gábor lövei's scientific communication course for students and scientists explores the intricacies involved in publishing primary scientific papers and has been taught in more than twenty countries writing and publishing scientific papers is the distillation of lövei's lecture notes and experience gathered over two decades it is the coursebook many have been waiting for the book's three main sections correspond with the three main stages of a paper's journey from idea to print planning writing and publishing within the book's chapters complex questions such as how to write the introduction or how to submit a manuscript are broken down into smaller more manageable problems that are then discussed in a straightforward conversational manner providing an easy and enjoyable reading experience writing and publishing scientific papers stands out from its field by targeting scientists whose first language is not english while also touching on matters of style and grammar the book's main goal is to advise on first principles of communication this book is an excellent resource for any student or scientist wishing to learn more about the scientific publishing process and scientific communication it will be especially useful to those coming from outside the english speaking world and looking for a comprehensive guide for publishing their work in english

Writing and Publishing Scientific Papers 2021-05-19

this book is a product of the third international conference on computing mathematics and statistics icms2017 to be held in langkawi in november 2017 it is divided into four sections according to the thrust areas computer science mathematics statistics and multidisciplinary applications all sections sought to confront current issues that society faces today the book brings collectively quantitative as well as qualitative research methods that are also suitable for future research undertakings researchers in computer science mathematics and statistics can use this book as a sourcebook to enrich their research works

Proceedings of the Estonian Academy of Sciences, Physics and Mathematics **2002-09**

this book discusses the conference that forms a unique platform to bring together academicians and practitioners from industrial engineering and management engineering as well as from other disciplines working on production function applying the tools of operational research and production operational management topics treated include

computer aided manufacturing industry 4 0 big data and analytics flexible manufacturing systems fuzzy logic industrial applications information technologies in production management optimization production economy production planning and control productivity and performance management project management quality management risk analysis and management and supply chain management

Proceedings of the Estonian Academy of Sciences, Engineering 2006-12

the conference aims at forming a unique platform to bring together academicians and practitioners from industrial engineering and management engineering as well as from other disciplines working on production function applying the tools of operational research and production operational management topics treated include computer aided manufacturing industry 4 0 big data and analytics flexible manufacturing systems fuzzy logic industrial applications information technologies in production management optimization production economy production planning and control productivity and performance management project management quality management risk analysis and management supply chain management

Proceedings of the Third International Conference on Computing, Mathematics and Statistics (iCMS2017) 2019-03-27

this book contains high quality papers presented at the first international forum on financial mathematics and financial technology with the rapid development of fintech the in depth integration between mathematics finance and advanced technology is the general trend this book focuses on selected aspects of the current and upcoming trends in fintech in detail the included scientific papers focus on financial mathematics and fintech presenting the innovative mathematical models and state of the art technologies such as deep learning with the aim to improve our financial analysis and decision making and enhance the quality of financial services and risk control the variety of the papers delivers added value for both scholars and practitioners where they will find perfect integration of elegant mathematical models and up to date data mining technologies in financial market analysis

Proceedings of the International Symposium for Production Research 2019 2019-10-24

this proceedings volume presents selected papers from the 7th international conference on emerging databases technologies applications and theory edb 2017 which was held in busan korea from 7 to 9 august 2017 this

conference series was launched by the korean institute of information scientists and engineers kiise database society of korea as an annual forum for exploring novel technologies applications and research advances in the field of emerging databases this forum has evolved into the premier international venue for researchers and practitioners to discuss current research issues challenges new technologies and solutions

Proceedings of the International Symposium for Production Research 2018 **2018-08-14**

this book presents the proceedings of the 4th international conference on advanced intelligent systems and informatics 2018 aisi2018 which took place in cairo egypt from september 1 to 3 2018 this international and interdisciplinary conference which highlighted essential research and developments in the field of informatics and intelligent systems was organized by the scientific research group in egypt srge the book is divided into several main sections intelligent systems robot modeling and control systems intelligent robotics systems machine learning methodology and applications sentiment analysis and arabic text mining swarm optimizations and applications deep learning and cloud computing information security hiding and biometric recognition and data mining visualization and e learning

Proceedings of the First International Forum on Financial Mathematics and Financial Technology 2021-02-08

the international conference on health care systems engineering hcse provided a timely opportunity to discuss statistical analysis and operations management issues in health care delivery systems the conference took place in milan between may 22nd and 24th 2013 scientists and practitioners discussed new ideas methods and technologies for improving the operation of health care organizations the event and this resulting volume emphasize research in the field of health care systems engineering developed in close collaboration with clinicians topics applicable to researchers and practitioners include hospital drug logistics operating theatres modelling and simulation in patient care and healthcare organizations home care services

