Professional Journal of the United States Army 2017-07 the world is in crisis bringing activists and protesters onto the streets and into the public eye more than ever activism relies on spectacle and visibility in order to be noticed in the era of globalized capitalism and networked media at the same time a growing number of artists employ creative strategies to critique the establishment act in resistance and demand change visual activism of this kind is not new but it is rapidly evolving this anthology presents 16 case studies of visual activism from across the globe providing an up to date picture of the impact of contemporary visual and art activism and combining a scholarly interrogation of visual activism with an examination of how it works in practice the case studies address a wide range of issues including human rights abuses state violence gender and sexuality racism migration and climate breakdown they examine a range of approaches from playful carnivalesque parades to extreme practices such as lip sewing and are drawn from a wide range of international contexts from europe and the us to iran india pakistan tunisia and china this diverse scope enables readers to consider examples comparatively noticing emerging trends and key differences to reveal how geopolitical and cultural factors play an important role in shaping activist practices this rich and timely collection provides a fresh perspective on the possibilities limitations and politics of visual activism as activists artists and curators respond to the changing world around them in this most uncertain of times

Military Review 2017 defence industries in the 21st century explores the transformation in the global defence industrial production through examining the interaction between international and domestic factors with the global defence industry and arms market likely continue to expand and mature the ways in which this progression could influence international politics remain obscure in practice as the contents of this book show the defence industrial bases and arms export policies of emerging states display significant variance this variance is the result of a unique balance between domestic and international factors that has shaped the defence industrialisation behaviour and policies of the less industrialised states one of the most important conclusions of the book is that the interplay between domestic and international factors clearly influences the variation in the emerging states defence industrialisation policies as well as their success or failure while international factors create opportunities they also limit the options available to emerging economies domestic factors also play an important role by shaping the policy choices of the states decision makers exploring the balance between international and domestic factors and the ways in which they influence defence industrialisation in emerging states defence industries in the 21st century will be of great interest to scholars of defence industries arms manufacturing and defence strategic and security studies more generally the chapters were originally published in defence studies comparative strategy and all azimuth

Visual Activism in the 21st Century 2022-07-28 the essential compendium covering the year in naval developments the only annual overview of its kind very highly recommended warship world for more than a decade this annual volume has provided an authoritative summary of all that has happened to the world s navies and their ships in the previous twelve months it combines regional surveys with major articles on important new warships and looks at wider issues of significance to navies such as aviation and weaponry the contributors come from around the globe and in addition to providing a balanced picture of naval developments they interpret their significance and explain their context along with its regular regional reviews the 2022 volume focuses on three fleets the sri lankan navy the spanish navy and the royal navy there are in depth articles on the argentinian bouchard class opvs the russian project 20380 sterguschchiy class corvettes and the royal navy s batch 2 river class opvs the technological section looks at optronic systems and offboard mine countermeasures and there is the regular review of what is happening in naval aviation which includes coverage of the us marine navy mv 22 tiltrotor now firmly established as the only annual naval overview of its type in the world the seaforth world naval review is essential reading for the professional and enthusiast alike taking readers to the heart of contemporary maritime affairs a marvelous asset for those wishing to keep up to date with naval matters warship world includes photographs

Annual Report 2016 these are turbulent times for american foreign policy nowhere are the challenges facing the united states more evident than in u s policy toward russia drawing on scholars across several disciplines and perspectives csis conducted a year long study that sought to achieve two goals first to provide policymakers with a clearer understanding of russia s strategic motivations and objectives along with the tools it uses to advance its goals second to lay out a comprehensive

strategy to secure u s and transatlantic interests in the face of the complex russia challenge set

Defence Industries in the 21st Century 2021-05-13 digital signal processing is ubiquitous it is an essential ingredient in many of today s electronic devices ranging from medical equipment to weapon systems it makes the difference between dumb and intelligent systems this book is organized into five parts 1 introduction which contains an account of prof constantinides contribution to the field and brief summaries of the remaining chapters of this festschrift 2 digital filters and transforms which covers efficient digital filtering techniques for improving signal quality 3 signal processing which provides an insight into fundamental theories 4 communications which deals with some important applications of signal processing techniques and 5 finale which contains a discussion on the impact of digital signal processing on our society and the closing remarks on this festschrift

The Combat Edge 2000-12 the power of reportage drawing is in the immediacy of the images that are created and the feeling of the illustrator s presence on location comparable in some ways to photojournalism reportage illustrators are acting as visual journalists proactively creating narrative work about issues and subjects translating what they witness into handmade imagery there is evidence that illustrations connect to people in powerful ways whether they are drawings created while embedded with troops in afghanistan documenting during a courtroom trial or recreating the energy of the crowd at a rock concert this area of applied illustration also provides career opportunities for students and takes them out of the classroom and into different environments and situations with practical information about tools techniques and coping in various situations as well as inspirational interviews and advice from reportage artists working in the field this book will fill a gap in this growing market

