Handbook of Polynesian Mythology

2004-10-25

measurement in the social sciences often refers to standardized answers to close ended questions in which answers are analyzed as if they were measurements on an interval scale this volume presents a measurement model that maintains the ordinal aspects of the data in order to establish how well the model fits and how it measures subjects and items it relaxes the most stringent assumptions from parametric item response theory while maintaining its advantages over classical measurement methods such as reliability and factor analysis this volume is less technical than other books on the topic and is ideal for introductory courses in social science measurement

Unit Roots and Cointegration in Panels

2016

discover how the superwealthy made it to the top and you can too from the richest romans to the robber barons to today s bankers and tech billionaires sam wilkin offers freakonomics esque insights into what it really takes to make a fortune these stories of larger than life characters strategies and sacrifices reveal how the wealthiest did it usually by a passion for finding loopholes working around bureaucratic systems and creating obstacles to competitors wealth secrets of the one percent gets at the heart of our feelings about the 1 of top income earners and the roughly 0 0001 who achieve billionaire status we love to hate them but we d love to be them wilkin s insight into the sources of wealth is thought provoking and rigorous and he reveals that behind almost every great fortune is a wealth secret a moneymaking technique designed to defeat the forces of market competition

Technical Papers of the American Congress on Surveying and Mapping, ASP-ACSM Fall Technical Meeting

1981

a major participant in the influential tel quel group in france jean joseph goux here offers a bold reevaluation of both the marxist economic model and the freudian concept of the unconscious symbolic economies makes available for the first time in english generous selections from goux s freud marx economie et symbolique 1973 and les iconoclastes 1978 goux brings the theories of historical materialism and of psychoanalysis into play to illuminate and enrich each other and undertakes a compelling integration of the contributions of structuralism and post structuralism looking closely at the work of such major figures as lacan derrida and nietzsche goux extends the implications of marxism and freudianism to an interdisciplinary semiotics of value and proposes a radical concept of exchange literary theorists philosophers social scientists cultural historians and feminist critics alike will welcome this important and provocative work

Cultural Memory

2001-01-01

in recent decades the rise of the so called global obesity epidemic has led to fatness and fat bodies being debated incessantly in popular professional and academic arenas fatness and fat bodies are shamed and demonised and the public monitoring surveillance and outright policing by the media health professionals and the general public are pervasive and socially accepted in neoliberal bodies and the gendered fat body hannele harjunen claims that neoliberal economic policy and rationale are enmeshed with conceptions of body gender and health in a profound way in contemporary western culture she explores the relationships between fatness health and neoliberal discourse and the role of economic policy in the construction of the gendered fat body and examines how neoliberal discourses join patriarchal and biomedical constructions of the fat female body in neoliberal culture the fat body is not just the unhealthy body one finds in medical discourse but also the body that is costly unproductive and inefficient failing in the crucial task of self management with an emphasis on how neoliberal governmentality in its many forms affects the fat body and contributes to its vilification this book is essential reading for scholars of feminist thought sociology cultural studies and social theory with interests in the body gender and the effects of neoliberal discourse on social attitudes

My Jewish World

1988

the only available reference to focus on reconstructive urologic surgery this new edition remains the most up to date and comprehensive source of information on increasingly sophisticated techniques in the field heavily illustrated it provides detailed instruction on the newest methods of correcting a multitude of congenital anomalies such as undescended testes as well as many acquired problems that result from trauma or malignancy such as bladder cancer with a focus on the technical aspect of reconstructive urologic surgery it covers all major adult and pediatric procedures in 70 in depth chapters all with sufficient detail to help the reader decide
