this comprehensive volume provides crucial insights from contemporary academics and practitioners into how positive interventions might be made into post secular political spaces that have emerged in the wake of the economic political and social upheavals of the 2008 global financial crisis the failure of liberal democracy to deal effectively with such challenges has led to scapegoating of the poor immigrants and muslims and contributed to the populist electoral success of among others the leave campaign during the 2016 united kingdom european union membership referendum and donald trump s presidential campaign these shocks have highlighted contemporary political spaces defined by what has been termed all the posts postmodern post christendom post liberal post political and post secular this collection examines emerging attempts to

understand and advance the cause of wellbeing within this context the authors address a variety of key issues including re configuring mythologies for the common good deploying love and friendship politically motivating new social movements valuing the other recovering displaced and devalued political narratives finding alternatives to the previously dominant neo liberalism listening deeply for social transformation and overcoming adversarial party politics this book was originally published online as a special issue of the journal global discourse
