## ***The Latin American Voter 2015-07-21***

in this volume experts on latin american public opinion and political behavior employ region wide public opinion studies elite surveys experiments and advanced statistical methods to reach several key conclusions about voting behavior in the region s emerging democracies in latin america to varying degrees the average voter grounds his or her decision in factors identified in classic models of voter choice individuals are motivated to go to the polls and select elected officials on the basis of class religion gender ethnicity and other demographic factors substantive political connections including partisanship left right stances and policy preferences and politician performance in areas like the economy corruption and crime yet evidence from latin america shows that the determinants of voter choice cannot be properly understood without reference to context the substance specific cleavages campaigns performance and the structure fragmentation and polarization that characterize the political environment voting behavior reflects the relative youth and fluidity of the region s party systems as parties emerge and splinter to a far greater degree than in long standing party systems consequently explanations of voter choice centered around country differences stand on equal footing to explanations focused on individual level factors

## ***Latin American Elections 2017-01-19***

comprehensive study of the application of the michigan model to explain voting behavior in latin america

## ***Persuasive Peers 2020-10-27***

a typical presidential election campaign in latin america sees between one third and one half of all voters changing their vote intentions across party lines in the months before election day numbers unheard of and rarely seen in older democracies this book proposes a new theory of latin american voting behavior examining how votes are truly up for grabs in democracies where political parties and mass partisanship are not deeply entrenched the book argues that political discussion among peers causes volatility and ultimately explains final vote choices describing and examining social networks of political discussion the authors propose that everyday social communication is the hidden architecture that structures political outcomes in latin america s less institutionalized democracies voters embedded in networks of family members friends neighbors coworkers and acquaintances are heavily persuaded by the debating and arguing and agreeing and affirming that happens in their social networks social communication and elections in latin america reveals the hidden undercurrent of political discussion among voters in latin america advancing a new theory of voting behavior that accounts for the extended influence of election campaigns the geographic clustering of political preferences and the strategic maneuvers of political machines

## ***The Rise of the Latino Vote 2019-09-24***

francis fallon returns to the origins of the u s spanish speaking vote to understand the history and potential of this political bloc he finds that individual voters affiliate more with their particular ethnic communities than with the pan ethnic latino identity created for them complicating the notion of a broader latino constituency

## **Elections in Latin America 2024**

this book provides an overview of elections throughout latin america including formal electoral institutions informal practices and the behavior of voters and candidates drawing on a wide range of scholarly and primary sources the book provides readers with a highly accessible look at how elections in latin america work

## **Elections before Democracy: The History of Elections in Europe and Latin America 2016-07-27**

this book looks at various aspects of electoral history in europe and latin america from the late 17th century to 1930 including electoral culture and traditions electoral participation electoral fraud the role of elections in the process of nation building and the role of important institutions such as the church in shaping political values and therefore electoral behaviour there are chapters devoted to the individual experiences of england mexico ecuador ireland germany colombia argentina chile and spain

## ***Party Systems and Elections in Latin America 1971***

presents evidence that under certain widespread structural conditions democratic accountability falls prey to the same n person prisoner s dilemma that plagues any other decentralized attempt to procure collective goods examines four prominent democracies postwar and contemporary brazil and pre chavez and contemporary venezuela provided by publisher

## **The Voter's Dilemma and Democratic Accountability 2010-11**

this book is an introduction to party politics elections and electoral behavior in latin america the subject is vast and the available research on it extensive the principal purpose is to summarize and conceptualize the subject making comparisons where appropriate among nations the authors try to point out both the specific parochial experiences of individual latin american nations as well as the more universal experiences

## **Party Politics And Elections In Latin America 2019-08-30**

since 1982 latin americans have endured dramatic economic crises and elections that advanced liberal democracy and political pluralism these conditions led many to believe that electoral results mainly reflect reactions to the economy based on an extensive study of the elections covering the 1980s and most of the 1990s economic crises and electoral responses in latin america offers a comprehensive overview of the many complex factors in the hearts and minds of voters

