

Free epub The project managers guide to idiq task order service contracts how to win and perform on task order contracts .pdf

every year the us federal government will spend roughly 100 billion dollars through competitive idiq indefinite duration indefinite quantity contracts when you add in contracts awarded by state governments and commercial organizations using very similar processes you re looking at 700 billion dollars worth of business getting a slice of that pie depends on how well you manage the contracting project this is because idiqs are essentially empty contract structures which then require a second round of winning task orders for contracts with the government this two step structure which is specified in law and regulation has specific pitfalls and opportunities which are rarely the subject of contract and project management training salesky s coaching style talks you through the specific challenges in the startup management and closing of the idiq this book gives a pragmatic and best practice description of the entire life cycle of this type of contract offering you the inside advisor you need to help you through the pragmatics issues of clients performers and bosses expectations the dept of state bureau of diplomatic security ds is responsible for protecting personnel facilities and info both domestic and abroad over the years ds has been unable to provide long term personal protective services solely from its pool of special agents and it has turned to contractual support this report focuses on the blackwater contract in iraq and associated task orders this audit addressed four objectives 1 what was the contracting process 2 what were the key requirements and provisions of the contract and task orders 3 what are the costs and funding sources of the contract and task orders 4 how did the dept administer the contract and task orders to provide proper oversight of blackwater s cost and performance in iraq this

~~that are independent at best and in competition at worst the french scientist and philosopher~~
blaise pascal 1623 1662 famously said le coeur a ses raisons que la raison ne connaît point
the heart has its reasons that reason does not know over the last century however
psychologists and neuroscientists have increasingly appreciated their very strong reciprocal
connections and interactions initially this was demonstrated in cognitive functions such as
attention learning and memory and decision making for instance an emotional stimulus captures
attention e g anderson phelps 2001 likewise emotional stimuli are better learned and
remembered than neutral ones e g mcgaugh 1990 and they can provide strong incentives to bias
decision making bechara et al 1997 in more recent years cognitive control has also been found
to be intimately intertwined with emotion this is consistent with an approach that considers
cognitive control as an adaptive learning process braver cohen 1999 reinforcement learning in
particular holroyd coles 2002 verguts notebaert 2009 from this perspective cognitive control
is not a cool encapsulated executive function but instead involves rapidly calculating the
value of situational contextual and action cues rushworth behrens 2008 for the purpose of
adapting the cognitive system toward future optimal performance a wide array of research has
shed light on cognitive control and its interactions with affect or motivation behaviorally
important phenomena include how people respond to difficult stimuli e g incongruent stimuli
task switches negative feedback or errors and how this influences subsequent task processing
neurally an important target structure has been the anterior cingulate cortex acc and its
connections to traditional emotional e g amygdala and cognitive areas e g pre motor cortex
dorsolateral prefrontal cortex acc seems to play a predominant role in integrating distant
effects from remote cognitive and emotion systems in order to guide and optimize behavior the
current special issue focuses on the bi directional link between emotion and cognitive control
we invite studies that investigate the influence from emotion on cognitive control or vice
versa the influence of cognitive control on emotion contributions can be of different types we
welcome empirical contributions behavioral or neuroscientific but also computational modeling
theory or review papers by bringing together researchers from the traditionally separated

~~domains we hope to further stimulate the crosstalk between emotion and cognitive control and~~
thus to deepen our understanding of both washington the army official who managed the pentagon
s largest contract in iraq says he was ousted from his job when he refused to approve paying
more than 1 billion in questionable charges to kbr james risen new york times june 17 2008
this book by that very army official provides an eye opening firsthand account of how the us
government hands over your tax dollars to support contractors like kbr and halliburton rather
than supporting the troops this authoritative and well documented record of the logcap
contract in iraq and afghanistan is at the same time a study of us participation in iraq and
afghanistan as well as the workings of government agencies and congress the first chapter sets
the scene briefly narrating the author s work on behalf of us military efforts especially in
iraq subsequent chapters illustrate specific issues in contractor relations that resulted in
unsafe conditions for the troops and blew millions of taxpayer dollars loyal and hard working
government officials and employees who tried to keep things on track were turned away and
those who sought to rein in the free for all were sacked the author reveals problems with kbr
s provision of transportation electricity food and water other chapters are more analytic and
evaluate army logistics congressional oversight and the question of whether letting contracts
for this kind of support is appropriate at all the kind of problems that concern military
policy leaders defense analysts public policy analysts and scholars in these areas as well as
the citizens in whose name this is all done the overall objective of this report was to
determine whether dod officials properly managed and administered the contracts supporting the
dod counter narco terrorism technology program office specifically this report reviewed
contract management surveillance and billing for 35 task orders worth approximately 98 8
million issued on or before august 16 2008 includes recommendations charts and tables this is
a print on demand edition of an important hard to find publication the code of federal
regulations is a codification of the general and permanent rules published in the federal
register by the executive departments and agencies of the united states federal government the
full texts of armed services and othr boards of contract appeals decisions on contracts

~~appeals this book contains the refereed proceedings of the 15th international conference on~~
business process modeling development and support bpm4ds 2014 and the 19th international
conference on exploring modeling methods for systems analysis and design emmsad 2014 held
together with the 26th international conference on advanced information systems engineering
caise 2014 in thessaloniki greece in june 2014 the 20 full papers accepted for bpm4ds were
selected from 48 submissions and cover a wide spectrum of issues related to business process
development modeling and support they are grouped into topical sections on business process
modeling as a human driven process representing the human perspective of business processes
supporting humans in business processes variability enabling process models various models for
various process perspectives and bpm4ds in practice the ten full and three short papers
accepted for emmsad were chosen from 27 submissions and focus on exploring evaluating and
enhancing modeling methods and methodologies for the analysis and design of information
systems enterprises and business processes they are grouped into sections on conceptual
modeling requirements modeling business process modeling goal and language action modeling
enterprise and business modeling and new approaches some vols include supplemental journals of
such proceedings of the sessions as during the time they were depending were ordered to be
kept secret and respecting which the injunction of secrecy was afterwards taken off by the
order of the house

Defense Logistical Support Contracts in Iraq and Afghanistan 2010-10 present procurement
practices for purchase of commercial commercial off the shelf and non developmental products
and services take thirty days and sometimes years to procure and deliver to the end user
federal government contracting offices spend costly amounts of time advertising the actions
and preparing formal solicitation documents for each purchase order generated by the end user
this translates to high administrative costs high prices and at times marginal performance
this research offers alternative procurement practices through a single award indefinite
delivery indefinite quantity contract accessed through an advanced electronic system which is
maintained in accordance with commercially established practices further comparisons are made
with the growing popularity of multiple award contracts as these procurement instruments
affect competition pricing and socio economic issues

Energy and Water Development Appropriations for 2003 2002 the code of federal regulations is
the codification of the general and permanent rules published in the federal register by the
executive departments and agencies of the federal government