2017-10-13

this book presents the proceedings of criocm 2016 21st international conference on advancement of construction management and real estate sharing the latest developments in real estate and construction management around the globe the conference was organized by the chinese research institute of construction management criocm working in close collaboration with the university of hong kong written by international academics and professionals the proceedings discuss the latest achievements research findings and advances in frontier disciplines in the field of construction management and real estate covering a wide range of topics including building information modelling big data geographic information systems housing policies management of infrastructure projects occupational health and safety real estate finance and economics urban planning and sustainability the discussions provide valuable insights into the implementation of advanced construction project management and the real estate market in china and abroad the book is an outstanding reference resource for academics and professionals alike

Proceedings of the International Conference on Advanced Intelligent Systems and Informatics 2018 2018-08-28

this book features papers addressing a broad range of topics including psychology religious studies natural heritage accounting business communication education and sustainable development it serves as a platform for disseminating research findings by academicians of local regional and global prominence and acts as a catalyst to inspire positive innovations in the development of the region it is also a significant point of reference for academicians and students this collection of selected social sciences papers is based on the theme soaring towards research excellence presented at the regional conference of sciences technology and social sciences rcstss 2016 organised bi annually by universiti teknologi mara cawangan pahang malaysia

Proceedings of the International Conference on Health Care Systems Engineering 2013-11-20

this volume includes selected and reviewed papers from the 4th international congress of automotive and transport engineering held in cluj romania in september 2018 authors are experts from research industry and universities coming from 14 countries worldwide the papers are covering the latest developments in automotive vehicles and environment advanced transport systems and road traffic heavy and special vehicles new materials manufacturing technologies and logistics accident research and analysis and innovative solutions for automotive vehicles the

conference is organized by siar society of automotive engineers from romania in cooperation with fisita

Proceedings of the Royal Society of London 1988

welcome to the proceedings of the sixth international conference on management science and engineering management icmsem2012 held from november 11 to 14 2012 at quaid i azam university islamabad pakistan and supported by sichuan university chengdu china quaid i azam university islamabad pakistan and the national natural science foundation of china the international conference on management science and engineering management is the annual conference organized by the international society of management science and engineering management the goals of the conference are to foster international research collaborations in management science and engineering management as well as to provide a forum to present current research results the papers are classified into 8 sections computer and networks information technology decision support system industrial engineering supply chain management project management manufacturing and ecological engineering the key issues of the sixth icmsem cover various areas in msem such as decision support system computational mathematics information systems logistics and supply chain management relationship management scheduling and control data warehousing and data mining electronic commerce neural networks stochastic models and simulation heuristics algorithms risk control and carbon credits

Proceedings of the 21st International Symposium on Advancement of Construction Management and Real Estate 2017-12-18

this book gathers selected contributions in the field of civil and construction engineering as presented by international researchers and engineers at the 2nd international scientific conference on socio technical construction and civil engineering stcce held in kazan russia on april 21 28 2021 the book covers a wide range of topics including building constructions and structures bridges roads and tunnels building materials and products construction management energy efficiency and thermal protection of buildings ventilation air conditioning gas supply and lighting in buildings innovative and smart technologies in construction sustainable development transport system development the contributions which were selected by means of a rigorous international peer review process highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaborations

Proceedings of the Regional Conference on Science, Technology and Social Sciences (RCSTSS 2016) 2018-07-20

from july 25 august 6 1966 a summer school on local fields was held in driebergen the netherlands organized by the netherlands universities foundation for international cooperation nuffic with financial support from nato the scientific organizing committee consisted of vander blij a h m levelt a f manna j p murre and t a springer the summer school was attended by approximately 80 mathematicians from various countries the contributions collected in the present book are all based on the talks given at the summer school it is hoped that the book will serve the same purpose as the summer school to provide an introduction to current research in local fields and related topics july 1967 t a springer contents arnn m and b mazur homotopy of varieties in the etale topology 1 bass h the congruence subgroup problem 16 bruhat f et j tits groupes algebriques simples sur un corps local 23 cassels j w s elliptic curves over local fields 37 dwork b on the rationality of zeta functions and l series 40 manna a f linear topological spaces over non archimedean valued fields 56 neron a modeles minimaux des espaces principaux homogenes sur les courbes elliptiques 66 raynaud m passage au quotient par une relation d equivalence plate 78 remmert r algebraische aspekten in der nichtarchimedischen analysis 86 serre j p sur les groupes de galois attaches aux groupes p divisibles 118 swinnerton dyer p the conjectures of birch and swinnerton dyer and of tate 132 tate j t