## ***Economic Crises and Electoral Responses in Latin America 2005***

around the world each year millions of citizens turn out to vote but leave their ballots empty or spoil them increasingly campaigns have emerged that promote invalid votes like these why do citizens choose to cast blank and spoiled votes and how do campaigns mobilizing the invalid vote influence this decision

none of the above answers these questions using evidence from presidential and gubernatorial elections in eighteen latin american democracies author mollie j cohen draws on a broad range of methods and sources incorporating data from electoral management bodies nationally representative surveys survey experiments focus groups semi structured interviews and news sources contrary to received wisdom this book shows that most citizens cast blank or spoiled votes in presidential elections on purpose by participating in invalid vote campaigns citizens can voice their concerns about low quality candidates while also expressing a preference for high quality democracy campaigns promoting blank and spoiled votes come about more often and succeed at higher rates when incumbent politicians undermine the quality of elections surprisingly invalid vote campaigns can shore up the quality of democracy in the short term none of the above shows that swings in blank and spoiled vote rates can serve as a warning about the trajectory of a country s democracy

## ***None of the Above 2024-02-20***

argues the pink tide in latin america in the late 1990 was caused by voters to punish political parties unable to improve their economic well being

## **The Success of the Left in Latin America 2013**

political parties in the developing world often face serious electoral crises from one election to the next parties can be decisively voted out of national office what happens to a party that experiences this kind of voter rejection the literature suggests it will disappear leaving the party system vulnerable to the inexperience of new political actors the fates of political parties offers a more nuanced perspective focusing on a number of individual latin american countries as well as the region as a whole it identifies considerable variation regarding how parties survive and even revive after an electoral crisis the book revitalizes the study of parties as complex entities that rely on a potentially diverse set of resources to remain active in politics it demonstrates that parties can be remarkably enduring institutions surviving and reviving parties represent instances of institutional stability where they endure those parties can sustain competition and strengthen the democratic regime

## **Latin American Political Statistics 1972**

during latin america s third democratic wave a majority of countries adopted a runoff rule for the election of the president effectively dampening plurality voting opening the political arena to new parties and assuring the public that the president will never have anything less than majority support in a region in which undemocratic political parties were common and have often been dominated by caudillos cautious naysayers have voiced concerns about the runoff process arguing that a proliferation of new political parties vying for power is a sign of inferior democracy this book is the first rigorous assessment of the implications of runoff versus plurality rules throughout latin america and demonstrates that in contrast to early scholarly skepticism about runoff it has been positive for democracy in the region primarily through qualitative analysis for each country the author argues that indeed an important advantage of runoff is the greater openness of the political arena to new parties at the same time that measures can be taken to inhibit party proliferation in this context it is also the first volume to address whether or not a runoff rule with a reduced threshold for example 40 with a 10 point lead is a felicitous compromise between majority runoff and plurality the book considers the potential for the superiority of runoff to travel beyond latin america in particular and rather provocatively to the united states

## ***The Fates of Political Parties 2017***

thoughtful fair minded and learned cadava s eye opening book will teach experts on american politics things they didn t even know they didn t know rick perlstein bestselling author of nixonland and the invisible bridge geraldo cadava s history provides a unique vantage point on us politics on the shifting terrains of foreign policy labor and religion and on the changing nature of specific states as well as on deeper ideological fights over the soul of the country is it to be an inclusive nation of immigrants or as the nativists today say a country founded on white supremacy an excellent insightful study greg grandin professor of history at yale university and author of the end of the myth geraldo cadava offers a fascinating examination of the socioeconomic interests and foreign policy concerns that have drawn hispanics latinos into a rapidly changing republican party if readers harbor the mistaken idea that hispanics are a monolithic voting bloc this book should dispel this idea once and for all though the work is written for a general audience even experts on hispanic politics and voting behavior will find much that is new and surprising in these chapters maría cristina garcía author of the refugee challenge in post cold war america

