Monthly Catalog of United States Government Publications

1977

handbook of proton nmr spectra and data index to volumes 1 10 compiles four types of indexes used in charting the proton nmr spectral database chemical name index molecular formula index substructure index and chemical shift index the chemical name index compiles all chemical names in alphabetical order followed by a spectrum number when the desired organic compound cannot be found in the chemical name index or its nomenclature is unclear it becomes necessary to look for a compound by means of its molecular formula hence the molecular formula index a unique notation system for representing substructure has been developed in the substructure index to allow easy correlation of the chemical environments of protons and chemical shift and at the same time permit fast consideration of a wide variety of model structures entries on the chemical shift index are arranged in order of increasing delta value ppm this publication is valuable to students and researchers for cross checking chemical names molecular formulas substructures of elements and chemical shifts of the proton nmr spectra and data
