The HISOFE Dictionary of Midnight Politics

2014-12-01 building on fossungu s earlier works and essentially providing africa with original critical and multi level analyses of the trio of globalization democracy and national determination this book theorizes that african states have to unite in order to have any impact in the global economy using the failure of the cameroon goodwill association of montreal cgam as a case study the book urges africans to make hard choices and avoid politickerization and midnight politics in favour of fossungupalogy that is the science of straightforwardness necessitating the fearless looking at truth straight in the eye the questions of the book are many but do all boil down to whether or not africans fear the truth and do not therefore do politics it is amazing that africans in the west live in societies where fierce political competitors do embrace each other after one has defeated the other but they are incapable of looking their so called friends in the eye and saying for example man i think you ve totally gotten it wrong this time such comportment defines politickerization or negative competition while attempting some possible responses to the numerous queries it raises this book basically proffers the science of four eyesism as a discipline that all african schools need to institute and make a compulsory subject if the vandalized continent would have to be awakened to its realities this

criminal justice industrial complex diverting
scarce resources from other social services such
as education social welfare and health care while
in recent years downsizing has affected almost
every segment of the public sector the criminal
justice bureaucracies have seen an unprecedented
expansion through ethnographic observations
analysis of census data and historical research
william chambliss describes what is happening why
it has come about and what can be done about it he
explores the genesis of crime as a political issue

~~and the effect that crime policies have had on~~
