prior to the european union eu 2004 2007 enlargement there were several predictions that this event would hamper progressive decision making within

the eu on environmental policy it was believed that the new member states had adopted eu rules as a consequence of the eu s conditionality and consequently they would rather slow down the reform speed in the field after accession in this book mats braun offers an up to date account of how post communist member states have handled policy initiatives in the field of environmental policy after accession using detailed case studies of how bulgaria the czech republic poland and romania dealt with two different eu policy initiatives reach and the climate energy package he explores whether social norms and the process of socialization can help us understand why the track record of new member states in the area of environmental policy is more varied than was originally envisaged prior to enlargement

around 18 million young chinese people were sent to the countryside between 1966 and 1976 as part of the cultural revolution mao s children in the new china allows some of them to tell their moving stories in their own voices for the first time in this inspiring collection of interviews with former red guards members of the first generation to be born under chairman mao talk frankly about the dramatic changes which have occurred in china over the last

two decades in discussing the impact these changes have had on their own lives the former revolutionaries give a direct insight into how ex maoists view contemporary china revealing an attitude perhaps more critical than that of most western commentators these poignant memoirs tell the very personal stories of how people from all walks of life were affected by both the cultural revolution and deng xiaoping s economic reforms they cover subjects as diverse as marriage and divorce the privatization of industry family relationships universities and the stock market mao s children in the new china is essential reading for all those interested in learning more about the personal and social history of modern china

no group of american minority voters shifted allegiance more dramatically in the 1930s than black americans did up until the new deal era blacks had shown their traditional loyalty to the party of lincoln by voting overwhelmingly the republican ticket by the end of f d roosevelt s first administration however they tremendously voted the democratic ticket the decades long wholesale attachment of blacks to the party of lincoln with its laudable efforts to support blacks emancipation proclamation and reconstruction was

understandable and inevitable enough the anomaly was the massive shift by blacks to the democratic party traditionally identified with its long list of constant anti black and premeditated opposition to black liberation opposition to emancipation and reconstruction and with an ongoing record of all forms of racial discrimination segregation disfranchisement exclusion white primaries and white supremacy the transformation of the black vote from solidly republican to solidly democratic did not happen instantaneously but rather it developed over decades of maturing as a result of the amalgamated efforts of presidents and black leaders the move of black voters toward the democratic party was part of a nationwide trend that had occurred with the creation of the roosevelt coalition of 1936 this national shift would make the democrats the majority party for the next several decades including a very decisive margin of black voters in the balance of power

for almost fifty years much has been written concerning mark 16 9 20 during the same time period evidence once counted against mark 16 9 20 was shown to be otherwise in this study david w hester surveys modern scholarship 1965 2011 surrounding the passage he examines the passage itself the external evidence with particular attention paid to the manuscripts and the patristics especially those of the second and third centuries and the internal evidence

featuring details that are problematic as well as those that favor markan authorship finally a proposal concerning the origin of the passage is presented the first edition of mark s gospel ended at 16 8 resulting in the manuscript tradition that omits the passage but this was not his intended ending later his associates attached mark s notes and published a second edition of the gospel with the last twelve verses this led to its inclusion given that the passage is cited by second and third century witnesses and attributed to mark along with the biblical prohibition against adding to or taking from scripture it is doubtful that an anonymous second century author could have been successful in adding his own composition and it being widely accepted by the early church

ai is revolutionizing the world here s how democracies can come out on top
artificial intelligence is revolutionizing the modern world it is ubiquitous
in our homes and offices in the present and most certainly in the future
today we encounter ai as our distant ancestors once encountered fire if we
manage ai well it will become a force for good lighting the way to many
transformative inventions if we deploy it thoughtlessly it will advance
beyond our control if we wield it for destruction it will fan the flames of a
new kind of war one that holds democracy in the balance as ai policy experts
ben buchanan and andrew imbrie show in the new fire few choices are more
urgent or more fascinating than how we harness this technology and for what
purpose the new fire has three sparks data algorithms and computing power
these components fuel viral disinformation campaigns new hacking tools and
military weapons that once seemed like science fiction to autocrats ai offers
the prospect of centralized control at home and asymmetric advantages in
combat it is easy to assume that democracies bound by ethical constraints and
disjointed in their approach will be unable to keep up but such a dystopia is
hardly preordained combining an incisive understanding of technology with
shrewd geopolitical analysis buchanan and imbrie show how ai can work for

democracy with the right approach technology need not favor tyranny

now almost upon us how and why this is the case is here explained thoroughly and logically with many examples directly from the word of god in god s saving plan for the world everyone must in time make a free will choice to become part of the israel of god in order to access eternal life in the kingdom of god the route to take is the strait and narrow way mat 7 13 14 that very few have so far found and it involves the biblical new and old covenants which both apply to this israel embark on this voyage only if you are willing to be challenged about some basic christian preconceptions be a serious open minded bible student and trust what the bible teaches but remember that time is short what the bible has taught me i see as both vital and urgent for our eternal salvation yet i know of no church or individual theologian who teaches what this book deals with in any substantive way be prepared for major challenges to your understanding just as god has challenged me in the epistles paul refers to two israels whom he calls israel after the flesh i cor 10 18 and the israel of god gal 6 16 i focus mainly on the latter but i also explain an unexpected but critically important connection between them dependent on the teaching nearly all christian denominations either teach nothing at all on it or almost the opposite of what scripture repeatedly showed me looking back i find this absolutely staggering very few christians understand that the new covenant also only applies to israel as i will clearly show i no longer believe that the nt new testament can be fully understood without this extra israel dimension had i

felt i could deliver this in a more light hearted way i would have done so but its implications are too awesome and fundamental to our eternal life prospects for that

the bible is simply a love letter compiled into sixty six books and written over a period of sixteen hundred years by more than forty authors living on three continents although the authors came from different backgrounds there is one message one theme one thread that runs throughout the entire bible from the first book genesis to the last book revelation that message is god s redeeming love for mankind a message that is as relevant for us today as it was two thousand years ago these five books matthew mark luke john and acts begin with the birth of jesus christ and conclude with the first imprisonment of the apostle paul about six decades later over the course of these decades god introduced elements of his sovereign plan that turned the world upside down he moved from an emphasis on the nation of israel to an emphasis on the

church from a covenant of law to a covenant of grace from his holy spirit merely coming upon people to actually indwelling them and from commanding israel to live in such a way as to attract others to commanding the church to disperse throughout the world and make disciples of all nations the gospels give us four similar but distinct accounts of jesus the messiah god s son his birth childhood ministry teaching miracles arrest trials death and resurrection are all handled differently by the four authors matthew mark luke and john but in every record by the time the tomb of jesus was empty the world had been changed while the gospels tell the story of the life of christ the book of acts tells the story of the church of christ from its founding on the day of pentecost in the city of jerusalem through its expansion around the then known world to its crisis when the apostle paul was imprisoned in rome for the first time the story is one of excitement intrigue incredible growth and life changing encounters
