beautifully written and deeply researched the observer upon victory in 1945 britain still dominated the middle east but her motives for wanting to dominate this crossroads between europe asia and africa were changing where imperial security control of the route to india had once been paramount now oil was an increasingly important factor so too was prestige ironically the very end of empire made control of the middle east precious in itself on it hung britain s claim to be a great power unable to withstand arab and jewish nationalism within a generation the british were gone but that is not the full story what ultimately sped britain on her way was the uncompromising attitude of the united states which was determined to displace the british in the middle east using newly declassified records and long forgotten memoirs including the diaries of a key british spy james barr tears up the conventional interpretation of this era in the middle east vividly portraying the tensions between london and washington and shedding an uncompromising light on the murkier activities of a generation of american and british diehards in the region from the battle of el alamein in 1942 to britain s abandonment of aden in 1967 reminding us that the middle east has always served as the arena for great power conflict this is the tale of an internecine struggle in which britain would discover that her most formidable rival was the ally she had assumed would be her closest friend bustles impressively with detail and anecdote sunday times consistently fascinating the spectator barr draws on a rich and varied trove of sources to knit a sequence of dramatic episodes into an elegant whole great events march through these pages wall street journal

life is often filled with trial heartache grief and struggle but perhaps there s a treasure to be found in those difficult seasons and that treasure is intimacy with god himself that should be reason enough to rejoice so how do we take god s command to pharaoh in exodus 5 to let my people go so they may hold a festival for me in the desert as a holy invitation to be stripped down and made whole while still worshipping the one who allows the stripping through vulnerable and transparent stories laureen alexa trujillo shares her personal testimony of hardship and trial and all that god taught her through suffering she highlights the faithfulness of god and brings attention to the purpose of her struggle to learn dependency on god by being exposed to the barrenness of the desert surrender the false comfort of our personal egypt and come out stronger and more refined for the promise land we were created to inherit through festival in the desert laureen walks you through the question that confronted her how do we learn and truly embrace the fact that god can and will

work all things together for good as we seek him and choose to love him through uncertainty fear and hardship the stories and interactive prompts will point us to the heart of the father reminding us that god is faithful present trustworthy and more than capable of making a way for us when there doesn't seem to be one ushering in freedom comfort and renewed hope

in the bible the desert is a place of punishment and discipline but also of blessing and love's reawakening both jesus and the people of israel before him spent time in the desert learning what it meant to be chosen and loved and holy yet while the people of the exodus frequently got it wrong providing some cautionary tales for us to learn from jesus himself constantly got it right offering a perfect model for us to follow in the way of the desert andrew watson takes us on a lenten journey from ash wednesday to easter day from the parting of the red sea to israel's entry into the promised land combining these old testament scriptures with insight from the gospels he reveals the continuing relevance of the exodus story to all who would seek to follow christ the author writes it became the must have accessory among christian young people in the 1990s a rubber wristband cryptically inscribed with the letters wwjd a hundred years earlier charles sheldon american pastor and christian socialist had written a book entitled what would jesus do and the initials on the wristbands picked up just the same question whatever situations we face in life whatever decisions we are called upon to make the issue of wwjd is vital for the christian disciple jesus call after all is to follow me as a church leader at the time when wwjd wristbands were selling by the truckload i was therefore positive about this simple summons to christian thinking and discipleship my only reservation was that wwjd seemed to beg a prior question and one on which our young people appeared increasingly hazy namely what did jesus do short of marketing my own range of wdjd wristbands there were limited means to get my message across though i mentioned it in the odd sermon at the time but the danger of asking speculative questions about jesus without rooting them clearly in the jesus of the gospels is a real one how easy to construct a jesus of my own making a pocket jesus or idol to use the bible's own term who conveniently seems to share my views on politics religion money and relationships without making me feel uncomfortable or challenged at all as we approach lent the question what did jesus do yields some interesting answers for the 40 days of lent reflect the period that jesus spent in the wilderness following his baptism and before the start of his public ministry it's a period briefly mentioned by the gospel writer mark 1:12-13 and described in greater detail by fellow evangelists matthew 4:1-11 and luke 4:1-13 so what did jesus do in what we could call the first lent

winner of the 2019 stan and tom wick poetry prize natalie diaz judge i say my mother s name cristina desert marigolds crack through a boulder i say my father s name martin all the novena candles in the bed of the truck are aglow these lines from the book s titular poem on this side of the desert encapsulate the dominant themes of the collection the power and meaning derived from the act of naming the deep interconnectedness of latinx cultures a product of strong family traditions and an intimate relationship with the natural world and a profound spirituality rooted in the sacraments of catholic orthodoxy this poem like many of those in aguilar s collection is written from the perspective of a young boy growing up along the mexican border as aguilar chronicles the unique challenges faced by border communities where surviving the desert is a perpetual struggle and the distress of finding an entire skeleton in torn clothes is muted by frequency he also modernizes

the traditional pastoral form to encompass both beauty and trauma this debut book of poetry describes the experience of being raised in southern california as a child of mexican immigrants in the shadow of the borderlands just as the borderlands are defined by the desert so too are its inhabitants defined by their families their culture shaped from the clay of the sonoran desert and given life by the nourishing water of their ancestors in these poems the desert is recognized for what it truly is a living breathing body filled with both joy and pain

the earth is in great peril due to the corporatization of agriculture the rising climate crisis and the ever increasing levels of global poverty starvation and desertification on a massive scale this present condition of global trauma is not natural but a result of humanity s destructive actions and according to masanobu fukuoka it is reversible we need to change not only our methods of earth stewardship but also the very way we think about the relationship between human beings and nature fukuoka grew up on a farm on the island of shikoku in japan as a young man he worked as a customs inspector for plants going into and out of the country this was in the 1930s when science seemed poised to create a new world of abundance and leisure when people fully believed they could improve upon nature by applying scientific methods and thereby reap untold rewards while working there fukuoka had an insight that changed his life forever he returned to his home village and applied this insight to developing a revolutionary new way of farming that he believed would be of great benefit to society this method which he called natural farming involved working with not in opposition to nature fukuoka s inspiring and internationally best selling book the one straw revolution was first published in english in 1978 in this book fukuoka described his philosophy of natural farming and why he came to farm the way he did one straw was a huge success in the west and spoke directly to the growing movement of organic farmers and activists seeking a new way of life for years after its publication fukuoka traveled around the world spreading his teachings and developing a devoted following of farmers seeking to get closer to the truth of nature sowing seeds in the desert a summation of those years of travel and research is fukuoka s last major work and perhaps his most important fukuoka spent years working with people and organizations in africa india southeast asia europe and the united states to prove that you could indeed grow food and regenerate forests with very little irrigation in the most desolate of places only by greening the desert he said would the world ever achieve true food security this revolutionary book presents fukuoka s plan to rehabilitate the deserts of the world using natural farming including practical solutions for feeding a growing human population rehabilitating damaged landscapes reversing the spread of desertification and providing a deep understanding of the relationship between human beings and nature fukuoka s message comes right at the time when people around the world seem to have lost their frame of reference and offers us a way forward
