1944

excerpt from farm machinery and farm motors instruction pertaining to farm machinery  
and farm motors has been quite recently added to the agricultural course in the majority  
of the agricultural colleges in the united states although the need and importance of such  
a study was self evident it was a new field one in which the knowledge pertaining to the  
subject had not been prepared and systematized for instructional purposes the latest book  
on the subject of farm machinery was written by j j thomas in 1869 before the general

introduction of labor saving machinery for farm work many books have been written on the various motors used for agricultural purposes but it is not believed that an attempt has been made to place in one volume a discussion of them all the authors have felt the need of a text for instructional purposes and it is this need that has prompted them to prepare this book it is a revision of the lecture notes used before their classes for several years these notes were prepared from a careful study of all the available literature on the subject and from observation made in the field of the machines at work and in the factories where they are made a list of the literature consulted is given at the close of the book free use has been made of all this as well as all the trade literature available and for this an effort has been made to give due credit many of the illustrations have been prepared from original drawings by the authors however the larger number are those of machines upon the current market about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at [forgottenbooks.com](http://forgottenbooks.com) this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
