History of England from the Fall of Wolsey to the Death of Elizabeth

1870

this book investigates the link between human capabilities and the preconditions for social progress through an engagement with the theological anthropology of swiss theologian emil brunner 1889 1966 it places brunner s thought in dialogue with selected contributors from the contemporary social sciences examining approaches from economics sociology and philosophy as put forward by gary s becker christian smith and martha nussbaum this dialogic format helps to crystallise both agreements and differences and thus facilitate greater understanding between theology and other disciplines questions explored in the discussion relate to the emergence of human nature the person and the capabilities human beings possess as well as how these develop in a social context the author focuses in particular on the impact of sin the fall and considers the mixed blessings of economic progress by providing pointers on how to bring back the human person in social disciplines the book

hopes to contribute to improved understanding of the ethical dimension of social progress and human flourishing it will be of particular interest to scholars of analytic and systematic theology but also scholars from economics and social sciences with openness to theological engagement
