Ready Fire Aim: The Mainfreight Story

2013-08-16

the lively insider story of the rise and rise of new zealand s most successful logistics company this is the story of a company built on the belief that with passion anything is possible as they say at mainfreight go anywhere as long as it is forward mainfreight was founded in 1977 by the visionary bruce pleted who set out to make the company a family a team where everyone has a share in the riches and where the word management is banned the mainfreight instruction manual is short feel the fear but do it anyway this is a world where budgets are deemed bullshit why spend time preparing figures that are invariably out of date before the ink is dry just make more than last year it s also a world based on generosity mainfreight is the backing force behind books in homes and offers tertiary scholarships to the children of all its employees did the rise to nzx sharemarket darling all go smoothly not for a minute initially there would be catastrophic ventures in australia and america and finally a jaw dropping moment in europe when don braid and his

team made their biggest purchase ever only to see most of the turnover and half the profit walk out the door this book takes you on a warts and all exploration of mainfreight s journey from small transport company at the bottom of the world to truly successful global logistics company

Know the Score

create your own destiny and leave your own legacy in the world of football with this new spin on football management all you need is a pen some paper this book and a good memory and you ll be on your way to winning trophies from 19 leagues in 10 countries over 2 continents when you have proved that your country can no longer hold you back then show who is boss in european and south american club competitions then when all is said and done and its time to put down your pen and fold up your piece of paper you can look back on the glory or devastation that you left behind sit back put your feet up and be safe in the knowledge that you know the score

Post-Beijing 2008: Geopolitics, Sport and the Pacific Rim

2013-10-18

in 2008 as few in the world are unaware china was host to the world via the beijing olympics the world watched the metamorphosis of beijing from insecure capital to confident

2023-07-03 **4/33** the effective engineer filetype

metropolis but aware of it or not the world was also watching the symbolic assertion via the games of a rising superpower the pacific rim will be the stage on which china initially displays its new hegemonic intentions aspirations and ambitions thus in post beijing 2008 the political economic and cultural impact of beijing 2008 on the geopolitical future of the pacific rim will be discussed this perspective analysed by some of the most distinguished academic commentators from some of the world s leading universities who are closely associated with the pacific rim east and west is original in focus and the analysis is pregnant with political possibilities this book was previously published as a special issue of the international journal of the history of sport

Disaster Management in Archives, Libraries and Museums

2016-12-05

this important book assesses the current state of disaster management in archives libraries and museums in the uk and around the world and provides recommendations for addressing current and future threats following an introductory outline of the topic and terminology the authors provide a short history of the development of disaster management in the cultural heritage sector they illustrate a basic framework for effective disaster management by reviewing disaster control plan practice from around the world through examining and identify the key issues affecting disaster management in archives libraries and museums the authors discuss a priority structure for future

implementation this book will be key reading for scholars and students of archive studies library and information and museum management it will also be extremely useful for professionals and policy makers involved in disaster management planning at a local and national level

A revision of the New World species of *Gymnoclasiopa* Hendel (Diptera, Ephydriidae)

2012-12-05

this revision comprehensively documents the new world species of the shore fly genus *Gymnoclasiopa* which primarily has a holarctic distribution including some species that are found in both the nearctic and palearctic regions discovering additional species common to both biogeographic regions was an objective of this study as was unraveling any nomenclatural issues that resulted when the same species was described separately in both biogeographic regions ten species are treated including two that are newly described the authors also document the obvious sexual dimorphism that is evident in some species but which was not previously appreciated resulting in confused concepts of some species the authors emphasize structures of the male terminalia which are fully described and illustrated in the recognition of species in addition detailed locality data and distribution maps for all species are provided much of this increase has resulted from a greatly improved sampling of the new world fauna documenting the ongoing need for field work and

better taxon sampling of the earth s shore fly fauna

Digital Media and Reporting Conflict

2013-07-18

this book explores the impact of new forms of online reporting on the bbc s coverage of war and terrorism informed by the views of over 100 bbc staff at all levels of the corporation bennett captures journalists shifting attitudes towards blogs and internet sources used to cover wars and other conflicts he argues that the bbc s practices and values are fundamentally evolving in response to the challenges of immediate digital publication ongoing challenges for journalism in the online media environment are identified maintaining impartiality in the face of calls for more open personal journalism ensuring accuracy when the power of the former audience allows news to break at speed and overcoming the limits of the scale of the bbc s news operation in order to meet the demands to present news as conversation while the focus of the book is on the bbc s coverage of war and terrorism the conclusions are more widely relevant to the evolving practice of journalism at traditional media organizations as they grapple with a revolution in publication

Up for Debate

2009

up for debate provides eight policy recommendations for us

2023-07-03

7/33

the effective

Shanghai Daily: A Travel Collage by Xu Zhao Yin

2008

olympic aspirations realised and unrealised surveys more than a century of the olympic movement s promotion of olympic ideals internationally the idea for olympic aspirations emerged at the world renowned annual beijing academic forum just months after the city hosted the impressive 2008 beijing olympic games one section of the forum was devoted to the impact of the olympic movement on china and on china s image in the world the tone at times was too self congratulatory for some present the critical discussion that continued into late 2010 inspired this book olympic aspirations is a companion volume to the well received olympic legacies intended and unintended and draws on