## ***Electoral Rules and Democracy in Latin America 2018***

how do poor people in latin america participate in politics what explains the variation in the patterns of voting protesting and contacting government for the region s poorest citizens why are participation gaps larger in some countries than in others this book offers the first large scale empirical analysis of political participation in latin america focusing on patterns of participation among the poorest citizens in each country and comparing those patterns to those of individuals with more resources far from being politically inert under certain conditions the poorest citizens in latin america can act and speak for themselves with an intensity that far exceeds their modest socioeconomic resources we argue that key institutions of democracy namely civil society political parties and competitive elections have an enormous impact on whether or not poor people turn out to vote protest and contact government officials when voluntary organizations thrive in poor communities and when political parties focus their mobilization efforts on poor individuals they respond with high levels of political activism poor people s activism also benefits from strong parties robust electoral competition and well functioning democratic institutions where electoral competition is robust and where the power of incumbents is constrained we see higher levels of participation by poor individuals and more political equality precisely because the individual resource constraints that poor people face are daunting obstacles to political activism our explanation focuses on those features of democratic politics that create opportunities for participation that have the strongest effect on poor people s political behavior

## ***The Hispanic Republican 2020-05-26***

latin america is a region of great diversity and a rich laboratory for understanding the processes of political development and their interaction with economic growth social modernization and cultural influences highlighting crucial periods of dynamic socioeconomic and political change comparative latin american politics provides a balanced concise overview of select latin american countries without underestimating the complexities of a region noted for its striking differences the book focuses on the dominant dyad of mexico and brazil while also considering in detail argentina chile peru columbia and venezuela seven countries that contain four fifths of the region s inhabitants as well as an even higher proportion of its economy recognizing that political institutions and cultures are built over generations author ronald m schneider divides his analysis into two parts part one examines the period from

independence to 1930 when countries were coping with an array of post independence problems and challenges of national consolidation part two concentrates on 1930 to the present day and fleshes out current political practices and structures each part devotes chapters to specific country coverage as well as meaningful comparative perspectives that illuminate the political evolution of the region and offer salient lessons for other developing parts of the world

## **Voice and Inequality 2021**

during latin america s third democratic wave a majority of countries adopted a runoff rule for the election of the president effectively dampening plurality voting opening the political arena to new parties and assuring the public that the president will never have anything less than majority support in a region in which undemocratic political parties were common and have often been dominated by caudillos cautious naysayers have voiced concerns about the runoff process arguing that a proliferation of new political parties vying for power is a sign of inferior democracy this book is the first rigorous assessment of the implications of runoff versus plurality rules throughout latin america and demonstrates that in contrast to early scholarly skepticism about runoff it has been positive for democracy in the region primarily through qualitative analysis for each country the author argues that indeed an important advantage of runoff is the greater openness of the political arena to new parties at the same time that measures can be taken to inhibit party proliferation in this context it is also the first volume to address whether or not a runoff rule with a reduced threshold for example 40 with a 10 point lead is a felicitous compromise between majority runoff and plurality the book considers the potential for the superiority of runoff to travel beyond latin america in particular and rather provocatively to the united states

## **Comparative Latin American Politics 2018-05-04**

in giving president obama a record level of support 75 percent and reaching a watershed 10 percent of the voting population latinos proved to be decisive in the 2012 election outcome an unprecedented mark of influence for this segment of the wider electorate this shift also signaled a radical reenvisioning of mobilization strategies by both parties and created a sea change in the way political organizations conduct outreach and engagement efforts in this groundbreaking volume experts in latino politics ask what is the scope of latino voter influence where does this electorate have the greatest impact and what issues matter to them most they examine a key national discussion immigration reform as it relates to voter behavior and also explore the influence of latinos within key states including california colorado new mexico virginia north carolina ohio nevada and florida while some of these states have traditionally had strong latino voting blocs in others latinos are just emerging as major players electorally the book also discusses the extent to which latinos were mobilized during the 2012 campaign and analyzes election outcomes using new tools created by latino decisions a blend of rigorous data analysis and organizational commentary the book offers a variety of perspectives on the past present and future of the latino electorate

