las causas de los problemas en la iglesia pueden ser diversas pero la raíz de estos problemas es el alejamiento de la palabra de dios si la base no esta bien el resto del edificio probablemente no luzca bien en su nuevo libro el reconocido pastor miguel núñez reflexiona sobre cuán poco saludable se ha vuelto la iglesia contemporánea y nos muestra cómo aportar a sanarla para que esta pueda servir en su propósito inicial tenemos la gran responsabilidad de honrar la institución que el señor llamo su novia y la forma de hacerlo es realizar un pacto de arrepentimiento a los pies de la cruz y conformarse al estándar de su palabra the troubles of the church may be multiple but the root of these troubles is the church s distance from the word of god if the foundation is unstable the rest of the building may not look too good in his new book the well known latino pastor miguel núñez reflects on how unhealthy the contemporary church has become and shows us how we can contribute to the healing of the church so that it can reflect its original purpose we have the great responsibility of honoring this institution the lord called his bride and the way to do that is bowing in repentance at the foot of the cross and conforming to the standard of his word

by fr michel esparza we ve all been exhorted to cultivate self esteem and nurture a positive self image that sounds appealing but we also know that god calls us to humility and many well intentioned christians have it in the back of their minds that being humble means living their lives in a haze of discouragement anxiety and preoccupation with their own sinfulness after all the only alternative our culture seems to offer is a vacuous i m ok you re ok relativism the false peace that this world gives we know that can t be right so how can we attain the peace god wants for us if we re mired in self contempt how can we spread christian joy if we don t have any ourselves in self esteem without selfishness fr michel esparza leads the way out of this conundrum a lively sense of a father who looks on us with delight and unconditional love together with a fearless acceptance of our own wretchedness is the key fr esparza teaches us how to cultivate that humble self esteem which neither strays from the truth about the person nor fosters discouragement at our failures bringing together the best of classic spiritual wisdom and the insights of contemporary psychology he distinguishes between self esteem in the shallow pop psychology sense and the rightly ordered self love that is anything but self centered

tanto el pensamiento del corazón 1981 como anima mundi el retorno del alma al mundo 1982 constituyen dos innovadores ensayos que arrojan la psicología arquetípica iniciada por c g jung hacia una nueva dirección el mundo james hillman denomina a ésta psicología profunda de la extroversión una terapia que va más allá de la consulta y de las concepciones personalistas y que pretende enseñarnos a recuperar una vida del corazón y del alma partiendo del platonismo ficino y henry corbin el examen que hillman desarrolla sintéticamente en su primer ensayo trata de eliminar ideas mecanicistas preconcebidas o personalistas para mostrarnos que el corazón es el asiento de la imaginación pues ésta es la auténtica voz del corazón una voz que habla siempre imaginativamente ya que su pensamiento se expresa a través de sus imágenes para hillman el conocimiento del mundo no debe olvidar la inteligencia del corazón si quiere describir el mundo fielmente

montevideo abril 2023 cuando decidí publicar un nuevo libro de poesía y me puse a pensar en las palabras de bienvenida para nuestros queridos lectores me entró una especie de ansiedad al mismo tiempo que un gran nerviosismo por no repetir las mismas palabras que en textos anteriores aburriendo de ese modo a quiénes depositaban su confianza en mis poemas pero ni cortas ni perezosas las musas se mezclaron en mis sueños y con su delicada voz me hicieron una clara propuesta escribe sobre lo que sabes el amor y así lo hice pues estoy segura de que el amor es la única fuerza capaz de mover a este extraño y complejo mundo en el cual nos ha tocado coincidir amor es amor sin importar entre quiénes y hacia quiénes y teniendo en cuenta las difíciles circunstancias en que se mueve actualmente la humanidad sería una locura derrochar siquiera una pizca de este imprescindible sentimiento la capacidad de saber amar es tan importante para los seres humanos que me atrevo a decir que está por encima de cualquier otra condición que nos caracteriza como tal quien no sabe amar no sabe vivir y qué es la poesía sino una manifestación del amor acaso no podría llamarse amor a esos versos de promesas y esperanzas que sólo los poetas generosos quijotes de las letras eternos mensajeros de las musas podemos plasmar en papel para salvar al mundo de una triste y abrupta caída por la pérdida de este maravilloso sentimiento roguemos por un planeta repleto de amor y poesía en el cual el viento sea capaz de extender cada verso hasta llegar al corazón de todas las personas que habiten sobre la faz de la tierra tal como intentamos hacerlo nosotros los románticos escritores a través de nuestras palabras para terminar me gustaría hacer con ustedes un brindis imaginario por el amor y la poesía que cada vez tengan más fortaleza para desterrar todos aquellos factores que perjudican a la humanidad como los prejuicios el odio y la discriminación hacia quiénes son diferentes o aman de una forma diversa a la que estamos acostumbrados que así sea un abrazo a todos y espero que disfruten la lectura sheina lee

