Management Accounting for Decision Makers 2016

a revision of financial accounting and reporting this text is suitable for an introductory financial accounting course at either the undergraduate or mba level the book assumes no prior financial accounting exposure on the part of the student the book does assume that the instructor is interested in positioning financial accounting as an important element in managing a business enterprise and in communicating that enterprise's performance to interested constituencies the text adopts a business context user orientation outlook as a central emphasis and places moderate emphasis on the procedural aspects of financial accounting at either the undergraduate or the mba level instructors have the flexibility to pitch their use of the text with some slight alterations to the basic emphases they can do this through their selection of end of chapter assignments these assignments provide an array of choices from the purely conceptual to the purely procedural and in between

moreover instructors can go into more of the technical details of a topic if they choose by incorporating the chapter appendices an instructor s manual is available simply contact shirley grall mcgraw hill com for a copy

Management Accounting for Decision Makers 1991

financial accounting for decision makers presents the key concepts of accounting without going into too much unnecessary technical detail the book is aimed as users of accounting information not preparers of accounts