## **Electoral Rules and Democracy in Latin America 2018-03-28**

## **A Concise Introduction to Latin American Politics and Development 2018-05-04**

this volume represents a continuation and significant expansion of the study of the relationship of elections to democracy in central america that the editors began with elections and democracy in central america

## **Mobilizing the U.S. Latinx Vote 2020-01-27**

in developing democracies political parties built around charismatic personalities coupled with populist campaigns often ascend to power this tactic has long been effective in latin america and has resulted in parties that rely heavily on personalistic appeals and vote buying the predominant view is that ethnic parties are an exception to this rule they behave differently from traditional populist parties by attracting voters based on the expectation that they will create policies to provide for the groups that they represent in candidate matters a study of ethnic parties campaigns and elections in latin america karleen jones west shows that under certain conditions niche parties such as ethnic parties are not that different from their mainstream counterparts through a detailed examination of the pachakutik party in ecuador she shows that the characteristics of individual candidates campaigning in their districts shapes party behavior ethnic parties that are initially programmatic can become personalistic and clientelistic because

vote buying is an effective strategy in rural indigenous areas and because candidates with strong reputations and access to resources can create winning campaigns that buy votes and capitalize on candidates personal appeal why do niche parties in developing democracies struggle to maintain programmatic and meaningful platforms west argues that when candidates legislative campaigns are personalistic and clientelistic in their districts niche parties are unable to maintain unified programmatic support by combining in depth fieldwork on legislative campaigns in ecuador with the statistical analyses of electoral results and public opinion she demonstrates the importance of candidates and their districts for how niche parties compete win and become influential in developing democracies

## ***Latin American Politics and Development 2018-04-24***

this book examines why people vote in the newly consolidated democracies of africa latin america east asia and central and eastern european countries it addresses the question of how well models or theories of electoral participation initially developed in established democracies travel to new democracies based on recent cross national survey data it provides the first systematic and comparative evaluation of this topic drawing on political science sociology and psychology approaches it reveals what is distinctive about voting in new democracies and how they compare between themselves and with more established democracies this book will be of key interest to scholars and students of political participation public opinion voting behaviour electoral politics and political parties as well as to international organisations and ngos working in the field of democracy promotion and in emerging democracies

## **Elections and Democracy in Central America, Revisited 1995**

third the authors investigate the relationship between major parties and the state revealing the extent to which parties are dependent on state resources to maintain power and win votes fourth the contributions assess the importance of different electoral regimes for shaping broader patterns of party competition finally and most important the authors characterize the nature of the party system in each country how institutionalized it is and how it can be classified book jacket

## ***Candidate Matters 2020-03-25***

latin america has been one of the critical areas in the study of comparative politics the region s experiments with installing and deepening democracy and promoting alternative modes of economic development have generated intriguing and enduring empirical puzzles in turn latin america s challenges continue to spawn original and vital work on central questions in comparative politics about the origins of democracy about the relationship between state and society about the nature of citizenship about the balance between state and market the richness and diversity of the study of latin american politics makes it hard to stay abreast of the developments in the many sub literatures of the field the routledge handbook of latin american politics offers an intellectually rigorous overview of the state of the field and a thoughtful guide to the direction of future scholarship kingstone and yashar bring together the leading figures in the study of latin america to present extensive empirical coverage new original research and a cutting edge examination of the central areas of inquiry in the region

## **Electoral Participation in Newly Consolidated Democracies**

**2021-02-17**

democratic countries vary widely in the extent to which the administration of the electoral process facilitates voter participation showing a great deal of variation in everything from voter registration to the casting of ballots this book is the first systematic study to investigate why it is easier to vote in some democracies than in others it develops the concept of election administration inclusiveness which considers all of the administrative requirements and procedures that a citizen confronts in exercising his or her right to vote it then draws on in depth case studies from central america and data from latin america more broadly to address how political parties and other actors interact in constructing election administration rules and procedures using a theoretical framework centred on electoral threat party capacity and electoral management body composition the author identifies multiple pathways to inclusive and restrictive election administration this book will be of key interest to students and scholars of elections democracy studies latin american politics and more broadly comparative politics and law

## **Building Democratic Institutions 1995**