almudena grandes is one of spain s foremost women s writers having sold over 1 1 million copies of her episodios de una guerra interminable her six volume series that ranges from the spanish civil war to the democratic period the myriad prizes awarded to her 18 in total confirm her pre eminence this book situates grandes s novels within gendered philosophical and mnemonic theoretical concepts that illuminate hidden dimensions of her much studied work lorraine ryan considers and expands on existing critical work on grandes s oeuvre proposing new avenues of interpretation and understanding she seeks to debunk the arguments of those who portray grandes as the proponent of a sectarian eminently biased republican memory by analysing the wide variety of gender and perpetrator memories that proliferate in her work the intersection of perpetrator memory with masculinity ecocriticism medical ethics and the child s perspectives confirms grandes nuanced engagement with spanish memory culture departing from a philosophical basis ryan reconfigures the republican victim in the novels as a vulnerable subject who attempts to flourish thus refuting the current critical opinion of the victim as overly empowered the new perspectives produced in this monograph do not aim to suggest that grandes is an advocate of perpetrator memory rather it suggests that grandes is committed to a more pluralistic idea of memory culture whereby her novels

generate understanding of multiple victim perpetrator and gender memories an analysis that produces new and meaningful engagements with these novels thus ryan contends that grandes s historical novels are infinitely more complex and nuanced than heretofore conceived

among anglo american philosophers interest in mysticism has typically been limited to the question of whether or not mystical and religious experiences provide evidence for or knowledge of the existence and nature of god most authors conclude that they do not because such experiences lack certain qualities needed in order to be counted as cognitive in this study i examine some current philosophical opinions about mysticism and objections to its epistemic significance in the context of a detailed study of the writings of a single mystical author the spanish carmelite saint john of the cross 1542 1591 i argue that from his works one can draw a coherent theory of what takes place in the christian mystical life and will indicate how acceptance of this theory might be defended as rational through a type of inference often referred to as the argument to the best explanation in this way i hope to show that mysticism still has a significant bearing on the justification of religious faith even if it cannot be used to prove the existence of god the nature and advantages of my own somewhat unusual approach to mysticism can perhaps best be explained by contrasting it with the way other authors have dealt with the subject one of the most striking developments in recent decades has been the growing fascination with mysticism meditation and the experiential aspects of religion

at master s level students in translation studies may choose to complete their course by compiling a dissertation by commentary such projects involve detailed discussions of the strategies and procedures that students opt for when translating a source text of their choice be it literary audiovisual or technical however the vast majority of these dissertations by commentary usually remain stored in university libraries achieving consilience translation theories and practice brings to the fore the theoretical and practical potential of these dissertations by commentary it demonstrates how theories in translation studies can be fruitfully consciously and systematically applied during the translation practice thus helping to transcend the received wisdom according to which theorists and practitioners share little common ground additionally the contributors to this volume evince their ability to apply a research driven approach to their analysis by comparing their work with official translations or other field related texts as such this essay collection will contribute to a better understanding of the translator s decision making process and will offer future students valuable guidelines regarding the procedure normally followed in completing a dissertation by commentary

Political Violence and the Construction of National Identity in Latin America

1999-07-23

this clear and nuanced introduction explores the philippines ongoing and deeply charged dilemma of state society relations through a historical treatment of state formation and the corresponding conflicts and collaboration between government leaders and social forces patricio n abinales and donna j amoroso examine the long history of institutional weakness in the philippines and the varied strategies the state has employed to overcome its structural fragility and strengthen its bond with society the authors argue that this process reflects the country s recurring dilemma on the one hand is the state s persistent inability to provide essential services guarantee peace and order and foster economic development on the other is the filipinos equally enduring suspicions of a strong state to many citizens this powerfully evokes the repression of the 1970s and the 1980s that polarized society and cost thousands of lives in repression and resistance and billions of dollars in corruption setting the nation back years in economic development and profoundly undermining trust in government the book s historical sweep starts with the politics of the pre colonial era

and continues through the first year of rodrigo duterte s controversial presidency

verses against the darkness offers a new assessment of pablo neruda s poetry by looking at the intersection of his aesthetic method and political radicalism from 1925 to 1954 it challenges the canonical view that neruda was a gifted verse maker who in 1936 let himself be carried away by the excesses of communist politics instead by focusing primarily on tercera residencia 1935 1945 greg dawes argues for an uneven yet steady evolution and continuity in neruda s work politics and morality dawes relies on historical accounts biographies literary history and criticism and on neruda s political and aesthetic theory to prove that his poetry became contrary to received critical opinion more sophisticated literarily and politically as he became more radicalized during the spanish civil war and world war ii and as he developed his dialectical realism or guided spontaneity greg dawes is associate professor of latin american and world literatures at north carolina state university and is the editor of the on line journal a contracorriente
