dover s first railway terminus town station was built by the south eastern railway company ser and opened on 6 february 1844 the company had been given royal assent on 21 june 1836 and incorporated the canterbury whitstable railway that opened in 1830 and the london and greenwich railway that opened in 1833 that summer lcdr introduced excursion trains from london to dover and ser quickly responded with similar offers then on 14 july 1883 ser was given the greatest fillip of all the duke and duchess of connaught chose the town station to arrive when they came to open connaught hall and connaught park dover s first rail connection with london was established by the south eastern railway ser on 7 february 1844 when it opened from folkestone the final section of its main line to dover town station one of the main reasons for building the line to dover was to link with the cross channel steamers plying from the harbour history prior to the railroad steamship traffic from philadelphia ran to dona landing a dona steamship line port on the leipsic river just off delaware bay and approximately 6 miles 9.7 km east of dover the renaming in july 1863 as dover priory led rival ser to adopt the name dover town for one of its dover stations dover priory is the only station still open in dover former stations besides dover priory there have been five other stations in dover all of which are now closed dover harbour history dover priory opened on 22 july 1861 as the temporary terminus of the london chatham dover railway lcdr dover s first railway station town station opened on 6 february 1844 by the south eastern railway company ser in the pier district in february and march 1845 the mayor william clarke convened well attended public meetings for a railway line from london to dover via canterbury southern railway came into operation on 1 january 1923 and although subject of intensive discussions legal threats and counter threats within the company as far as dover was concerned the amalgamation did not cause much of a stir it is generally accepted that dalzeil put forward the notion of southern s continental express boat train that was introduced on 14 november 1924 designed to be the height of luxury it consisted of six first class pullman cars a baggage and a brake van railway the railway arrives the railway first reached dover in 1844 when the south eastern railway company built a trainline from london through folkestone to dover where their channel steamers were situated in 1861 the london chatham and dover railway company built a direct line from london to dover where they had their own steamers history of dover the history of dover because of the town s proximity to the continent begins when stone age people crossed what was then a land bridge before the opening up of the english channel since then successive invasions of peoples have taken place nigel thornton ray goodfellow 3rd march 2024 20:17:214 introduction between 1884 and 1914 several attempts were made to get a train ferry service between britain and france among these was the rejected 1930 channel tunnel project the railway line was generally known as the pearson line the company had applied in 1914 for the renewal of their powers to carry coal through the streets of dover with a view to extending the line from the western docks to the eastern dockyard the town council opposed this but due to outbreak of world war i 1914-1918 the case was deferred dover 'doo-vər doh-vər is a town and major ferry port in kent south east england it faces france across the strait of dover the narrowest part of the english channel at 33 kilometres (21 mi) from cap gris nez in france it lies south east of canterbury and east of maidstone the story of the train ferry dock goes back to 1869 when the original cross channel sleeper service was introduced then passengers were required to catch the train in london alight in dover embark on the night sleeper ferry disembark at the continental port and then catch a train to paris or brussels coordinates 51°01'25" n 1°50'41" e the channel tunnel french tunnel sous la manche sometimes referred to informally as the chunnel 3.4 is a 50.46 kilometre (31.35 mi) undersea railway tunnel opened in 1994 that connects folkestone kent england with coquelles pas de calais france beneath the english channel at the strait
