**The SAGE Encyclopedia of Communication Research Methods** 2017-01-15 covering more than 400 laboratory tests and diagnostic procedures, this handbook is organized by test type and body system coverage. It includes test purpose, normal results, abnormal results, patient preparation and procedure, and post-test care. Suggestions to Medical Authors and A.M.A. Style Book 1919 designs on truth provides a reinterpretation of Augustan poetry not as works to be defended before the court of Matthew Arnold and the Romantic tradition but as works that examine the rich relationships among text, culture, and world. In designs on truth, Gregory Colomb identifies the characteristics of the mock epic and argues that the form had developed formal expectations. In making this argument, he explains the intentions of the writers of mock epics and expands our conception of the interest and significance of such poems by demonstrating how these poems are supported by the genre's poetics. He brings out ways these poems differ from other Augustan poems such as the Horatian epistles that are often discussed with them. Designs on truth puts into question the distinction between history and poetry in the mock epic, examining it at three levels of poetic structure: fable, global narrative structure, and portraits. Characterological narrative structure focusing chiefly on the mock epic's representations in terms of class and kind. This study returns historical particulars to the central role that the poets had always given them and seeks to understand how they are made poetic. Designs on truth shows how the poems themselves subvert any easy distinction between historical and poetic particulars. This often philosophical genre is itself a reconsideration of the role of reference, fact, and judgment, value in representation. This study shows how representation and judgment work in the mock epic and how together they stand at the heart of the dominant Augustan poetic. Colomb also provides new readings of the mock epic, including the first comprehensive reading of the dispensary since the eighteenth century.
