Research Method

2017-09-19

the degrading environment of the planet is something that touches everyone this 2011 book offers an introductory overview of literary and cultural criticism that concerns environmental crisis in some form both as a way of reading texts and as a theoretical approach to culture more generally ecocriticism is a varied and fast changing set of practices which challenges inherited thinking and practice in the reading of literature and culture this introduction defines what ecocriticism is its methods arguments and concepts and will enable students to look at texts in a wholly new way boxed

sections explain key critical terms and contemporary debates in the field with hands on examples and comparisons timothy clark s thoughtful approach makes this an ideal first encounter with environmental readings of literature

Probability, Random Processes, and Statistical Analysis

2011-12-15

the cambridge history of southeast asia is a multi authored treatment of the whole of mainland and island southeast asia from burma to indonesia unlike other histories of the region it is not divided on a country by country basis and is not structured purely chronologically but rather takes a thematic and regional approach to southeast asia s history aiming to present the current state of historical research on southeast asia as well as stimulating further thought and investigation publisher description
