The Secret of the Shadow 2002-12-03 in the case of the irreverent writings it is a colossal satire of human nature he resorted to a genre that some critics called pseudo history the small biblical diatribes that compose it written between 1870 and 1909 show twain s deep religious skepticism by this book hides under its mocking facade a humorous and scathing attack on established values and is the sample of a superior intelligence which leaves no puppet with a head

The Irreverent Writings 2021-05-08 la psicología de las percepciones interiores es una nueva rama de la psicología y tiene sus raíces en la cultura china especialmente en la medicina tradicional china con este libro los autores nos acercan en un lenguaje actual las raíces históricas y las técnicas específicas para la percepción interior un modo de percepción en que se basa esta nueva psicología conocer el mundo a través de la mente que en lugar de orientarse hacia afuera se dirige hacia adentro esta manera de explorar los principios de la vida se ha aplicado desde la antigüedad con el propósito de mantener una buena salud y lograr una vida longeva sin embargo en el siglo pasado se ha tendido a un conocimiento abstracto y meramente filosófico de la esencia de la percepción interior muchos conceptos como la unidad del hombre y el cielo por ejemplo acabaron siendo símbolos culturales de filosofías antiguas el hecho de que este concepto se refiera a un estado perceptible en el que el ser humano está conectado al cielo por medio del qi apenas se conoce hoy día considerar la vida desde una perspectiva holística y más abarcadora puede ser hoy parte de una moda pero son pocos quienes experimentan el sentido real de estar conectados interna y externamente con el cielo y la tierra diferente entonces de la metodología de la investigación moderna en la que la mente se orienta hacia lo exterior y es fundamentalmente objetiva no subjetiva a percepción interior implica dirigir la mente hacia nuestro interior para nutrirla y reforzar su poder

Psicología de las percepciones interiores 2021-03-15 mastery of light and shade rendered with accuracy and expressive power is the key to three dimensional form in drawing and painting here is the first book on this essential subject the product of years of study by one of the world s great teachers of drawing and an artist of international renown burne hogarth hogarth begins with the simplest kind of light and shade showing how a dark silhouette on white paper can communicate form and space he then shows how the silhouette is transformed into three dimensions with the addition of minimal light the highlight following these instructory chapters hogarth devotes a separate chapter to each of the given basic categories of light and shade single source light double source light flat diffused light moonlight and sculptural light in these chapters hogarth illustrates the effects of these different kinds of light on a variety of subjects and examines both natural and artificial light sources moving on to more complex lighting effects hogarth explains spatial light how light and shade can create a sense of near and far environmental light the effects of weather time of day and the changing of seasons textural light how light reveals the surface qualities of forms that range from rough stone to silk and satin draperies transparent light the effects passing through transparent materials like glass and water and translucent substances like moving water or sailcloth fragmentation light the disrupted light we see in such subjects as fire rain and flying snow radiant light the intense light we see when we look into the light source itself which may range from the sun to a candle flame and finally the various kinds of expressive light invented by the artist such as the symbolic and mystic light of religious art or the patterns of light and shade that convey a mood or a psychological state burne hogarth illustrates every effect of light and shade with brilliant drawings in pencil charcoal carbon pen and ink and brush and ink encouraging the reader to experiment with diverse drawing media dynamic light and shade is an essential volume for everyone who draws and paints

Dynamic Light and Shade 1991-09-01 a man has been murdered he is blond blue eyed and is wearing a white suit his surname is white the murdered man is dark black eyed and his suit is black the same as his surname and as if that isn t enough they look like perfect twins except for the details of eye colour and complexion two policemen are in charge of the hottest crime in london they will cross a sea of intrigue to find out that two gangs in the city have declared war on each other and that more murders are to follow a bizarre couple is at the epicentre of the mystery an old man with violet coloured eyes and a ten year old boy who have the peculiar habit of only talking to each other and never addressing anybody else nothing is as it should be not everything is black or white

Tedd and Todd's secret 2010-08-29 a fully illustrated beautifully produced edition of junichiro tanizaki s wise and evocative essay on japanese culture we find beauty not in the thing itself but in the patterns of shadows the light and the darkness that one thing against another creates were it not for shadows there would be no beauty this book is in fact a portal reading it you will be led by junichiro tanizaki s light touch into a mysterious and tranquil world of darkness and shadows where gold flashes in the gloom and a deep stillness reigns if you are accustomed to equate light with clarity the faded with the worthless and the dim with the dreary prepare for a courteous but powerful realignment of your ideas in praise of shadows is a poetic paean to traditional japanese aesthetics in a free ranging style that moves from architecture to no theatre and from cookery to lighting tanizaki teaches us to see the beauty in tarnished metal the sombre dignity in unglazed pottery the primacy of organic materials that bear witness to the regular touch of human hands it is also astonishingly prescient offering a gentle warning against the quest for airbrushed perfection and reminding us that too much light can pollute and obscure our natural world in this special edition the text is accompanied by specially selected images to complement tanizaki s reflections and further illustrate the pattern and beauty of shadows
