The Elements of Journalism

2001-07-24

in july 1997 twenty five of america s most influential journalists sat down to try and discover what had happened to their profession in the years between watergate and whitewater what they knew was that the public no longer trusted the press as it once had they were keenly aware of the pressures that advertisers and new technologies were putting on newsrooms around the country but more than anything they were aware that readers listeners and viewers the people who use the news were turning away from it in droves there were many reasons for the public s growing lack of trust on television there were the ads that looked like news shows and programs that presented gossip and press releases as if they were news there were the docudramas television movies that were an uneasy blend of fact and fiction and which purported to show viewers how events had really happened at newspapers and magazines celebrity was replacing news newsroom budgets were being slashed and editors were pushing journalists for more edge and attitude in place of reporting and on the radio powerful talk personalities led their listeners from sensation to sensation from fact to fantasy while deriding traditional journalism fact was blending with fiction news with entertainment journalism with rumor calling themselves the committee of concerned journalists the twenty five determined to find how the news had found itself in this state drawn from the committee s years of intensive research dozens of surveys of readers listeners viewers editors and journalists and more than one hundred intensive interviews with journalists and editors the elements of journalism is the first book ever to spell out both for those who create and those who consume the news the principles and responsibilities of journalism written by bill kovach and tom rosenstiel two of the nation s preeminent press critics this is one of the most provocative books about the role of information in society in more than a generation and one of the most important ever written about news by offering in turn each of the principles that should govern reporting kovach and rosenstiel show how some of the most common conceptions about the press such as neutrality fairness and balance are actually modern misconceptions they also spell out how the news should be gathered written and reported even as they demonstrate why the first amendment is on the brink of becoming a commercial right rather than something any american citizen can enjoy the elements of journalism is already igniting a national dialogue on issues vital to us all this book will be the starting point for discussions by journalists and members of the public about the nature of journalism and the access that we all enjoy to information for years to come

Profile Pieces

2015-10-14

this book examines the history theory and journalistic practice of profile writing profiles and the practice of writing them are of increasing interest to scholars of journalism because conflicts between the interviewer and the subject exemplify the changing nature of journalism itself while the subject often through the medium of their press representative struggles to retain control of the interview space the journalist seeks to subvert it this interesting and multi layered interaction however has rarely been subject to critical scrutiny partly because profiles have traditionally been regarded as public relations exercises or as soft journalism however chapters in this volume reveal not only that profiling has historically taken many different forms but that the idea of the interview as a contested space has applications beyond the subject of celebrated individuals the volume looks at the profile s historical beginnings at the contemporary manufacture of celebrity versus the ordinary at profiling communities countries and movements at profiling the destitute at sporting personalities and finally at profiling and trauma

an encounter between philosophy and journalism recurs across the modern philosophical tradition images of reporters and newspaper readers messengers and town criers announcements and rumors populate the work of such thinkers as kierkegaard nietzsche and benjamin this book argues that these three thinkers preoccupation with journalism cannot be separated from their philosophy proper but plays a pivotal role in their philosophical work where it marks an important nexus between their theories of history time and language journalism in the tradition vandeputte brings to light figures before anything else as a cipher of the time in which philosophy is written if the journalist and newspaper reader characterize what kierkegaard calls the present age that is because they exemplify a present marked by the crisis of the philosophy of history a time after the demise of history as a philosophizable concept in different ways the pages of the newspaper appear in the european philosophical tradition as a site where teleological and totalizing representations of history must founder together with the conceptions of progress and development that sustain them but journalism does not simply mark the end of philosophy for kierkegaard nietzsche and benjamin journalistic writing also takes on an exemplary role in the attempt to think time and history in the wake of this demise the concepts around which these attempts crystallize kierkegaard s instant nietzsche s untimeliness and benjamin s actuality all emerge from the philosophical confrontation with journalism and its characteristic temporalities