Seaforth World Naval Review 2022 2021-12-30 this volume provides a comprehensive understanding of the european defence agency eda the leading eu armaments policy institution despite its critical role in european strategic and military affairs as the key hub of european policy making in the field of armaments the agency has hitherto received very little attention by the academic and research community around europe to fill this gap in the literature the book covers a multitude of inter related themes and topics not only does it provide a detailed analysis and assessment of the agency s record as the first institution dealing solely with eu armaments policy but it also links these findings to international relations and european integration theory thematically the contributions go beyond the mere description of achievements gaps and risks elaborating on novel themes such as space offsets pooling and sharing and transatlantic armaments relations the book combines an interdisciplinary approach to the study of european defence with theoretical and ontological pluralism and seeks to unveil the strategic industrial institutional and ideational sources of armaments collaboration and capability development under the aegis of the eda the multi faceted orientation of the book will be of much interest to students of european security eu institutions defence studies arms control and international relations in general

Recalibrating U.S. Strategy toward Russia 2017-04-12 strategic autonomy is the latest fashionable concept in paris and brussels alike it appears no fewer than 24 times in the most recent french strategic review and there is not a single european strategic document however insignifi cant that makes no mention of it

War Dogs 2016-07-26 the united nations world water assessment programme wwap is hosted and led by unesco wwap brings together the work of 31 un water members and 38 partners to publish the united nations world water development report wwdr series the annual world water development reports focus on strategic water issues un water members and partners all experts in their respective fields contribute the latest findings on a specific theme the 2017 edition of the world water development report focuses on wastewater and seeks to inform decision makers inside and outside the water community about the importance of managing wastewater as an undervalued and sustainable source of water energy nutrients and other recoverable by products rather than something to be disposed of or a nuisance to be ignored the report s title wastewater the untapped resource reflects the critical role that wastewater is poised to play in the context of a circular economy whereby economic development is balanced with the protection of natural resources and environmental sustainability and where a cleaner and more sustainable economy has a positive effect on the water quality improved wastewater management is not only critical to achieving the

sustainable development goal on clean water and sanitation sdg 6 but also to other goals of the 2030 agenda for sustainable development

Trends in Digital Signal Processing 2015-07-24 this book argues that security and defense have never been true priorities in the european union and have constantly been marginalized by the elites since the soviet union collapsed and the warsaw pact disintegrated despite the official rhetoric only a few tangible results can be presented concerning the operational readiness of european forces and the eu s inability to act was proven during the crises in the balkans nato has experienced similar problems as the majority of its members are eu countries both organizations have declared their resolve concerning the security and defense of their nations and territories but unfortunately little has been done to lend these statements credence in this context the book analyzes several aspects of eu security and defense including the eu nato relationship common defense policy and strategy common capability building common understanding of strategic changes common operational planning and centrally synchronized exercises based on operational planning etc the member states have helped to make eu nato effective organizations but unfortunately their individual interests and priorities constitute real challenges this aspect should be discussed and addressed by political and military elites scholars analysts students and the general public alike

Reportage Illustration 2018-01-11 hope and change were the keywords of president barack obama s 2008 campaign and in his farewell address on january 10 2017 he cited the evidence that he d delivered from reversing the great recession rebooting the auto industry and unleashing the longest stretch of job creation in the nation s history to winning marriage equality and securing the right to health insurance for another 20 million citizens at the same time and with a view to the country s divisive polarization he made a plea for the decency of our people and the sense of common purpose that we so badly need right now in hindsight it is increasingly possible to understand whether and how obama s legacy matched his rhetoric as well as to evaluate from various angles what his presidency accomplished and what this has meant for us politics public policy and civic life going forward in the obama legacy some of the leading observers and scholars of us politics take up this challenge in twelve essays these writers examine obama s choices operating style and opportunities taken and missed as well as the institutional and political constraints on the president s policy agenda what were obama s personal characteristics as a leader what were the policy aspirations output and strategy of his presidency what was his role as a political and public leader to the various constituencies needed to generate presidential power and how did his presidency interact with other political forces addressing these questions and others the authors analyze obama s preferences tactics successes and shortcomings with an eye toward balancing the personal and institutional factors that underlie each all the while considering how resilient or fragile obama s legacy will be in the face of the trump administration s eager efforts to dismantle it