Proceedings of the 4th International Congress of Automotive and Transport Engineering (AMMA 2018) 2018-09-29

since the first icm was held in zürich in 1897 it has become the pinnacle of mathematical gatherings it aims at giving an overview of the current state of different branches of mathematics and its applications as well as an insight into the treatment of special problems of exceptional importance the proceedings of the icms have provided a rich chronology of mathematical development in all its branches and a unique documentation of contemporary research they form an indispensable part of every mathematical library the proceedings of the international congress of mathematicians 1994 held in zürich from august 3rd to 11th 1994 are published in two volumes volume i contains an account of the organization of the congress the list of ordinary members the reports on the work of the fields medalists and the nevanlinna prize winner the plenary one hour addresses and the invited addresses presented at section meetings 1 6 volume ii contains the invited address for section meetings 7 19 a complete author index is included in both volumes the content of these impressive two volumes sheds a certain light on the present state of mathematical sciences and anybody doing research in mathematics should look carefully at these proceedings for young people beginning research this is even more important so these are a must for any serious mathematics library the graphical presentation is as always with birkhäuser excellent revue roumaine de

mathematiques pures et appliquées

the 2019 digitalfutures the 1st international conference on computational design and robotic fabrication cdrf 2019 provides an international platform for advanced scientific research papers on the digital technology of architectural design and construction the themes of the papers include but are not limited to architectural theories tools methods and procedures in material intelligence data intelligence computational intelligence and robotic intelligence

Proceedings of the International Congress of Mathematicians 2012-12-06

the proceedings of the third international conference on communications signal processing and systems provides the state of art developments of communications signal processing and systems the conference covered such topics as wireless communications networks systems signal processing for communications this book is a collection of contributions coming out of third international conference on communications signal processing and systems held on july 2014 in hohhot inner mongolia china

Proceedings of the 7th International Conference on the Assessment of Animal Welfare at the Farm and Group Level 2023-09-04

advances in gas processing proceedings of the 2nd annual gas processing symposium 11 1 4 january 2010 doha qatar reviews the state of knowledge in gas processing the contributions are organized around five main themes i environmental sustainability ii natural gas processing technologies iii energy efficiency in operations iv design and safety and v operational excellence the papers on environmental sustainability cover topics such as the biogasification of waste monoethanolamine the role of lng in a carbon constrained world and sustainable water management the papers on natural gas processing technologies include the removal of acid gases from natural gas streams via membrane technology and selective control of fischer tropsch synthesis hydrocarbons product distribution the papers on energy efficiency in operations cover lifted turbulent jet flame in a cross flow novel hybrid biomass and coal processes and the adoption of plug in hybrid electric vehicles phevs the papers on design and safety include studies on the optimal design and operation of a gtl process and efficient design operating and control strategies for lng plants the papers on operational excellence deal with topics such as chemicals in gas processing the monitoring and optimization of hydrocarbon separation equipment and the inhibition of gas hydrate formation provides a state of the art review of gas processing technologies covers design operating tools and methodologies includes case studies and practical applications

Expanding Perspectives on Open Science: Communities, Cultures and Diversity in Concepts and Practices 2017-06-20

this book brings together papers presented at the 3rd conference of research in economics and management cireg held in morocco in may 2016 with a focus on the challenges of smes and innovative solutions they highlight the contribution of researchers in the fields of business and management with all their micro and macro economic

aspects they shed light on the universal scientific vision of the importance of smes with answers relevant to their local context and adapted to their specific national situation the relevance of sme research lies in its heuristic value of analyzing change rather than in constructing a category a particularly useful empirical concept this first volume is focused on economic issues

Proceedings of the 2019 DigitalFUTURES 2019-07-04

with emerging trends such as the internet of things sensors and actuators are now deployed and connected everywhere to gather information and solve problems and such systems are expected to be trustworthy dependable and reliable under all circumstances but developing intelligent environments which have a degree of common sense is proving to be exceedingly complicated and we are probably still more than a decade away from sophisticated networked systems which exhibit human like thought and intelligent behavior this book presents the proceedings of four workshops and symposia the 4th international workshop on smart offices and other workplaces soow 15 the 4th international workshop on the reliability of intelligent environments worie 15 the symposium on future intelligent educational environments and learning 2015 sofieee 15 and the 1st immersive learning research network conference ilrn 15 these formed part of the 11th international conference on intelligent environments held in prague czech republic in july 2015 which focused on the development of advanced reliable intelligent environments as well as newly emerging and rapidly evolving topics this overview of and insight into the latest developments of active researchers in the field will be of interest to all those who follow developments in the world of intelligent environments

The Proceedings of the Third International Conference on Communications, Signal Processing, and Systems 2015-06-12

this book includes papers presented at the 6th arte polis international conference the theme of the conference was imagining experiences creative tourism and the making of place and the book brings together studies based on lessons learned research and critical reviews related to creative tourism and reflections on placemaking covering a broad range of topics including cultural and experiential perceptions of landscape sustainable design urban and rural planning traditional and vernacular environment public realm thematic tourism as well as heritage preservation and management it discusses how issues of tourism shape our understanding of and discourse on architecture and landscapes the book serves as an invitation to more participatory and polyphonic dialogues in the field of architecture art and planning
