Getting the Most from the Wilcox Mixing Palette 2004-06-01

in the wake of dramatic recent changes in american family life evangelical and mainline protestant churches took markedly different positions on family change this work explains why these two traditions responded so differently to family change and then goes on to explore how the stances of evangelical and mainline protestant churches toward marriage and parenting influenced the husbands and fathers that fill their pews according to w bradford wilcox the divergent family ideologies of evangelical and mainline churches do not translate into large differences in family behavior between evangelical and mainline protestant men who are married with children mainline protestant men he contends are new men who take a more egalitarian approach to the division of household labor than their conservative peers and a more involved approach to parenting than men with no religious affiliation evangelical protestant men meanwhile are soft patriarchs not as authoritarian as some would expect and given to being more emotional and

dedicated to their wives and children than both their mainline and secular counterparts thus wilcox argues that religion domesticates men in ways that make them more responsive to the aspirations and needs of their immediate families

Summary of Hearings 1959

for over a century new testament scholars have explored the issue of possible antisemitism in Luke Acts especially because

the author apparently blames the jews for the death of jesus
this monograph offers a fresh analysis of this question
revealing a different emphasis that among the jews only
those associated with jerusalem especially the sanhedrin are
responsible for jesus death luke s israel is in fact divided in
response to jesus not monolithically opposed to him
furthermore the ascription of responsibility to the people of
jerusalem in acts widely regarded as a lukan creation in fact
is more likely to have been based on sources independent of
the synoptics a consideration of ancient literature concerned
with the deaths of innocent victims further suggests a likely
sitz im leben for the transmission of material ascribing
responsibility for jesus death

dynamite on the tropic of cancer is the radical explosive retelling of the first decade of the father of modern china dr sun yatsen s globally shaped formation as a professional revolutionist and of the impact of the adult sun s revolutionary relationship with hawai'i and with his varied communities of supporters there during its own most turbulent political decade the 1890s years in which this remote island nation transformed from native monarchy via

sovereign independent republic to become the usa's first overseas territory drawn from neglected primary sources dynamite reveals the hitherto untold story of the secret revolutionary alliance forged in honolulu's backstreets between sun's xingzhonghui and the idiosyncratic italophile soldier robert wilcox hawai'i's garibaldi and leader of the kanaka native hawaiian counterrevolution of january 1895 this failed uprising to restore hawai'i's tragic last queen witnessed firsthand by sun yatsen became the archetype upon which ten months later sun would base his own first attempt at armed insurrection in china the canton uprising of 26 october 1895 with an epic sweep across the pacific's tropic of cancer dynamite is the most important study yet written on the origins of sun yatsen's chinese revolution and its dynamic interface with hawaiian history
