children's literature showing it to be a creative space where writers and illustrators try out new ideas about books, society and narratives in an age of instant communication and multi-media. It looks at the stories about the world and young people, the interaction with changing childhoods and new technologies. Digital technology is now a normal part of everyday life; the mutation of music and film into bits and bytes, downloads and streams is now taken for granted for the world of book and magazine publishing. However, this transformation has only just begun. Still, the vision of this transformation is far from new. For more than a century now, avant-garde artists, activists and technologists have been anticipating the development of networked and electronic publishing. Although in hindsight the reports of the death of paper were greatly exaggerated, electronic publishing has now certainly become a reality. How will the analog and the digital coexist in the post-digital age of publishing? How will they transition, mix and cross over? In this book, Alessandro Ludovico rereads the history of the avant-garde arts as a prehistory of cutting through the so-called dichotomy between paper and electronics. Ludovico is the editor and publisher of *neural*, a magazine for critical digital culture and media arts for more than 20 years now. He has been working at the cutting edge and the outer fringes of both print publishing and politically engaged digital art. There was this time when everything seemed to have come together and so obviously it was time to go and screw it all up. Sam is sixteen and a skater. Just so there are no terrible misunderstandings, skating, skateboarding, there's no ice. Life is ticking along nicely for Sam. His mum's got rid of her rubbish boyfriend. He's thinking about college and he's met someone, Alicia. Then a little accident happens, one with big consequences for someone just finding his way in life. Sam can't run, let alone skate away from this one. He's a boy facing a man's problems and the question is: has he got what it takes to confront them? On the day of her father's funeral, twenty-eight-year-old Clarissa Iverton discovers that he wasn't her biological father. After all, her mother disappeared fourteen years earlier and her fiancé has just revealed a life-changing secret to her alone. And adrift, Clarissa travels to mystical Lapland where she believes she'll meet her real father. There, at a hotel made of ice, Clarissa is confronted with the truth about her mother's history and must make a decision about how and where to live the rest of her life. The anti-authoritarian revolt of the 1960s and 1970s was a watershed in the history of the Federal Republic of Germany. The rebellion of the so-called 68ers against cultural conformity and the ideological imperatives of the Cold War against the American War in Vietnam and in favor of a more open accounting for the crimes of the Nazi era helped to inspire a dialogue on democratization with profound effects on German society. Timothy Scott Brown examines the unique synthesis of globalizing influences on West Germany to reveal how the presence of third-world students imported pop culture from America and England and the influence of new political doctrines worldwide all helped to precipitate the revolt. The book explains how the events in West Germany grew out of a new interplay of radical politics and popular culture even as they drew on principles of direct democracy, self-organization and self-determination, all still highly relevant in the present day. After his visit with advanced beings in space, a mouse returns to Earth with a master plan to better the lives of all mice. Peter Fortune is a boy who likes to daydream. He dreams about swapping bodies with his cat and with his baby cousin, but he gets so lost he's unsure where one fantasy finishes and the next begins. Cartwheeling through these transformations, Peter eventually finds himself in an adult body experiencing the adventure of falling in love as far-fetched and funny as anything by Roald Dahl. Vogue perfectly judged: scary, poignant, meaningful. He makes it look easy, but this is brilliantly achieved. *The Tuscan Contessa* 2020-07-16 This book is the first to establish the relevance of same-sex desires, pleasures and anxieties in the cinema of post-war Italy. It explores cinematic representations of homosexuality and their significance in a wider cultural struggle in Italy involving society, cinema and sexuality between the 1940s and 1970s. Besides tracing the evolution of representations through both art and popular films, this book also analyses connections with consumer culture, film criticism and politics. Giori uncovers how complicated negotiations between challenges to and valorization of dominant forms of knowledge of homosexuality shaped representations and argues that they were not always the outcome of hatred but also sought to convey unmentionable pleasures and complicities through archival research and a survey of more than 600 films. The author enriches our understanding of thirty years of Italian film and cultural history.
