms concerning sustainable development and its different economic and social implications the author examines such facets as the following sustaining solidarity and

equality of opportunity in current and emerging work situations enhancing individual autonomy in the current world of subordinate but independent labour reconciling personal needs flexible organization of companies and reduction of external and internal costs to companies collective action for the regulation of labour relations allowing for the exercise of individual autonomy involving entire populations that have been so far excluded in the world scene developing a sustainable pension system to promote intergenerational solidarity implementing flexicurity policies positively social clauses of international trade treaties undoing the profound contradiction of gender and wage inequalities and promoting corporate social responsibility the objective of this book is to provide the reader with a reasoning basis to assess whether the choice to elect sustainable development as a new paradigm of reference for labour law is feasible and if in particular this choice can be useful in order to define the founding values of a new sustainable labour law how this will help you using an interdisciplinary approach the author emphasizes the need to consider the various dimensions of sustainability together not only the original environmental but also the economic and social dimensions this book offers a real strategic leap for both legislators and social actors in particular leading the way to avoiding a fracture of the generational pact that has held together modern societies although the book presents a profound academic contribution to the analysis of labour law realities and trends it will also be welcomed by corporate lawyers judges human rights experts trade unionists business managers entrepreneurs and consultants interested in the issues of labour sustainable development and social rights

## Drafting Italy 2023-05-23

this is the first comprehensive history of conscription and the military in italy from the restoration to the eve of wwi the comparative and transnational approach enables this work to compare and contrast the italian experience with that of many other countries in the world as well as understand transfers and the adaptive and imitative processes that emerge when conscription and the military are viewed from an italian perspective peacetime and wartime recruitment military life culture justice and civil military relationships are analysed using a wide range of sources and an interdisciplinary approach that combines top down and bottom up perspectives this enables the book not only to assess the contribution the military has made to the country in terms of state building nation building modernization pedagogical and disciplinary models gender identity and roles but also to reconsider the standard taxonomies as well as some established evolutionary models of the armies moreover the italian military is seen as an internally complex world that is incapable of defining its own one dimensional identity or of imposing any such identity on its members consequently it is an element in the history of a country that is substantially the same as any other such element and thus important in people s collective and individual lives whether or not they are in uniform rather than being an object of study in and of itself the military becomes a vantage point from which to observe the italian history in the long 19th century therefore this book can be profitably read by professional military historians and non specialist readers interested in the military as well as by all scholars working on

italian pre and post unification political institutional socio economic  
cultural and gender history