2023-07-03

9/33

the effective
engineer filetype

expertise from academics in all parts of the world both volumes have a similar purpose to record olympic ideals achieved but more importantly to stimulate reflection on those as yet unachieved both are constructive in approach positive in tone and optimistic in attitude olympic aspirations offers original and insightful arguments that address the actions the olympic movement has taken to improve the games it argues that these actions are as yet incomplete in concert with olympic legacies it presents two sides of the same coin minted to advance the purity of the olympic coinage this book was originally published as a special issue of the international journal of the history of sport

2009-08

this surprising global history of an indispensable document reveals how the passport has shaped art thought and human experience while helping to define the modern world in license to travel patrick bixby takes the reader on a captivating journey from pharaonic egypt and han dynasty china to the passport controls and crowded refugee camps of today along the way you will peruse the passports of artists and intellectuals writers and musicians ancient messengers and modern migrants see how these seemingly humble documents implicate us in larger narratives about identity mobility citizenship and state authority encounter intimate stories of vulnerability and desire along with vivid examples drawn from world cinema literature art philosophy and politics witness the authority that travel documents exercise over our movements and our emotions as we circulate around the globe with unexpected discoveries at every turn license to travel exposes the passport as both an instrument of personal freedom and a tool of government surveillance

powerful enough to define our very humanity

Racial Profiling

2023-08-22

microrna mirna genes produce three noncoding rna products the long primary transcript pri mirna the 70 nucleotide pre mirna and the 22 nt mature mirna only the mature mirna is considered to be the functional species of a mirna gene in recognizing cognate target mrnas and modulating their expression however mature mirnas are processed from the primary transcript through sequential endonucleolytic steps as a result the mature mirna sequence is present in all three rna products of a mirna gene it has thus been intrinsically difficult to determine the contribution of each mirna gene product to target repression in fact direct functional roles for pri and pre mirnas have never been ruled out here we show that pri and pre mirnas may not be mere transitory intermediates of mature mirna biogenesis we found that ectopic expression of the c elegans mirna gene let 7 cel let 7 in human culture cells results in the production of truncated pre and mature mirnas that lack the first two 5 nucleotides one of which is the first nucleotide of the mirna seed region nucleotide sd1 we found this nucleotide to be required for repression of target reporters by cel let 7 in these cells demonstrating that pri let 7 may have a direct role in target repression further we show that the nucleotide sequence and structure of both the pri pre let 7 loop and stem regions play a key role in mirna gene function in reporter assays in vitro and in vivo analyses indicated the significance of these

19/33

the effective
engineer filetype

regions may be in the mediation of a physical interaction between pri let 7 and target rnas these observations suggest that regulatory information encoded in the structured pri mirnas but absent from mature mirnas could be directly interpreted for target recognition and repression through rna rna interaction intriguingly some mutations in the loop nucleotide sequence also restored processing of the 5 ends of c elegans pre and mature let 7 in culture cells demonstrating that the pri pre mirna loop region can also regulate the precision of mature mirna biogenesis importantly in the presence of functional pre and mature let 7 cel let 7 activity in target repression consists of both sd1 independent and sd1 dependent components implying potential contributions by both pri and mature let 7 finally we interrogated the effects of pri pre let 7 loop mutations on their ability to rescue a let 7 loss of function mutant phenotype in c elegans our results indicate decreased significance of these parameters in the control of worm vulval development although context dependent differences in mature mirna biogenesis between heterologous culture and live animals may partially explain this discrepancy taken together the work presented here reveals a novel layer of regulatory complexity encoded in long primary mirnas that may have broad implications in understanding the mechanisms by which mirna genes control target expression

nordic states involvement in and with the european union
denmark finland sweden iceland and norway the renewed
interest in the nordic region is in part thanks to recent events
in the on going crisis of european integration and particular
its member states response to the refugee question which
appears to be undermining years of intra regional solidarity
even between the nordic countries the security dimension of
the region further broadens the book s readership beyond
nordic politics specialists to ir scholars as the nordic
countries share borders with russia and are key players in
the baltic sea strategy seeking to involve russia in looser
forms of regional cooperation

Idiopathic Inflammatory Myopathies

2017-07-06

harnessing the potential of the human body s own immune
system to attack malignant tumor cells has been the goal of
many scientific investigators in recent years with advances
in cancer biology and immunology enabling cancer
immunotherapy to become a reality world class bench and
clinical researchers have joined forces to collaborate and
review current developments and trends in cancer
immunology for the purposes of this book and the result is a
promising review of contemporary clinical treatments in each
chapter the authors present the scientific basis behind such
therapeutic approaches including cancer vaccines with
special focus on prostate cancer melanoma and novel
approaches utilizing both innate and adaptive immune
responses

Nordic States and European Integration

2022-07-28

parkinson's disease pd results primarily from the death of dopaminergic neurons in the substantia nigra current pd medications treat symptoms none halt or retard dopaminergic neuron degeneration the main obstacle to developing neuroprotective therapies is a limited understanding of the key molecular mechanisms that provoke neurodegeneration the discovery of pd genes has led to the hypothesis that misfolding of proteins and dysfunction of the ubiquitin proteasome pathway are pivotal to pd pathogenesis previously implicated culprits in pd neurodegeneration mitochondrial dysfunction and oxidative

stress may also act in part by causing the accumulation of misfolded proteins in addition to producing other deleterious events in dopaminergic neurons neurotoxin based models have been important in elucidating the molecular cascade of cell death in dopaminergic neurons pd models based on the manipulation of pd genes should prove valuable in elucidating important aspects of the disease such as selective vulnerability of substantia nigra dopaminergic neurons to the degenerative process
