what are essential questions and how do they differ from other kinds of questions what s so great about them why should you design and use essential questions in your classroom essential questions eqs help target standards as you organize curriculum content into coherent units that yield focused and thoughtful learning in the classroom eqs are used to stimulate students discussions and promote a deeper understanding of the content whether you are an understanding by design ubd devotee or are searching for ways to address standards local or common core state standards in an engaging way jay mctighe and grant wiggins provide practical guidance on how to design initiate and embed inquiry based teaching and learning in your classroom offering dozens of examples the authors explore the usefulness of eqs in all k 12 content areas including skill based areas such as math pe language instruction and arts education as an important element of their backward design approach to designing curriculum instruction and assessment the authors give a comprehensive explanation of why eqs are so important explore seven defining characteristics of eqs distinguish between topical and overarching questions and their uses outline the rationale for using eqs as the focal point in creating units of study and show how to create effective eqs working from sources including standards desired understandings and student misconceptions using essential questions can be challenging for both teachers and students and this book provides guidance through practical and proven processes as well as suggested response strategies

to encourage student engagement finally you will learn how to create a culture of inquiry so that all members of the educational community students teachers and administrators benefit from the increased rigor and deepened understanding that emerge when essential questions become a guiding force for learners of all ages

Ancient China for Kids - Early Dynasties, Civilization and History | Ancient History for Kids | 6th Grade Social Studies

2018-05-15

about 5 000 years ago the first urban societies developed laying the foundations for the first civilizations nearly all civilizations share the same few features they have abundant food surpluses contained cities political bureaucracies armies defined religious and social hierarchies and long distance trading ancient egyptian culture flourished between c 5500 bce with the rise of technology as evidenced in the glass work of faience and 30 bce with the death of cleopatra vii the last ptolemaic ruler of egypt it is famous today for the great monuments which celebrated the triumphs of the rulers and honored the gods of the land the culture is often misunderstood as having been obsessed with death but had this been so it is unlikely it would have made the significant impression it did on other ancient cultures such as greece and rome neolithic means e new stone e even though agriculture was the crowning achievement of the period civilizations started out small agriculture at first tended to tie only small groups together these groups also all settled along rivers important as a reliable and predictable source of water as time passed families usually worked the same plot of land over successive generations leading to the concept of ownership ancient mortars and grinding tools unearthed in a large mound in the zagros mountains of iran reveal that people were grinding wheat and barley about 11 000 years ago grass pea wild wheat wild barley and lentils were found throughout the site including some of the earliest known samples this was much further east than most sites known for early agriculture this book furnishes with utmost facility to all classes of readers the needed information on ancient civilization the unusual variety of the subject makes this a work of endless fascination

California History-social Science
