*Life After Death* 2002 a first collection of poems by a lifelong poet

*Twilight Passages* 2020-06-07 the yiddish writer moyshe leyb halpern wrote in his poem momento mori and should moyshe leyb the poet say that he saw death just as he sees himself in the mirror will they believe moyshe leyb these poems by hanoch guy kaner may occasion a like incredulity after all if as wittgenstein asserted death is not an event in life we do not live to experience death then what about the contending equally experiential statement by rebbe bunam of przysucha about himself that all my life i have been learning how to die hanoch guy kaner does not care to explain or reconcile the seeming paradox if there is one or even to prefer one assertion to the other himself a poet like moyshe leyb he too sees his long familiar neighbor death just as he sees himself in the mirror thus these poems each of them a momento vitae are each a kind of self portrait as well and as with late rembrandt self portraits these poems too in the words of john berger contain or embody a paradox they are clearly about old age yet they address the future they assume something coming toward them apart from death a something which he the poet sees already remembers already and for which it would seem death itself is the mirror but will they believe hanoch guy kaner death stands behind you on the supermarket long line as other unexpected events robert margolis we dread it we avoid thinking about it but it is present all the time the poems in this book are explorations of the unknowable and nightmares the poet pulls veils from what is beyond but so close and tangible for a journey like no other in which we call upon angels spirits and souls we visit heaven and hell and hope to enter though the gate of mercy hgk

*Death Poems for the Grieving Heart Book* 2000 gerald stern national book award winning poet creates a powerful new prose book in his ninth decades as he contemplates mortality in his characteristic audacious uncompromising funny and iconoclastic style stern looks back at his life and forward to how he will end his days will he be cremated against the tenets of judaism or buried and if buried where he visits synagogues to find answers to questions that are unanswerable he examines his identity a jew born of immigrant parents and raised somewhat haphazardly in pittsburgh on account of the death of his sister sylvia at ten when the author was eight years old her death lingers over death watch as much as the author's own inevitable demise stern wrestles with his identity in judaism his name uprooted from its origins as so much of his life will be willfully disrupted from the expectations of his parents and the norms of a predictable path stern recounts his life itself a grand digression which takes him from pittsburgh to the army to paris on the gi bill and back to the us where he immerses himself in the literary culture around him death watch which stern describes as an account of a final journey reads instead as a vivid passionate and at times whimsical look at the gamble of living life to its fullest choosing the life of a poet philosopher prophet lover radical and perpetual trouble maker he revels in his past love affairs the many women beloved in his life he recollects books that occupy his recent reading the work of w g sebalde blaise cendrars and louis ferdinand celine and how memory is always at the heart of literary accomplishment and what creates the staying power of great literature stern's early and traumatic loss of his older sister provides the occasion to imagine what her life might have been had she lived sylvia the painful loss which his family refused to talk about erasing her life as they erased her death in their inability to cope with its magnitude sylvia nonetheless lives on with stern his everlasting muse his eternal companion in a lighter vein the author tells about his misbehavior beginning in the sixth grade when he discovers his teacher wears a wig to cover her bald head a secret he immediately spreads to the entire school on a visit to camden new jersey he visits the whitman home and takes a moment to lie down in whitman's bed in the william carlos williams library he walks out with williams's hat which on second thought he returns to its rightful place as a teacher at temple university he lectures the institution's president in front of a faculty assembly on the mistakes in grammar and english usage he made in addressing the meeting but while walking the edge speaking out for justice stern never falters in his commitment to poetry his dedication to writing and his championing of fellow writers death watch gives us a writer at the peak of his powers no holds barred stern joins the likes of writers such as tony judt oliver sacks jean dominique bauby and randy pausch who while contemplating mortality celebrate lives lived in full tilt in the case of gerald stern his memoir portrays a life lived at the edge of boundaries with the intoxication of poetry and love and with the compassion of a writer who ends death watch with a celebration of orangutans

*Birth to Death* 2016-03-07 from the depths of sorrow following the sudden death of her closest female mentor brenda hillman asks anguished questions in this book of poems about separation spiritual transcendence and the difference between life and death both personal and philosophical her work can be read as a spirit guide for those mourning the loss of a loved one and as a series of fundamental ponderings on the inevitability of death and separation at first refusing to let go desperate to feel the presence of her friend the poet seeks solace in a belief in the spirit world but life not death becomes the issue when she begins to see physical existence as an interruption that preoccupies us with shapes and borders shape makes life too small she realizes comfort at last comes in the idea of reverse seeing that even if she cannot see forward into the spirit world her friend can see backward

into this world and be with her death tractates is the companion volume to a philosophical poetic work entitled bright existence which hillman was in the midst of writing when her friend died published by wesleyan university press in 1993 it shares many of the same gnostic themes and sources
