the third volume of this series documents the death date order of 27 524 graves in the jackson and sandy ridge townships union co nc

The Cemeteries of Jackson and Sandy Ridge Townships, Union Co., NC: Volume 3- Death Index

2017-08-30

2006 to 2017 for 11 long years the author wrote a weekly column in the leading english daily dna service tax simplified every week a recent burning issue a new current problem and the challenge for finding a solution a solution which had to be simple in lucid layman language many of his professional colleagues asked him why he gives a free solution in public what he achieve in giving free advice and his response a smile because that s what he give to his readers when they find their solutions a smile on their tense faces if his articles have brought back the smiles on the reader s faces if his articles have assisted them to resolve their service tax issues with the department without spending a penny if many articles have enriched the knowledge of his learned friends chartered accountants consultants tax professionals and his friends working with the service tax department then my efforts have been awarded he has learned that life is a journey a journey with no destination it is this voyage one needs to learn to enjoy as you read this compilation of over 450 articles you will experience the evolution of service tax as if a small caterpillar has metamorphosed into a butterfly

Metamorphosis -Service Tax To Goods Services Tax

2020-05-24

for some years we have observed a broad public discussion over the shrinking civic space while the focus has generally been on countries with authoritarian governance systems it has more recently become apparent that the issue is neither restricted to these countries nor indeed to countries with weak or non existing democracies it has been demonstrated that the space in which civil society actors and individual citizens may contribute to public affairs is undergoing fundamental changes in europe while in some areas the clout of civic initiative is larger today than ever before in others civic action is highly disputed and governments are attempting to crowd out non governmental actors from the public sphere this edited volume examines the wellbeing of civil society in the europe and its riparian states presented by experts from 12 european countries the book presents insights in the latest developments of civil society and aspect like the shifting interaction between the state market and civil society or the influence of populist movements on civil society and tackles the question wether there is a shrinking civic space in europe it addresses policy and decision makers civil society academics and actors in the field as well as the public

Contested Civic Spaces

2023-07-03

considering how changing conditions in the mediterranean region have affected the decisions of those considering migrating from sub saharan africa to or through the region this book represents an important and overdue contribution to international policy making and academic discourse in current discussions relating to this migration phenomenon the complexity of individual decision making are left unacknowledged and hence subsequent policy responses draw upon simplified models in this volume individual decision making takes central stage by bringing together contributions demonstrating very different types of decision making frameworks

Understanding Migrant Decisions

2016-06-10

written by a group of international contributors ground improvement case histories embankments with special reference to soil consolidation and other physical methods employs the use of case histories to illustrate and apply equations numerical methods and technology to undertake even the most complicated ground improvement projects in this book each case history provides an overview of the specific technology followed by field applications and in some cases comprehensive back analysis through numerical modelling specific embankment case histories with special reference to soil consolidation included are ballina bypass australia tianjin port china second bangkok international airport thailand changi east reclamation singapore maizuru wakasa expressway japan and colombo airport expressway sri lanka other physical methods include performance of stone columns at penny s bay reclamation in hong kong and pcc piles for highway and high speed railway construction in china among others provides a wealth of contributor generated case histories from all over the world includes an abundance of illustrations and worked out examples all inclusive discussion of preloading vertical drains and vacuums applications features case histories regarding sand and gravel piles stone columns and other rigid inclusions

Ground Improvement Case Histories

the foreign policies of turkey and iran seem increasingly to dictate the course of events in the middle east more recently and especially following the syrian crisis the spotlight has turned to these states dynamic re entry onto the political stage revealing them as key players with an international role in efforts towards the balance of power across the region this book traces the major determinants of turkish and iranian foreign policies and their influence on events in the middle east based on an examination of these states politics and policies since 1979 and using material gathered from interviews with leading political figures from turkey iran and the kurdistan region of iraq marianna charountaki offers fresh insights into how we understand the contemporary global order of particular importance this book shows is the effect of both external and internal factors on foreign policy and how the interaction between state and non state actors informs political decisions in placing these issues in a theoretical framework marianna charountaki pioneers a new conceptual map within international relations an interdisciplinary study that provides a fresh new perspective this book will be of particular interest to scholars of international relations politics foreign policy kurdish and middle east studies

