romantics incited a revolution of the mind that transformed our world forever we are still empowered by their daring leap into the self and by their radical notions of the creative potential of the individual the highest aspirations of art and science the unity of nature and the true meaning of freedom we also still walk the same tightrope between meaningful self fulfillment and destructive narcissism between the rights of the individual and our responsibilities toward our community and future generations at the heart of this inspiring book is the extremely modern tension between the dangers of selfishness and the thrilling possibilities of free will
