singapore students study calculus through additional

mathematics am at upper secondary levels grades 9 and 10 h2

mathematics h1m and h2 matheamtics h2m at the pre university

levels grades 11 and 12 hence only these three mathematics

courses are discussed in this paper this course aims to equip

students with mathematical knowledge and analytical skills so

that they are able to apply techniques of calculus along with

their existing mathematical skills to solve scientific

problems whenever applicable mathematical reading skills so

that they can read and understand related mathematical

content in the basi objectives students who complete this

course would be able to handle calculus related problem

outline who should attend fees and funding calculus course is

meant for anyone who intends to pursue a course in

engineering science economics business or finance in the

university it can also help those taking a level exam