The European Defence Agency 2015-04-10 deconstruct the history of patterns of innovation in business and connect them to existing and failed attempts in management consultancies engineering web technologies and academic institutions this book shows you how to create an optimal environment at work for growth and innovation many large scale organizations eventually invest in research and innovation as a dedicated part of their businesses in doing so they are faced with two choices build their own practice of innovation or enact patterns of innovation created before them ones they perceived as tried and tested in this book you will see how patterns of innovation touch many aspects of a worker s life from how their work is presented to others job titles working environment and expectations around output every chapter will offer a history of these patterns and examples of how they have succeeded and failed within organizations what you will learn identify how innovation is named and highlighted in organizations reveal ways to champion innovation to clients and the outside world from trade shows and conferences inside the office uncover ways companies acquire innovation including incubators or mergers discover the conditions for innovation to happen every day including office layouts time management communication structures and expectation management who this book is for tech start up scale up founders management consultants managing directors innovation managers and heads of r d academic researchers interior designers and architects

Strategic autonomy under the spotlight 2018-08-09 1 intelligence artificielle et la robotique constituent incontestablement des leviers de croissance de nature à modifier en profondeur les modes de production et les modèles économiques existants en plus de susciter pour certaines de leurs formes de nouveaux types de rapports sociaux qui ne seraient pas purement humains la

singularité du robot dans l'espace juridique a vocation à s'accroître symétriquement tandis que la pertinence de la qualification de bien meuble décroît la nécessité de doter le robot intelligent d'un statut juridique inédit se fait plus pressante ce mouvement en vases communicants a ceci de particulier qu'il semble à la fois unilatéral et irréversible la puissance de l'industrie robotique l'implication des plus grands acteurs de l'économie numérique l'importance des enjeux financiers l'engouement de la recherche et l'appétence sociale constituent ensemble une assise particulièrement solide à l'avènement de la robotique intelligente une fois la rupture technologique consommée résultant de la liberté dont disposera bientôt le robot elle-même continuellement renforcée par ses capacités d'apprentissage le droit n'aura d'autre choix que de s'aligner en France comme en Europe et dans le monde les cadres réglementaire et éthique commencent déjà à se dessiner cet ouvrage complète le minilex droit des robots publié en 2015 en passant en revue toutes les disciplines droit de la personne droit de la consommation contrat responsabilité assurance propriété intellectuelle droit pénal données personnelles sécurité éthique droit à la transparence des algorithmes neurodroit etc mais également des technologies chatbots blockchain bionique neurosciences etc et des secteurs d'activité usine 4.0 armement banque et finance justice santé etc il comporte en outre une analyse comparative de 21 chartes éthiques et codes de conduite qui permettent dans un premier temps d'accompagner ces mutations technologiques dans la zone Europe Asie États-Unis et France

The United Nations world water development report, 2017 2017-03-15 in the wake of globalization numerous social scientists are turning to concepts of mobility fluidity and hybridity to characterize a presumed de-territorialization and de-bordering of contemporary social and economic relations this book brings together a select group of internationally renowned human geographers to explore the use of these concepts in relation to space place and territory in doing so they re-situate the subject of borders as active socio-spatial processes from a variety of theoretical perspectives the contributors link debates on borders to discussions within the wider sphere of cultural studies notably those addressing themes of migration post-colonialism the formation of national regional identities and radical democratic practice the chapters focus on those discursive practices that constitute bordered geographical entities in the first instance through differentiated regimes of discourse the book thus transcends the narrower field of borderlands research by building bridges to other domains of enquiry within political and human geography

Security and Defence in Europe 2019-05-24 this is a commentary on the legislation around the use of cluster munitions in warfare

The Obama Legacy 2019-05-31 this concise history of guerilla warfare presents profiles in combat courage from George Washington to Simón Bolívar Mao Zedong and beyond the concept of guerrilla warfare is centuries old with Sun Tzu's writing on the subject dating back to the sixth century BC one of the earliest recorded examples of guerrilla tactics deployed by a military leader was the campaign of Roman general Fabius Maximus who took a course of evasion and harassment against Hannibal's columns guerilla warfare is a compendium of prominent guerrilla leaders across the globe from thirteenth century Scotland's William Wallace to modern day Sri Lanka's Velupillai Prabhakaran it profiles each leader to analyze their personal history military tactics and political strategy all are home-grown leaders of extended guerrilla campaigns many became the first leaders of their liberated countries both victories and defeats are included here in an analysis of effective guerrilla tactics as well as counterinsurgency strategies today the labels of insurgent freedom fighter and jihadi are fast replacing guerrilla the old notion of the guerrilla associated with fights for independence and the end of colonialization has dimmed with modern and far-reaching religious insurgencies taking their place this concise history gives a fascinating overview of a once history-altering form of warfare

Creating a Culture of Innovation 2020-12-05 an analysis of the performance of medium armored forces across the range of military operations since World War I yields insights with significant implications for U.S. Army decisions about fielding these units in the future the authors find that medium armored forces fare poorly against competent heavily armored opponents and that the Stryker and Future Combat Systems will not fill the void created by the retirement of the M551 Sheridan