Iran and Turkey

2018-03-30

this book analyzes social movements across a range of countries in the non western world bosnia brazil egypt india iran palestine russia syria turkey and ukraine in the period 2008 to 2016 the individual case studies investigate how political and social goals are framed nationally and globally and the types of mobilization strategies used to pursue them the studies also assess how in the age of transnationalism the idea of participatory democracy produces new collective action frames and mass mobilization strategies the book challenges the view that most social movements unequivocally seek to achieve higher levels of democratization instead the authors argue that protesters across different movements advocate more involved forms of citizen participation since passive representation through liberal democratic institutions fails to address mass grievances and demands for accountability in many countries

Non-Western Social Movements and Participatory Democracy

2017-03-02

internationalization is a strategic issue for companies as it is today the central axis for the development of small and medium sized enterprises smes market expansion and the growing importance of emerging markets offer new development opportunities for smes to use innovative strategies such as head deck strategies to effectively penetrate these markets this book focuses on understanding these new strategies why do smes use head of bridge strategies in order to internationalize how do they deploy such strategies abroad based on the example of five manufacturing smes which are at different stages of internationalization this book highlights the main motivations

stages of deployment but also difficulties encountered in this direction this book is a tool for assessing potential locations and provide managers with a new alternative in terms of internationalization enabling rapid identification of key stakeholders adapting their international development plan and anticipating potential pitfalls

SME Internationalization Strategies

this book presents a new way of looking at and analyzing policies programs and or plans in which research scientists have used their knowledge to develop mechanisms such as south africa s national water resource strategy second edition australian and south african climate change adaptation strategies for government entities and the undp s water and ocean governance focus area it critically assesses how science can be used in the service of society and how researchers and practitioners can bridge the gaps that arise as a result of incomplete thinking presenting a bird s eye view of how thinking and understanding operate in the policy context it offers a valuable contribution to fields of inquiry such as research methods comparative analyses political science international relations and the natural and social sciences in general this book fills a market gap providing real world solutions to the practical application of science paradigms and theories

Paradigms and Theories Influencing Policies in the South African and International Water Sectors

2016-11-12

the book deals with the role of social capital regarding its potential to increase small islands adaptive capacity to climate change the case study of the isles of scilly uk shows how social structures can play a very important role for climate change adaptation it is argued that social features have to be understood in a non deterministic and potentially ambivalent manner according to their place specific geographical cultural and historical context only then risk management and adaptation strategies can succeed and function in a sustainable way the findings have relevance for the further refinement of social capital theory and social emergence combined with the perspective of resilience this approach is also relevant from a policy standpoint given that small islands have been identified as hotspots not only due to their vulnerability but also because they serve as examples for media and politics to advance the agenda of environmental protection

Social Capital, Resilience and Adaptation on Small Islands

Korea Focus - July 2014

2014-07-21

the focus of this edited volume is the often overlooked importance of secondary rules of international law secondary rules of international law such as attribution causality and the standard and burden of proof have often been neglected in scholarly literature and have seen fragmented application in international legal practice yet the systemic nature of international law entails that coherent and consistent application of such rules is a key element in reinforcing the legitimacy of decisions of international courts and tribunals accelerated development of international law and international litigation coupled with the fragmented nature of the adjudicatory terrain calls for theoretical scrutiny and systemic analysis of the developments in the judicial treatment of secondary rules this publication makes three important contributions to the study of secondary rules first it offers a comprehensive expert doctrinal analysis of how standard of review causation evidentiary rules and attribution operate in the case law of international courts or tribunals in fields spanning human rights trade investment and humanitarian law

second it comparatively evaluates the divergent layers of meanings and normative expectations attached to secondary rules in international law scholarship as well as in the judicial practice of international courts and tribunals finally the book investigates the role that secondary rules play in the development of the primary rules in international law and for the legitimacy of the decisions of international courts and tribunals earlier scholarly works have not problematized the role of secondary rules of international law in adjudication thoroughly secondary rules of primary importance in international law seeks to fill this gap by emphasizing the consequential nature of these secondary rules and argues that the outcome of litigation is fundamentally shaped by the exact standard of proof standard of review or attribution basis that is chosen by adjudicators as such the book offers an important resource for the study and practice of international law against the backdrop of the wide ranging and fragmented nature of international adjudication

Secondary Rules of Primary Importance in International Law
