two year old girl named michelle funk michelle fell into a creek and was underwater for over an hour when she was found she wasn't breathing and her pupils were fixed and dilated but after three hours of persistent work a team of doctors and nurses was able to bring her back if michelle could come back after three hours of being dead what about twelve hours or twenty four what would it take to revive someone who had been frozen for one thousand years and what does blurring the line between life and death mean for society in shocked casarett chronicles his exploration of the cutting edge of resuscitation and reveals just how far science has come he takes us to a conference of cryonauts who want to be frozen after they die a dark room full of hibernating lemurs in north carolina and a laboratory that puts mice into a state of suspended animation the result is a spectacular tour of the bizarre world of doctors engineers animal biologists and cryogenics enthusiasts trying to bring the recently dead back to life fascinating thought provoking and funny shocked is perfect for those looking for a prequel and a sequel to mary roach's stiff or for anyone who likes to ponder the
