Ugo Foscolo's tragic vision in Italy and England examines an underexplored aspect of Foscolo's literary career: his tragic plays and critical essays on that genre. Now translator Federica Brunori Deigan presents lyrical English language versions of these two tragedies which taken together dramatize the first two epochs in Manzoni's history of Italy. The Betrothed completes the triptych illustrating the period of Spanish domination long unavailable in English. The Count of Carmagnola and Adelchi are distinguished by their dramatic power and thematic gravity. Manzoni considers the interactions of Christian morals and Machiavellian politics through deft psychological portraiture ultimately revealing the course of history as a fabric woven by individuals. Free will according to a logical pattern of actions and reactions within the vaster providential plan that human eyes can only dimly perceive. Book jacket gender mediation and popular education in Venice 1760-1830 examines how women with enough cultural capital could turn their identity as representatives of the public. Those on the receiving end of education to their advantage producing knowledge under the guise of relaying it. Author Susan Dalton looks at the question of how elite women turned their reputation for ignorance into an opportunity to establish themselves as authors at the dawn of the nineteenth century in Venice. Many literary figures saw women as a group in need of education by deploying essentialist understandings of femininity whereby women possessed superior moral virtue but deficient rationality. These women entered the world of print as cultural mediators identified by contemporaries as key players in the social projects of public education and moral edification central to the European Enlightenment focussing on Isabella Teotochi Albrizzi and Giustina Renier Michiel. Both renowned Venetian authors Dalton introduces two well-known Italian women of letters to English-speaking scholars, re-evaluates the impact of their writing in Italy and raises questions about female authorship across Europe. Broadens our conceptions of gender norms and enriches our knowledge of a little-known period of women's writing in Italy. This volume is an essential resource for students and scholars alike interested in women's and gender history, early modern history and social and cultural history. Contemporary with the Romantic generation, peer of Keats, Holderlin and Goethe and forerunner of Valéry and Pound, Ugo Foscolo is nevertheless little known outside Italy. In an endeavor to discover this exemplary European poet for English-speaking readers and to rediscover him for Italian readers, Glauco Cambon examines both textually and contextually Foscolo's major works and their inextricable connection with his life, his philosophy and his aesthetic principles. Nonfictional Romantic prose expanding borders. Surveys a broad range of expository, polemical and analytical literary forms that came into prominence during the last two decades of the eighteenth century and the first half of the nineteenth. They stand in contrast to better-known Romantic fiction in that they endeavor to address the world of daily empirical experience rather than that of more explicitly self-referential fanciful creation. Among them are genres that have since the nineteenth century come to characterize many aspects of modern life like the periodical or the psychological case study. Others flourished and enjoyed wide spread popularity during the nineteenth century but are much less well known today like the almanac and the diary. Travel narratives, pamphlets, religious and theological texts, familiar essays, autobiographies, literary critical and philosophical studies and discussions of the visual arts and music all had deep historical roots when appropriated by Romantic writers but prospered in their hands and assumed distinctive contours indicative of the breadth of Romantic thought. Special offer: 30% discount for a complete set. Order 5 vols. The Romanticism series in the comparative history of literatures in European languages is the result of a remarkable international collaboration. The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves into modernism. A glance at the index of each volume quickly reveals the extraordinary richness of the series. Total contents: Romantic irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross-cultural and interdisciplinary studies with special attention also to literatures in less widely diffused languages. Romantic drama traces creative innovations that deeply altered the understanding of genre at large. Fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd. Romantic poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments. Nonfictional Romantic prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self-commentary in theoretical statements on the arts, society, life, the sciences and more. Nor are the discursive dimensions of imaginative literature neglected in the closing volume, Romantic

prose fiction where the basic romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout europe and the new world this enormous realm is seen not just in terms of romantic theorizing but in the light of the impact of romantic ideas and narration on later generations as an aid to readers the introduction to romantic prose fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix no other series exists comparable to these volumes which treat the entirety of romanticism as a cultural happening across the whole breadth of the old and new worlds and thus render a complex picture of european spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age navigating the landscape of romantic literature and art across europe and the americas an outline of romanticism in the west invites readers to embark upon a literary journey showcasing a breadth of theoretical and contextual approaches to the study of romanticism john isbell provides an insightful contemporary overview of the field paired with wide
