An Urdu Manual by the Phonetic Inductive Method

2019-02-28

preface the author of this very practical treatise on scotch loch fishing desires clearly that it may be of use to all who had it he does not pretend to have written anything new but to have attempted to put what he has to say in as readable a form as possible everything in the way of the history and habits of fish has been studiously avoided and technicalities have been used as sparingly as possible the writing of this book has afforded him pleasure in his leisure moments and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general this section is interleaved with blank sheets for the readers notes the author need hardly say that any suggestions addressed to the case of the publishers will meet with consideration in a future edition we do not pretend to write or enlarge upon a new subject much has been said and written and well said and written too on the art of fishing but loch fishing has been rather looked upon as a second rate performance and to dispel this idea is one of the objects for which this present treatise has been written far be it from us to say anything against fishing lawfully practised in any form but many pent up in our large towns will bear us out when we say that on the whole a days loch fishing is the most convenient one great matter is that the loch fisher is depend ent on nothing but enough wind to curl the water and on a large loch it is very seldom that a dead calm prevails all day and can make his arrangements for a day weeks beforehand whereas the stream fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river it is quite another matter to arrange for a days river fishing if one is looking forward to a holiday at a date some weeks ahead providence may favour the expectant angler with a good day and the water in order but experience has taught most of us that the good days are in the minority and that as is the case with our rapid running streams such as many of our northern streams are the water is either too large or too small unless as previously remarked you live near at hand and can catch it at its best a common belief in

regard to loch fishing is that the tyro and the experienced angler have nearly the same chance in fishing the one from the stern and the other from the bow of the same boat of all the absurd beliefs as to loch fishing this is one of the most absurd try it give the tyro either end of the boat he likes give him a cast of ally flies he may fancy or even a cast similar to those which a crack may be using and if he catches one for every three the other has he may consider himself very lucky of course there are lochs where the fish are not abundant and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught and where each has a fair chance again it is said that the boatman has as much to do with catching trout in a loch as the angler well we dont deny that in an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream fishing

An Urdu Manual

2008-12

excerpt from an urdu manual by the phonetic inductive method the publication of another help to urdu is justified by the success of this method during the eight years that it has been under trial by the aid of type writer and mimeograph the lessons have so proved their utility that the mission ordered all new missionaries to use this method and that the manual should be published the author regrets the necessity of publishing while so far from india and without having brought the book up to his ideal of what it ought to be that the principles of the manual are final is beyond question that the application is so is too much to hope for the principles are 1 a scientific application of phonetics through diagrams and practical examples to the solution of the difficulties of pronunciation 2 the sentence the unit of speech 3 the ear the medium of instruction and the governor of the tongue 4 a limited vocabulary a prime necessity 5 thoroughness a repetition of idioms until they are absolutely fixed in the memory 6 grammar teaching not by paradigms but by concrete examples 7 oral composition within a small vocabulary to lead up to the mastery of all ordinary expression 8 ready fluent accurate speech and hearing to be attained within narrow limits as the basis of the ability to use urdu well thanks are due to prof a graham bell for permission to use his cuts illustrative of the position of the organs of speech and to miss m r martin for valuable assistance in reading the ms about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

excerpt from an urdu manual of the phonetic inductive or direct method based on the gospel

of john with a progressive introduction to the constructions of the urdu language the sale of the first edition and the consequent demand for a second permits the realisation of the hope expressed in the preface of the first the publication of a manual worked out on the basis of the gospel of john and the necessary terms in daily use this manual is the product as it ought to be of class room work but it has not been tested with successive classes under the circumstances it is the best that could be done special thanks are due to rev henry forman for reviewing the book and seeing it through the press the manual is the result of fifty odd years of language study but it is particularly the outgrowth of experience in learning and helping others to learn urdu and panjabi it owes most to a severe lesson from providence that ears and not eyes were given us to learn languages as well as to further sick leave leisure to prosecute these studies from books prendergast s idea of a definite speed standard of attainment has been most helpful sweet s primer of phonetics gave the clue to analysis of sounds many many methods have been examined and the student may find nothing that seems to him new for it is possible to parallel many of these ideas with those from other sources about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Urdu for Children, Book II, Teacher's Manual

2004

in early twentieth century british india prior to the arrival of digital medias and after the rise of nationalist political movements a small town paper from the margins of society became a key player in urdu journalism published in the isolated market town of bijnor madinah grew to hold influence across north india and the punjab while navigating complex issues of religious and political identity in print and the urdu public megan robb uses the previously unexamined

perspective of the madinah to consider urdu print publics and urban life in south asia through a discursive and material analysis of madinah the book explores how muslims who had settled in ancestral qasbahs or small towns used newspapers to facilitate a new public consciousness the book demonstrates how madinah connected the urdu newspaper conversation both explicitly and implicitly with muslim identity and delineated the boundaries of a muslim public conversation in a way that emphasized rootedness to local politics and small urban spaces the case study of this influential but understudied newspaper reveals how a network of journalists with substantial ties to qasbahs produced a discourse self consciously alternative to the western influenced secularized cities megan robb augments the analysis with evidence from contemporary urdu english and hindi papers government records private diaries private library holdings ethnographic interviews and training materials for newspaper printers this thoroughly researched volume recovers the erasure of qasbah voices and proclaims the importance of space and time in definitions of the public sphere in south asia print and the urdu public demonstrates how an urdu newspaper published from the margins became central to the muslim public constituted in the first half of the twentieth century
