manuals or product labels supplied with your pc monitor printer plotter wa ter cooling system and vacuum pump where required to determine which parts are operator accessible

varian spectraa 50 55 110 220 brochure labwrench

Mar 04 2024

the spectraa 110 220 optics feature four lamp positions with automated wavelength and slit selection and high intensity deuterium background correction as standard lamps are mounted in fixed positions and a rotating mirror is used to select the operating lamp eliminating the need for a conventional turret

aa varian atomic absorption spectrometers boston university

Feb 03 2024

the zeeman effect is the splitting and polarization of atomic spectral lines in the presence of a magnetic field the magnetic field has little effect on molecular species and particulates that can cause background absorption the zeeman technique uses the magnetic field to achieve accurate background correction
